Name of Product Proposed:	**ACT Compass®**
Does this product provide inferences about student growth? If so, how?	**The ACT Compass computer-adaptive placement test helps educators: 1) quickly evaluate students' skill levels in reading, writing skills, writing essay, and mathematics (pre-algebra to college algebra to trigonometry); 2) place students into appropriate courses for next stages of skill development; and 3) connect students to the resources they will need to achieve academic success in their high school curriculum. Student growth identification occurs through a pre-test (end of sophomore year/beginning of junior year) and post-test (end of senior year).**
What are the grade(s) the proposed product covers:	**End of sophomore year/beginning of junior year to end of senior year.**
What are the subject area(s) the proposed product covers:	**English (Writing Skills and Writing Production), Reading, and Mathematics (pre-algebra to college algebra to trigonometry).**
What Endorsement Category does the assessment yield evidence to support? See Categories in Section 2.1(B-v c).	**Student Growth**

Please provide an overview of your proposal for LEAs describing in detail the assessment, use of the assessment and how your organization supports implementation of the assessment. (2 pages maximum)
The ACT Compass program can be used in a pre- post-test model to help junior and senior students build a solid foundation to help students measure their current academic

development, ACT Explore career/training options, and make ACT Plans for the remaining years of high school and post-graduation years. ACT Compass contains four assessment instruments in the areas of writing skills, essay production, reading, and mathematics. The assessments are based on the major areas of high school and postsecondary instructional programs and measures the skills and knowledge needed for college entry-level success.
