Rev. 7/1/07

Facts about USDA Commodities for the National School Lunch and School Breakfast Programs

ROUND EGG PATTY
(OHIO PROCESSED)

Product Description

Fully cooked round egg patties are ready to heat and serve. Made with commodity whole egg.

Pack Size

Round egg patties come bulk packed in 25-pound cases. There are 300 patties per case.

Yield

One 1.25oz. patty will provide 1 ounce of meat/meat alternate credit for the National School Lunch Program or National School Breakfast Program.

Uses

Egg patties are ready to heat and may be served in the breakfast program or the lunch program.

Storage

Store egg patties in original shipping containers off the floor at 0ºF or below.

*Best If Used By**

Frozen at 0ºF egg patties have a shelf life of up to twelve (12) months.

Preparation

To heat the patties: Place a single layer on a full sheet pan, with no-stick cooking spray, and covered with foil. Heat in conventional oven at 350 degrees for 20-25 minutes frozen, or 12-15 minutes thawed. Heat in convection oven at 250 degrees for 10-12 minutes frozen, or 6-8 minutes thawed.

Nutritional Value

One patty provides:

**The "Best If Used By" date is intended to tell you how long the product will retain best flavor or quality. The term is not a safety date. "Best If Used By" dates are intended as useful guidelines. Some foods may deteriorate more quickly and other foods may last longer than the times suggest. A number of factors can shorten the useful life of a food product, such as improper handling and inadequate storage temperatures. The inventory control method of "first-in-first-out" should be practiced by those responsible for managing commodity inventories and distribution to the State and local level. Products kept past the "Best If Used By" dates are not necessarily unusable. Food products mat be consumed after the "Best If Used By" date if the product has been properly stored and handled, and the primary container is in good condition.*
