FY2013 Career-Technical Education (CTE) Technical Assessment System Matrix

REQUIRED ASSESSMENTS

State CTE Technical Assessments developed by OSU-CETE and Project Lead the Way.

Programs that have a State CTE assessment or other proprietary test listed as required are expected to have students participate in testing. There are cases where programs have no required test listed. This may be due to any number of factors but should there be no test listed as required then students are not required to take a particular test nor to have those scores reported in EMIS. All required tests are reportable in EMIS and can be used in the calculation of the state technical skill attainment indicator of performance (2S1).

End of Course Tests

The Agricultural and Environmental (A&E) Systems Career Field pathways now consist of individual courses. Each course has an end of course test that all students required. Pathway tests are comprised of end of course tests in a similar way that other CTE program tests are comprised of modules. A student is expected to take an end of course test for each A&E course they enroll in. The student's total test score will be based on the scores across all end of course tests taken by the student. Individual end of course test scores need not be reported in EMIS. Only the total test score is reported in EMIS and contributes to the technical skill attainment indicator of performance (2S1).

Industry Credential and Governmental Licensure Assessments

Among the list of required tests there are options where an industry assessment or governmental licensure assessment may be used in lieu of the State CTE assessment. In the absence of a State CTE assessment, the assessment associated with an industry certificate or governmental licensure program may be the only option available. All such exams have met minimum standards established by the CTE Office and can be reported in EMIS for the calculation of the technical skill attainment indicator of performance (2S1).

RECOMMENDED CREDENTIALS

State or Industry Recognized Certificate or Governmental License Attainment (1STP3).

Any industry certification or governmental licensure earned by a student may be used in reporting information for the "State or Industry Recognized Certificate or License Attainment" indicator of performance (1STP3). The list of credentialing opportunities is <u>not</u> comprehensive and is <u>not</u> intended to limit the credentials that students should strive to earn. Any state or industry-recognized certificate/license that a student obtains in the student's CTE program of concentration can be reported in EMIS for this indicator of performance. The reporting options are simply "Y" and "N".

FAMILY AND CONSUMER SCIENCE END OF COURSE TESTS

The series of Family and Consumer Sciences End of Course Tests have been included at the end of this document. It is highly recommended that Family and Consumer Science programs administer these tests. These valid and reliable tests are a very useful tool that can be used for continuous improvement of the courses being offered. Because these courses are not classified as workforce development, the tests are not used in calculating the state technical skill attainment indicator of performance (2S1).

CTE Program Code	CTE Program Name	Subject Code	Subject Name	Required Assessments with EMIS Code - (Benchmark) *Assessment Vendor*	Recommended Industry Credentials and Governmental Licenses *Credential Sponsor*
Agricultural and Environmental Systems (01)					
A0	Agribusiness and Production Systems	010301	This program is comprised of individual courses.	Agribusiness and Production Systems 03MC – (55) *ODE/Ohio State University-CETE* *Note that this test is comprised of multiple End of Course test modules.*	
A1	Agricultural and Industrial Power Technology	010201	This program is comprised of individual courses.	Agricultural and Industrial Power 05MC (56) *ODE/Ohio State University-CETE* *Note that this test is comprised of multiple End of Course tests.*	Outdoor Power Equipment Technician Equipment and Engine Training Council (EETC) NCCER Certificate of Completion Heavy Equipment National Center for Construction Education and Resources (NCCER)
A2	Animal Science and Management	010901	This program is comprised of individual courses.	Animal Science and Management 08MC – (56) *ODE/Ohio State University-CETE* *Note that this test is comprised of multiple End of Course tests.*	Companion Animal Specialist Certification *Pet Industry Joint Advisory Council (PIJAC)* Assistant Lab Animal Technician *American Association for Laboratory Animal Science*
A3	Biotechnology for Food, Plant and Animal	012100	This program is comprised of individual courses.	Selected courses in this pathway have had end of course tests developed. However no total test score is available and results are not reportable in EMIS. *ODE/Ohio State University-CETE*	No Others Recommended
A4	Food Science and Technology	011001	This program is comprised of individual courses.	Science and Technology of Food 46MC – (52) *ODE/Ohio State University-CETE*	No Others Recommended
A5	Horticulture	010601	This program is comprised of individual courses.	Horticulture 53MC – (52) *ODE/Ohio State University-CETE* *Note that this test is comprised of multiple End of Course tests.*	Ohio Certified Florist *Ohio Florist Association* Certified Turfgrass Professional *Professional Landcare Network*
