

Senate Bill 210 – Healthy Choices for Healthy Children Act Annual body Mass Index Screenings Report December 31, 2012

Overview

In September 2010, Ohio enacted Senate Bill 210, the Healthy Choices for Healthy Children Act. The law established a body mass index (BMI) and weight status category screening program for students in kindergarten (K) and grades 3, 5 and 9. Ohio school districts (community schools, STEM schools, and chartered nonpublic schools) are required to collect and submit aggregated, de-identified student BMI data to the Ohio Department of Health (ODH) by June 1 of each year unless the school district/nonpublic school has applied for and been granted a waiver.

In accordance with SB 210, the Ohio Department of Education (ODE) is required to issue an annual report on the compliance of school districts and schools with the BMI screening requirements. During the 2011-2012 school year, a district or school could obtain a waiver of the BMI and weight status category screening requirements from ODE by submitting waiver request stating that it is unable to comply with the requirements.

The report that follows includes a summary of schools that received waivers from the requirement to conduct BMI screening from ODE in 2011-2012, and a summary of schools that reported BMI screening data to ODE. A report of aggregate-level BMI data collected in 2011-12 is reported in the ODH report titled Healthy Choices for Healthy Children Act Body Mass Index and Weight Status Category Screening Program 2011-2012 (available in early 2013).

2011-2012 BMI Screening Waivers Received

During the 2011-2012 school year the Ohio Department of Education received a total of 649 waiver submissions. Letters acknowledging the receipt of the waivers were sent to each of the districts. The following list indicates the number of submissions by school type:

- Public Districts 312
- Non-Public Districts 3
- Non-Public Schools 175
- Community Schools 155
- Joint Vocational Districts 3
- Public School* Submitted waiver separate from district 1

BMI waivers were submitted throughout the school year. For information related to BMI and the screening process, please visit ODE's SB 210 – Healthy Choices for Healthy Children Act webpage.

2011-2012 BMI Screenings Conducted

In compliance with the Healthy Choices for Healthy Children Act, ODE and ODH work collaboratively to ensure coordinated school health and wellness in Ohio's schools.

As a result of this collaboration, 178 districts submitted aggregated student BMI screening data to ODH in the 2011-2012 school year. The following list indicates the number of submissions by school type:

- Public District 151
- Non-Public Districts 5
- Community Schools 21
- Non-Public Building* 1 (Reported data separate from district)

Future Changes

A BMI waiver is no longer required if schools elect not to conduct BMI screening. New legislation within Senate Bill 316 allows a school's implementation of the BMI screening optional, thereby eliminating the need to obtain a state waiver. This includes district schools, community schools, STEM schools and chartered nonpublic schools. Districts that elect to conduct BMI screening will continue to submit their data to ODH at School.BMI@odh.ohio.gov. Beginning with the 2012-13 school year, SB 210 requires participation in BMI screening to be reported on the District Physical Education and Wellness Measure on the Local Report Card.

Appendices

Appendix 1 lists the waiver submissions from the 2011-2012 school year. Appendix 2 lists the districts that submitted BMI screening data for 2011-2012.
