Section 1: Background

The Office for Child Nutrition in the Ohio Department of Education (ODE) has the responsibility from the United States Department of Agriculture to administer the National School Lunch Program, the Child and Adult Care Food Program and the Summer Food Service Program (SFSP) across the state of Ohio.

The National School Lunch Program has nationally, over 25 million students in over 90 thousand schools and agencies participate in Child Nutrition Programs, making them one of the country's largest food service operations. Ohio's food service programs serve over 1 million meals daily at over 4,000 sites.

The goals of the Child Nutrition Programs are to safeguard the health and wellbeing of the nation's children, encourage domestic consumption of nutritious agricultural foods, and provide children an understanding of the relationship between proper eating habits and good health.

Who can apply to participate in the lunch program? Any school of high school grade or under recognized by the State of Ohio as operating under public or nonprofit private ownership; any public or nonprofit classes of pre-primary grades when conducted in the aforementioned schools; and any public or nonprofit, private licensed Residential Child Care Institution (RCCI).

What qualifies a student to participate? Any student under age 21 who is enrolled in an eligible school or RCCI may participate. Additional benefits may be available to a student when his or

her guardian submits a Free and Reduced Price School Meals Application. Based on the household size and income, the student may be eligible for meals free or at a reduced price. Schools may charge no more than \$0.40 for a reduced-price lunch. Schools set their own prices for meals served to students who pay the full meal price (paid full-price), though they must operate their meal services as non-profit programs.

What are the meal service requirements for lunch? To be eligible for reimbursement and government donated foods, participating schools and agencies must prepare and serve meals that meet federal nutrition requirements. The reimbursable meal must be priced as a unit and available to all students regardless of their ability to pay. Meal service for lunch must be between 10:00am – 2:00pm. Schools must follow the food based menu planning option when developing menus. Food based menu planning for lunch involves minimum quantities of milk, meat or meat alternate, vegetables, fruits, grains and breads. Menu Patterns for lunch in elementary grades must include daily: 8 ounces of fluid milk, $\frac{3}{4}$ cup total vegetables, $\frac{1}{2}$ cup total of fruits, a minimum of 1 ounce daily of meat or meat alternate and 8 ounces over the course of the week, and 1 serving daily of grain/bread and 8 ounces served over the course of the week.

What reimbursement will the school or agency receive? The school or agency is reimbursed for each complete meal served to an eligible student. Reimbursement rates are applied based on the student's eligibility category paid full-price, reduced-price, or free. The school is responsible for accurately counting the meals served to students daily by eligibility category. In addition, a government donated food entitlement is earned for each lunch served.

What records must be kept? The following are required records that must be kept for three school years plus the current year: daily menus and production records; daily meal count and cash receipt worksheets(CN-7); free and reduced-price school meals applications; monthly inventories of food, labor and supplies; monthly records of program costs; verification records; records of On-site Accountability Reviews (if more than one site).

The Child and Adult Care Food Program is a federally-funded United States Department of Agriculture program administered by the Ohio Department of Education, Office for Child Nutrition. CACFP enables child and adult care institutions and family or group day care homes to provide nutritious meals and snacks as a regular part of their day care and that contribute to the wellness, healthy growth, and development of infants, young children, and the health and wellness of older adults and chronically impaired disabled persons.

Who can participate? Independent centers and sponsoring organizations enter into agreements with the Ohio Department of Education to assume administrative and financial responsibility for CACFP operations. CACFP provides for the serving of meals and snacks to eligible children and adults who are enrolled for care at the following types of eligible and participating centers or homes.

- Center-Based Child Care: Eligible public or private nonprofit child care centers, Head Start programs, outside-school-hours care centers, youth development programs and emergency shelters (that provide residential and food services to children and youth experiencing homelessness) which are licensed or approved to provide day care services may participate in CACFP as independent or as sponsored centers. For profit centers must receive Title XX funds for at least 25 percent of enrolled children or licensed capacity (whichever is less) or at least 25

percent of the children in care must be eligible for free and reduced price meals. Children from birth through 12 years of age may be enrolled for CACFP benefits.

- After School At Risk Programs: Eligible public or private nonprofit or for profit programs that offer enrichment activities for at risk children and youth, 18 and under, after the regular school day ends, can provide at maximum of one meal and/or snack through CACFP. Programs must be offered in areas where at least 50 percent of the children are eligible for free and reduced price meals based upon school data.
- Family Day Care Homes: A family or group day care home must sign an agreement with a sponsoring organization to participate in CACFP. Day care homes must be licensed or approved to provide day care services. Children from birth through 12 years of age may be enrolled for CACFP benefits.
- Adult Day Care: Public or private nonprofit adult day care facilities which provide structured, comprehensive services to nonresidential adults who are functionally impaired, or aged 60 and older, may participate in CACFP as independent or sponsored centers. The adult component of CACFP is targeted to individuals who remain in the community and reside in their home or with family members. Individuals who reside in institutions are not eligible for CACFP benefits. For profit centers may be eligible for CACFP if at least 25 percent of their participants receive benefits under Title XIX or Title XX.

The Summer Food Service Program (SFSP) provides free, nutritious meals and snacks to help children in low-income areas get the nutrition they need to learn, play and grow throughout the summer months when they are out of school.

The SFSP was created to ensure that children in low-income areas can continue to receive nutritious meals during long school vacations, when they do not have access to school lunches or breakfasts. But, although millions of children depend on nutritious, free and reduced-price meals and snacks at schools during nine months of the year, just a fraction of that number receive the free meals provided by the SFSP during the summer months.

The SFSP is the single largest federal resource available for local sponsors who want to combine a food program with a summer activity program. The Food and Nutrition Service, an agency of the U.S. Department of Agriculture (USDA), administers SFSP at the federal level. The Ohio Department of Education (ODE), Office for Safety, Health and Nutrition administers the program in Ohio. Locally, the SFSP is run by approved sponsors, including school districts, local government agencies, camps and private nonprofit organizations. Sponsors provide free meals to a group of children at a central site, such as a school or community center. The sponsor receives payments from USDA, through ODE, for the meals served to children that meet program guidelines.

Upon receipt of the notice of termination, Contractor will immediately cease all work on the Project, if applicable, and refuse any additional orders and take all steps necessary to minimize the costs the Contractor will incur related to this Contract. The Contractor will immediately prepare a report and deliver it to the Department. The report must detail either the work completed at the time of termination or the orders received and not processed prior to termination, and if applicable, the percentage of the Project's completion, estimated time for delivery of all orders received prior to termination, any costs incurred by the Contractor in doing the Project to date and any deliverables completed or partially completed but not delivered to the Department at the time of termination. Any and all work, whether completed or not, will be delivered to the Department along with the specified report. However, if delivery in that manner would not be in the Department's interest, then the Contractor will propose a suitable alternate form of delivery.

2. Contract Suspension. If Contractor fails to perform any one of its obligations under this Contract, it will be in default and the Department may suspend rather than terminate this Contract where the Department believes that doing so would better serve its interest.

In the case of a suspension for the Department's convenience, the amount of compensation due to the Contractor for work performed before the suspension will be determined in the same manner as provided in this section for termination for the Department's convenience or the Contractor may be entitled to compensation for work performed before the suspension, less any damage to the Department resulting from the Contractor's breach of this Contract or other fault.

The notice of suspension, whether with or without cause will be effective immediately on the Contractor's receipt of the notice. The Contractor will immediately prepare a report and deliver it to the Department as is required in the case of termination.
