Summary of Requirements
Transportation of Students with Disabilities

Under Part B of the Individuals with Disabilities Act (IDEA)\(^1\) and Chapter 34 of the Code of Federal Regulations\(^2\), the Ohio Department of Education is the state educational agency responsible for ensuring all federal requirements are met for every eligible child in its jurisdiction.

Under Ohio law, school districts\(^3\) and community schools\(^4\) are responsible for ensuring all requirements of Part B of the IDEA and related federal regulations are met for every eligible child in their jurisdictions, between the ages of 3 through 21, inclusive, regardless of whether the services are provided by another school district, other eligible educational agency, or other agency, department or entity.

Ohio law requires the State Board of Education to establish rules or standards for the provision of special education and related services for all children with disabilities. The state law and rules or procedures may impose requirements that are not required by IDEA or related provisions at the federal level.\(^5\)
