Ohio | Department of Education

John R. Kasich, Governor
Stan W. Heffner, Superintendent of Public Instruction

MEMORANDUM

To: Governor John R. Kasich
Tom Niehaus, President, Ohio Senate
William Batchelder, Speaker, Ohio House of Representatives

FROM: Stan W. Heffner, Superintendent of Public Instruction

DATE: December 30, 2011

RE: SB 210 Healthy Choices for Healthy Children Act Annual Report

---

Overview of SB 210- Healthy Choices for Healthy Children Act of the 128th Ohio General Assembly

Pursuant to Ohio Revised Code Section 3301.922, the Ohio Department of Education is "required by the act to issue an annual report on the compliance of public and chartered nonpublic schools with the act's requirements regarding body mass index (BMI) screenings". In addition, ODE "must include in each report any data regarding student health and wellness collected by the Department in conjunction with the screening requirements".

2010-2011 Ohio Department of Education (ODE)

During the 2010-2011 school year, ODE received a total of 686 waiver submissions. Of those, the following represent the submissions by school type:

- 343- Non-Public Districts
- 284- Traditional School Districts
- 59 – Community Schools

Letters acknowledging the receipt of the waivers were sent to each of the districts.

BMI waivers may be submitted throughout the school year. For information related to BMI and the screening process, please visit the ODE's SB 210 – Healthy Choices for Healthy Children Act webpage.

2010-2011 Ohio Department of Health (ODH)

In an effort to comply with the Healthy Choices for Healthy Children Act, ODE and ODH worked collaboratively to ensure coordinated school health and wellness in Ohio's schools.

As a result of our combined work, 242 districts submitted aggregated student BMI screening data to the Ohio Department of Health in the 2010-2011 school year[1].

Of those, the following represent the submissions by school type:

- 120- Traditional School Districts
- 89- Non-Public Districts
- 17- Community School
- 14- School Buildings* *Reported data separate from district*
- 2- Boards of Developmental Disabilities
- 1- State Supported School
- 1- STEM School

Future Plans

The Departments of Education and Health will be conducting a webinar that will focus on these and other concerns districts have encountered in the 2011-2012 school year.

For your reference, please find attached the following documents:

1) 2010-2011 BMI waiver submissions (as collected by ODE)
2) 2010- 2011 BMI screening submissions (as collected by ODH)

[1] ODH expressed the following concerns in relation to the collection of the BMI screening data collected and submitted:

- Technology challenges - due to both ODH and schools experiencing some technology issues, there were some schools that encountered difficulty in electronic data submission. Some files were unable to be opened.
