

## Evaluation of Professional Staff (Teachers)

The State Board of Education recognizes the importance of evaluating teachers for the purposes of rewarding excellence, improving the quality of instruction students receive, improving student learning, strengthening professional proficiency, including identifying and correcting deficiencies, and for informing employment decisions.

Each teacher will be evaluated according to Ohio Revised Code and the Evaluation Framework (see below) which is aligned with the *Standards for the Teaching Profession* adopted under state law.

Each teacher will be evaluated using the multiple factors set forth in the State Board of Education's teacher evaluation framework. The evaluation factors are weighted as follows:

Student academic growth will be measured through multiple measures which must include value-added scores on evaluations for teachers where value-added scores are available. Local boards of education may administer assessments chosen from the Ohio Department of Education's assessment list for teachers of subjects where value-added scores are not available and/or local measures of student growth using state-designed criteria and guidance.

The teacher’s performance rating will be combined with the results of student growth measures to produce a summative evaluation rating as depicted in the matrix below.

## Evaluation Matrix

		Teacher Performance			
		4	3	2	1
Student Growth Measures	Above	Accomplished	Accomplished	Proficient	Developing
	Expected	Proficient	Proficient	Developing	Developing
	Below	Developing	Developing	Ineffective	Ineffective

Teachers with above expected levels of student growth will develop a professional growth plan and may choose their credentialed evaluator for the evaluation cycle.

Teachers with expected levels of student growth will develop a professional growth plan collaboratively with the credentialed evaluator and will have input on their credentialed evaluator for the evaluation cycle.

Teachers with below expected levels of student growth will develop an improvement plan with their credentialed evaluator. The administration will assign the credentialed evaluator for the evaluation cycle and approve the improvement plan.

Additionally, at the local level, the board of education will include in its evaluation policy, procedures for using the evaluation results for retention and promotion decisions and for removal of poorly-performing teachers. Seniority will not be the basis for teacher retention decisions, except when deciding between teachers who have comparable evaluations.

The local board of education will also provide for the allocation of financial resources to support professional development.
