30 Total State Indicators

Statewide Indicators – Percent Proficient – (by Subject)	
Definition:	The percentage of students per grade and test that were enrolled in the district for a "full academic year" that scored at or above the proficient level on the test **(subject to the Alternate Assessment Cap Limitation and the Acceleration Testing Policy for Subject-Accelerated Students – see separate documents on these topics for more information)**. This percentage is used to determine if the district met the state minimum standard (state indicator) for that subject/grade level test.
Calculation:	**% Proficient or Above on Test** = $\left(\frac{\text{Number of Students scoring at or above the proficient level on the standard test + Number of Students scoring at or above proficient on the Alternate Assessment (Required Test Type = "STR" and "ALT")}}{\text{Number of students taking the Standard or Alternate test (Required Test Type = "STR" and "ALT" and Scaled Score not = ***)}}\right) \times 100$
Data Elements:	*REQUIRED TEST TYPE* *TEST SUBJECT TYPE* *RAW/SCALED SCORE* *TEST GRADE LEVEL* *EFFECTIVE END DATE* *STATE EQUIVALENT GRADE LEVEL* *HOW RECEIVED AND SENT REASON ELEMENTS* *HOW RECEIVED IRN ELEMENT* *SENT TO PERCENT OF TIME ELEMENT* *STUDENT PERCENT OF TIME* *MAJORITY OF ATTENDANCE IRN* *ACCOUNTABILITY IRN* *LEP*
Filter(s):	Includes students who meet the following criteria: • How Received Element = "*", "3", "7", "8", "9", "A", "C", "M", "S", "U", "W", and "Y"; **AND** Sent to Percent of Time > 0. OR • Sent Reason Element = "CT," "JV," "PS," "MR," or "OS". OR • Students that your district sent to a special education cooperative program at another district. These students will be included in your district's calculation based upon the data reported by the district educating the student. The educating district would report the students with a How Received Element = "B". AND • Student is enrolled in the district for a full academic year as reported in the Majority of Attendance IRN element. Refer to "Full Academic Year" definition for additional details. AND

Statewide Indicators – Percent Proficient – (by Subject)	
	• Students with Required Test Type = “STR” and a scaled score not = “***” **and** Required Test Type = “ALT” and Raw Score NOT = “***” (“***” means that the student did not take the test). Includes students with Scaled Score or Raw Score = INV (Invalidated) or NSA (Non-Scorable Assessment), **AND** all students with disabilities regardless of whether they took the test with accommodations. AND • Excludes students with LEP = “L”.

Statewide Indicators – State Indicator Met – (by Subject)	
Definition:	Indicates whether the state indicator is met for each grade/subject test. If the percentage of students scoring at or above the proficient level is greater than or equal to the state minimum standard, then the district met the standard for that state indicator.
Calculation:	If the percentage of students scoring at or above the proficient level is greater than or equal to the state minimum standard then the district met the standard for that state indicator. If the percentage of students at or above the proficient level is below the state minimum standard then the district did NOT meet the standard for that state indicator.

Statewide Indicators – # of Students Taking the Standard Test or the Alternate Assessment – (by Subject)	
Definition:	Total number of students per grade and test that were enrolled in the district for a "full academic year" and that actually took the test. This includes students who took the Alternate Assessment. The grade levels included in the calculation for 2008-09 are 3rd, 4th, 5th, 6th, 7th, 8th, 10th and 11th grade.
Calculation:	For each subject/grade level test, this is a count of students in a tested grade level that actually took the test. The testing records included are: (*REQUIRED TEST TYPE* = "STR" and the *SCALED SCORE* is not = "***") and (*REQUIRED TEST TYPE* = "ALT" and the *RAW SCORE* is not = "***").
Data Elements:	*REQUIRED TEST TYPE* *TEST SUBJECT TYPE* *RAW/SCALED SCORE* *TEST GRADE LEVEL* *EFFECTIVE END DATE* *STATE EQUIVALENT GRADE LEVEL* *HOW RECEIVED AND SENT REASON ELEMENTS* *HOW RECEIVED IRN ELEMENT* *SENT TO PERCENT OF TIME ELEMENT* *STUDENT PERCENT OF TIME* *MAJORITY OF ATTENDANCE IRN* *ACCOUNTABILITY IRN* *LEP*
	Includes students who meet the following criteria • How Received Element = "*", "3", "7", "8", "9", "A", "C", "M", "S", "U", "W" and "Y"; **AND** Sent to Percent of Time > 0. OR • Sent Reason Element = "CT," "JV," "PS," "MR," or "OS". OR • Students that your district sent to a special education cooperative program at another district. These students will be included in your district's calculation based upon the data reported by the district educating the student. The educating district would report the students with a How Received Element = "B". AND • Student is enrolled in the district for a full academic year as reported in the Majority of Attendance IRN element. Refer to "Full Academic Year" definition for additional details. AND • Students reported with *REQUIRED TEST TYPE* = "STR" and a *SCALED SCORE* not = "***" **or** *REQUIRED TEST TYPE* = "ALT" and *RAW SCORE* not = "***". This calculation includes students with Scaled/Raw Score = INV (invalidated) or NSA (Non-Scorable Assessment), **and** all tests taken by students with disabilities who took the test, regardless of whether they took the test with IEP accommodations.

Graduation Rate

The graduation rate is defined as the percentage of students that received a diploma during the 2007-08 school year, (INCLUDING summer 2008 graduates) of the total number of students reported as graduates and or dropouts from this cohort of students (adjusted for returning withdrawals) combined.

Graduates: Were students reported during FY2008 Yearend N with a *DIPLOMA DATE* and a *DIPLOMA TYPE*; OR students reported during FY2009 October K as Summer Graduates with a *DIPLOMA DATE* and a *DIPLOMA TYPE.*

- Students with Grade Level = 13 that receive a diploma during the 2007-08 school year **are not** considered "On-Time Graduates" and are not included in the numerator of the graduation rate.
- Graduation-Only students who graduated in FY2008 are not included in the numerator or denominator. Graduation-Only students are students who were not enrolled in the district, but needed to pass the 9th grade proficiency test or the Ohio Graduation Test in order to graduate.
- If the district has only one high school, the "Graduation Rate" on the Building Accountability Report may not be equal to the "Graduation Rate" on the District Accountability Report.
- Graduation rates will only be calculated for a high school that includes students in grades 10-12, inclusive. If a building does not educate the entire 10-12 grade span then a graduation rate would not be calculated for that building. A graduation rate would be calculated for the district if the district includes grades 10 through 12.
- The graduation rate formula is consistent with the National Center for Educational Statistics (NCES) recommendations for calculating graduation rates.
- The graduation rate calculation is adjusted for dropouts who return before October of the following year, and for students reported with program codes =
    - 500001 - Previously reported as a dropout in the reporting district's graduation rate.
    - 500002 - Previously reported as a dropout in another Ohio district.

Statewide Indicators – District's 2007-08 Graduation Rate	
Definition:	Percentage of students who entered high school that received a diploma during the 2007-08 school year (INCLUDING summer 2008 graduates reported in FY2009 October K). *Graduates:* Are students reported with a *DIPLOMA DATE* and a *DIPLOMA TYPE (EXCLUDING STUDENTS WITH GRADE LEVEL = 13 AND GRADUATION-ONLY STUDENTS).* NOTES: If the district has only one high school, the "Graduation Rate" on the Building LRC may not be equal to the district level "Graduation Rate." Graduation rates will be calculated for a high school that includes grades 10-12. If a building does not educate students in the entire 10-12 grade span then a graduation rate would NOT be calculated for that building. A graduation rate would be calculated for the district if the district includes grades 10 through 12. **Notes on Graduation Rate formula:** • Formula is consistent with National Center for Educational Statistics (NCES) recommendations for calculating graduation rates. • The rate *estimates* a true cohort rate (one based on following individual students over time); it doesn't exactly replicate one.
Calculation:	$\text{Graduation Rate} \left(\frac{\text{\# of FY2008 Graduates + 2008 summer graduates (reported in October FY2009)}}{\text{\# of FY2008 Graduates + 2008 summer graduates (reported in October FY2009)} + \text{\# of Graduates in Grades 13} + \text{\# of Grade 9 dropouts in FY2005 - \# of Grade 9 Ret. Statewide Indicators – Number of High School Graduates + High School Dropouts Adjusted for Returning Withdrawals + Grade 13 Graduates for School Year 2007-08	
Definition:	This is the denominator for the graduation rate, which includes the number of students that received a high school diploma during the 2007-08 school year *plus* the number of high school dropouts for that graduating class (adjusted for returning withdrawals and previous dropouts) *plus* the students reported with Student Grade Level = 13 that received diplomas during the 2007-08 school year. *Graduates:* Are students reported with a *DIPLOMA DATE* and a *DIPLOMA TYPE* (Students reported with Grade Level = 13 that receive a diploma during the 2007-08 school year **are NOT** considered "On-Time Graduates"). *Returning Withdrawals:* Students who were reported as dropouts (WITHDRAWAL REASON = '71', '72', '73', '74', '75') in the prior year or reporting period and have returned the year immediately following the year that they were counted as a dropout. *High School Withdrawals/Dropouts:* Are the number of dropouts (WITHDRAWAL REASON = '71', '72', '73', '74', '75') from each high school grade level (9-12) for that graduating class. *Grade 13 Students:* Students reported with Grade Level = 13 are students that have completed course requirements but have not passed all parts of the Ohio Graduation Test and have chosen to remain in school and take courses. The primary difference between the students reported with Grade Level = 13 and the students reported with Graduation-Only Records is that the former are still enrolled and taking classes, and the Graduation-Only students **are NOT** enrolled and just took the 9th Grade Proficiency Test or Ohio Graduation Test in the reporting district. *Previous Dropouts:* Students who were previously reported as dropouts who were not counted as returning withdrawals, as reported with program codes = o 500001 - Previously reported as a dropout in the reporting district's graduation rate. o 500002 - Previously reported as a dropout in another Ohio district.

Attendance Rate – District's 2008-09 Attendance Rate	
Definition:	"Student Attendance Rate" means the ratio of the number of enrolled students actually in attendance (Aggregate Attendance) for a Full Academic Year to the number of enrolled students (Aggregate Membership) for that school year. (**OAC 3301-18-01).** This number is expressed as a percentage. **The statewide attendance rate target is 93%.**
Calculation:	$$\textbf{Student Attendance Rate} = \left(\frac{\textbf{Sum of total attendance days for students enrolled in the district for a full academic year}}{\textbf{Sum total of student attendance + excused absence days + unexcused absence days for students enrolled in the district for a full academic year}} \right) \times 100$$
Data Elements:	*STATE EQUIVALENT GRADE LEVEL* *HOW RECEIVED AND SENT REASON ELEMENTS* *HOW RECEIVED IRN ELEMENT* *STUDENT PERCENT OF TIME* *SENT TO PERCENT OF TIME* *TUITION TYPE ELEMENT* *SCHOOL YEAR ATTENDANCE DAYS* *SCHOOL YEAR EXCUSED ABSENCE DAYS* *SCHOOL YEAR UNEXCUSED ABSENCE DAYS* *MAJORITY OF ATTENDANCE IRN* *ACCOUNTABILITY IRN* *ATTENDING BUILDING IRN*

Attendance Rate – Aggregate Attendance	
Definition:	This is the numerator for the attendance rate. Aggregate Attendance is the total of the attendance days (days that the student was actually in attendance) for all students who were in enrolled for a "full academic year" in the district. To have a day counted as an attendance day, a student must be enrolled and be in attendance during the year or be on expulsion or suspension status **and** receiving services from the school district if the school district has adopted a policy as stated in paragraph (C) of RULE 3301-18-01 of the Ohio Administrative Code.
Calculation:	The Attendance days (days that the student was actually in attendance) are added together for all students in the district that meet the criteria listed in the "Filter(s)" section of this calculation. Note: Only students that meet the criteria of a "full academic year" as defined below would be included in the totals.
