2012-2013 AMO Attendance Rate Demotion Calculation

AMO 2012-13 Attendance Rate Calculation	
Definition:	"Student Attendance Rate" means the ratio of the number of enrolled students actually in attendance (Aggregate Attendance) for a Full Academic Year to the number of enrolled students (Aggregate Membership) for that school year. (**OAC 3301-18-01).** This number is expressed as a percentage. **The AMO attendance rate target is 93% for traditional districts and schools and for community schools that do not have a Dropout Recovery designation.** **The AMO attendance rate target is 75% for Dropout Recovery Community Schools.** The attendance rate calculation is used for demotion purposes only as part of the AMO Gap Closing Measure and it is calculated for the "All Students" group as well as for each student subgroup that has at least 30 students. All calculations are performed using the data elements defined below. Please see the "Technical Documentation – AMO Gap Closing Measure" for additional information on how this percentage is used once it is calculated.
Calculation:	$$\textbf{Student Attendance Rate} = \left(\frac{\textbf{Sum of total attendance days for students enrolled in the district for a full academic year}}{\textbf{Sum total of student attendance + excused absence days + unexcused absence days for students enrolled in the district for a full academic year}} \right) \times 100$$
Data Elements:	*STATE EQUIVALENT GRADE LEVEL* *HOW RECEIVED AND SENT REASON ELEMENTS* *HOW RECEIVED IRN ELEMENT* *STUDENT PERCENT OF TIME* *SENT TO PERCENT OF TIME* *TUITION TYPE ELEMENT* *SCHOOL YEAR ATTENDANCE DAYS* *SCHOOL YEAR EXCUSED ABSENCE DAYS* *SCHOOL YEAR UNEXCUSED ABSENCE DAYS* *MAJORITY OF ATTENDANCE IRN* *ACCOUNTABILITY IRN* *ATTENDING BUILDING IRN*
Filter(s):	Includes students who meet the following criteria: • How Received Element = "*", "3", "7", "8", "9", "A", "C", "K", "M", "S", "U", "W" and "Y"; **AND** Student Percent of Time > 0. OR • Sent Reason Element = "JV," "PS," "MR," "OS" or "CR". OR • Students that your district sent to a special education cooperative program at another district. These students will be included in your district's calculation based upon the data reported by the district educating the student. The educating district would report the students with How Received Element = "B". AND • Tuition Type Element = "D" and "T"

AMO 2012-13 Attendance Rate Calculation	
	AND • Student is enrolled in the district for a full academic year as reported in the MAJORITY OF ATTENDANCE IRN element. AND • State Equivalent grade level = “KG”, “1-12”, “13” or “23” AND Excludes students with LEP = “L” and foreign exchange students who have been in US schools for fewer than 180 days unless the student plans to graduate from an Ohio high school.
Data Source:	Reported by district through EMIS in FY2013 Yearend N

AMO Attendance Rate Met Calculation	
Definition:	This calculation shows whether a subgroup met the standard for the AMO Attendance Rate. If the percentage is greater than or equal to the attendance rate target of 93% for traditional districts and schools and for community schools that do not have a Dropout Recovery designation or greater than or equal to 75% for Dropout Recovery Community Schools then the subgroup met the attendance rate standard.
Calculation:	If the Attendance Rate Percentage is greater than or equal to the target of 93% for traditional districts and schools and for community schools that do not have a Dropout Recovery designation or greater than or equal to 75% for Dropout Recovery Community Schools then the subgroup met the standard for the AMO Attendance Rate. If the Attendance Rate is less than 93% for traditional districts and schools and for community schools that do not have a Dropout Recovery designation or less than 75% for Dropout Recovery Community Schools then the subgroup did not meet the standard. Note that this calculation is only performed for subgroups that meet the minimum subgroup size of 30 “accountable” students using the criteria outlined in the calculation in the boxes above. Additional information on how the Attendance Rate is used in the AMO calculation to demote the final letter grade can be found in the “Technical Documentation – AMO Gap Closing Measure”.

2012-2013 AMO Attendance Rate Demotion Calculation

AMO Attendance Rate – Aggregate Attendance	
Definition:	This is the numerator for the attendance rate. Aggregate Attendance is the total of the attendance days (days that the student was actually in attendance) for all students who were in enrolled for a "full academic year" in the district. To have a day counted as an attendance day, a student must be enrolled and be in attendance during the year or be on expulsion or suspension status **and** receiving services from the school district if the school district has adopted a policy as stated in paragraph (C) of RULE 3301-18-01 of the Ohio Administrative Code. The aggregate attendance (numerator) is calculated for the "All Students" group as well as for each student subgroup that has at least 30 students. All calculations are performed using the data elements defined below.
Calculation:	The Attendance days (days that the student was actually in attendance) are added together for all students in the district that meet the criteria listed in the "Filter(s)" section of this calculation. Note: Only students that meet the criteria of a "full academic year" as defined below would be included in the totals.
Data Elements:	*STATE EQUIVALENT GRADE LEVEL* *STUDENT PERCENT OF TIME* *HOW RECEIVED AND SENT REASON ELEMENTS* *HOW RECEIVED IRN ELEMENT* *SENT TO PERCENT OF TIME* *TUITION TYPE ELEMENT* *SCHOOL YEAR ATTENDANCE DAYS* *MAJORITY OF ATTENDANCE IRN* *ACCOUNTABILITY IRN*
Filter(s):	Includes students who meet the following criteria: • How Received Element = "*", "3", "7", "8", "9", "A", "C", "K", "M", "S", "U", "W" and "Y"; **AND** Student Percent of Time > 0. OR • Sent Reason Element = "JV," "PS," "MR," "OS" or "CR". OR • Students that your district sent to a special education cooperative program at another district. These students will be included in your district's calculation based upon the data reported by the district educating the student. The educating district would report the students with a How Received Element = "B" AND • Tuition Type Element = "D" and "T" AND • Student is enrolled in the district for a full academic year as reported in the MAJORITY OF ATTENDANCE IRN element. Refer to "Full Academic Year" definition for additional details.

2012-2013 AMO Attendance Rate Demotion Calculation

AMO Attendance Rate Met Calculation	
	AND State Equivalent grade level = “KG”, “1-12”, “13” or “23” AND Excludes students with LEP = “L” and foreign exchange students who have been in US schools for fewer than 180 days unless the student plans to graduate from an Ohio high school.
Data Source:	Reported by district through EMIS in FY2013 Yearend N

AMO Attendance Rate – Aggregate Membership	
Definition:	This is the denominator for the attendance rate. Aggregate Membership is the sum of the total attendance days (days that students were actually in attendance), excused absence days and unexcused absence days for all students the meet the criteria listed in the "Filter(s)" section of this calculation, who were in enrolled in the district or school for a "full academic year". The aggregate membership (denominator) is calculated for the "All Students" group as well as for each student subgroup that has at least 30 students. All calculations are performed using the data elements defined below.
Calculation:	**Aggregate Membership = Aggregate Attendance + Excused Absence Days + Unexcused Absence Days**
Data elements:	*State Equivalent Grade Level* *How Received and Sent Reason Elements* *How Received IRN Element* *Student Percent of Time* *Sent to Percent of Time* *Tuition Type Element* *School Year Attendance Days* *School Year Excused Absence Days* *School Year Unexcused Absence Days* *Majority of Attendance IRN* *Accountability IRN* *Attending Building IRN*
Filter(s):	Includes students who meet the following criteria: • How Received Element = "*", "3", "7", "8", "9", "A", "C", "K", "M", "S", "U", "W" and "Y"; **AND** Student Percent of Time > 0. OR • Sent Reason Element = "JV," "PS," "MR" "OS" or "CR". OR • Students that your district sent to a special education cooperative program at another district. These students will be included in your district's calculation based upon the data reported by the district educating the student. The educating district would report the students with How Received Element = "B". AND • Tuition Type Element = "D" and "T" AND • Student is enrolled in the district for a full academic year as reported in the Majority of Attendance IRN element. Refer to "Full Academic Year" definition for additional details. AND

AMO Attendance Rate – Aggregate Membership	
	• State Equivalent grade level = “KG”, “1-12”, “13” or “23” AND Excludes students with LEP = “L” and foreign exchange students who have been in US schools for fewer than 180 days unless the student plans to graduate from an Ohio high school.
