EMIS Release Notes – New Collection Request

Collection Request Name: Student Contact(s) Collection (FY27)

Collection Request Description: This collection is required for all community schools and STEM districts, but is also reportable by all other EMIS reporting entities. The source files are the FF, FG, and GI Record types labeled with the S data set. Data must be uploaded in EMIS Manual format through the Data Collector Data Sources tab using fixed-length or CSV files. This collection request allows resident districts, community schools, and STEM districts to include parent/guardian and address information in the Ohio District Data Exchange (ODDEX) system. This data is sent to the State Software Development Team (SSDT) and merged with SOES Student (S) Collection data for display in ODDEX. All EMIS reporting entities can report this collection to be used with the National School Lunch Program's direct certification process, potentially increasing the number of students identified as eligible for benefits.

Collection Request Short Name: FY27-S-Student Contact

Manifest Code Name: 2027SSSDT

Collection Request Planned Release Version: 1

Planned Availability Date: 7/1/2026
