

Theme	<i>Families Now and Long Ago, Near and Far</i>	
Strand	<i>History</i>	
Topic	<p><i>Historical Thinking and Skills</i> Historical thinking begins with a clear sense of time – past, present and future – and becomes more precise as students progress. Historical thinking includes skills such as locating, researching, analyzing and interpreting primary and secondary sources so that students can begin to understand the relationships among events and draw conclusions.</p>	
Content Statement	<p><i>1. Time can be divided into categories (e.g., months of the year, past, present and future).</i></p>	
Content Elaborations	<p>Children build conceptually toward an understanding of chronological order, which is introduced in grade two.</p> <p>Children distinguish between the past, present and future as they talk about events from their own daily lives.</p> <p>Children begin to use vocabulary that supports their understanding of the divisions of time such as months of the year, past, present and future.</p>	<p>Instructional Strategies Create a classroom calendar where children can record basic weather observations. Refer to the calendar while comparing the weather of different months and seasons and integrate vocabulary from the content statement during discussions.</p> <p>Diverse Learners Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Instructional Resources</p> <p>Connections Make connections between weather and season concepts as found in the Science Academic Content Standards.</p>
Expectations for Learning	<p>Use vocabulary correctly to distinguish categories of time.</p>

Topic	<p><i>Historical Thinking and Skills</i></p> <p>Historical thinking begins with a clear sense of time – past, present and future – and becomes more precise as students progress. Historical thinking includes skills such as locating, researching, analyzing and interpreting primary and secondary sources so that students can begin to understand the relationships among events and draw conclusions.</p>	
Content Statement	<p>2. <i>Photographs, letters, artifacts and books can be used to learn about the past.</i></p>	
Content Elaborations	<p>Photographs, letters, artifacts and books provide children a first opportunity to interpret primary sources. Primary sources are records of events as they are first described, usually by witnesses or by people who were involved in the event.</p> <p>At this level, children begin to talk about family photographs, letters, artifacts and books to learn about their past, if these resources are available.</p>	<p>Instructional Strategies</p> <p>Children can share artifacts such as baby books, family pictures, letters and newspapers with the class. The teacher guides student examination of the artifacts by asking questions such as: <i>What do we understand about the past from this photograph?</i> Students can focus on topics such as clothing, architecture and modes of transportation.</p> <p>Diverse Learners</p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Instructional Resources</p> <p>Connections</p>
Essential Questions		

Theme	<i>Families Now and Long Ago, Near and Far</i>	
Strand	<i>History</i>	
Topic	<i>Heritage</i> Ideas and events from the past have shaped the world as it is today. The actions of individuals and groups have made a difference in the lives of others.	
Content Statement	3. <i>The way basic human needs are met has changed over time.</i>	
Content Elaborations	<p>Humans need food, clothing and shelter to survive. While the basic needs have not changed over time, the way humans meet those needs has changed.</p> <p>For example, in the past, people worked to provide their family with food, clothing and shelter; they worked to survive. Family members today work at jobs where they earn money to purchase basic needs.</p> <p>Expectations for Learning Compare the way families met basic needs in the past with the way they are met today.</p>	<p>Instructional Strategies Provide children with various pictures of food, clothing and shelter from the past and present. Ask students to sort the pictures into <i>then</i> and <i>now</i> groups. Once students have had a chance to compare the <i>then</i> and <i>now</i> examples, ask them to describe how the basic need for food, clothing and shelter have changed over time.</p> <p>Diverse Learners Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Instructional Resources</p> <p>Connections</p>
Essential Questions		

Theme	<i>Families Now and Long Ago, Near and Far</i>	
Strand	<i>Geography</i>	
Topic	<p><i>Spatial Thinking and Skills</i></p> <p>Spatial thinking examines the relationships among people, places and environments by mapping and graphing geographic data. Geographic data are compiled, organized, stored and made visible using traditional and geospatial technologies. Children need to be able to access, read, interpret and create maps and other geographic representations as tools of analysis.</p>	
Content Statement	<p>4. <i>Maps can be used to locate and identify places.</i></p>	
Content Elaborations	<p>Maps are representations of areas on the earth's surface.</p> <p>Children can use simple maps and models to locate familiar places in the classroom, school or neighborhood.</p> <p>Children also can be introduced to maps of the local community, Ohio and the United States.</p>	<p>Instructional Strategies</p> <p><u>Diverse Learners</u> Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Use a variety of kinds of maps as well as maps of a variety of different places (e.g., zoo, park, city) and have children practice locating and identifying places.</p> <p>Instructional Resources</p> <p>Lesson Plan: United States Geological Survey (USGS) http://education.usgs.gov/common/primary.htm This USGS page includes lessons on maps for elementary students. In the left column, click on the <i>Geography</i> heading. Select <i>What Do Maps Show? (Teacher Lesson)</i>. Although these lessons are geared for upper elementary students, many ideas and activities can be adapted for use in the first-grade classroom.</p> <p>Connections</p>
Expectations for Learning	<p>Use maps to locate and identify familiar places in the classroom, school or neighborhood.</p>	
Essential Questions		

Theme	<i>Families Now and Long Ago, Near and Far</i>	
Strand	<i>Geography</i>	
Topic	<p><i>Places and Regions</i></p> <p>A place is a location having distinctive characteristics, which give it meaning and character and distinguish it from other locations. A region is an area with one or more common characteristics, which give it a measure of homogeneity and make it different from surrounding areas. Regions and places are human constructs.</p>	
Content Statement	<p>5. <i>Places are distinctive because of their physical characteristics (landforms and bodies of water) and human characteristics (structures built by people).</i></p>	
Content Elaborations	<p>Places are locations having distinctive characteristics, which give them meaning and character and distinguish them from other locations.</p> <p>For grade one students, physical features can include lakes, rivers, hills, mountains and forests.</p> <p>Human characteristics can refer to places in the local community including towns, cities, farms, parks, playgrounds, houses and traffic signs/signals.</p>	<p>Instructional Strategies</p> <p>Explore the physical and human characteristics of a variety of places, modeling and encouraging the use of descriptive language to make comparisons.</p> <p>Diverse Learners</p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Use a variety of formats for exploration, including photographs, field trips, outdoor walks and technology.</p>
Expectations for Learning	<p>Compare physical and human characteristics of different places in the local community.</p>	<p>Instructional Resources</p> <p>Connections</p>
Essential Questions		

Theme	<i>Families Now and Long Ago, Near and Far</i>	
Strand	<i>Geography</i>	
Topic	<p>Human Systems</p> <p>Human systems represent the settlement and structures created by people on Earth's surface. The growth, distribution and movements of people are driving forces behind human and physical events. Geographers study patterns in cultures and the changes that result from human processes, migrations and the diffusion of new cultural traits.</p>	
Content Statement	<p>6. Families interact with the physical environment differently in different times and places.</p>	
Content Elaborations	<p>People depend on the physical environment for food, clothing, shelter, transportation and recreation.</p> <p>Families interact differently with the physical environment based upon times (past and present) and places (different physical environments).</p> <p>For example, families in Alaska used to light their homes with whale oil. Today, most of the homes use electricity.</p>	<p>Instructional Strategies</p> <p>Look at the weather report for cities in different regions of the United States either in the newspaper or online. Ask students how they would dress if they were visiting that city.</p> <p>Diverse Learners</p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Students sort and match pictures showing physical activities from various environments (e.g., cold-climate pictures of kids in warm clothes, skiing, shoveling snow, snowmen vs. warm-climate pictures of kids swimming, biking, enjoying a picnic).</p> <p>Instructional Resources</p> <p><i>Houses and Homes (Around the World Series)</i> by Ann Morris</p> <p>Connections</p>
Expectations for Learning	<p>Describe the way families in different places interact with the physical environment.</p> <p>Compare the way families interacted with the physical environment in the past with the way they interact today.</p>	
Essential Questions		

Theme	<i>Families Now and Long Ago, Near and Far</i>	
Strand	<i>Geography</i>	
Topic	<p>Human Systems</p> <p>Human systems represent the settlement and structures created by people on Earth's surface. The growth, distribution and movements of people are driving forces behind human and physical events. Geographers study patterns in cultures and the changes that result from human processes, migrations and the diffusion of new cultural traits.</p>	
Content Statement	<p>7. Diverse cultural practices address basic human needs in various ways and may change over time.</p>	
Content Elaborations	<p>Culture is the learned behavior of a group of people, which includes their belief systems, languages, social relationships, institutions and organizations, and their material goods such as food, clothing, buildings, tools and machines.</p> <p>Basic human needs of food, clothing, shelter, language and artistic expression are met in a variety of ways that are shaped by the culture.</p> <p>Cultural practices (ways of life that are unique to the inhabitants of a particular area) tend to change over time as technology advances.</p> <p>For examples, water buffalo are used to plow agricultural fields in many places in Asia today, because they are adapted to humid environments and do not necessarily need water to thrive. In North America, horses were used to plow agricultural fields, but tractors are widely used today.</p> <p>Note: Culture is a sensitive topic. Teachers and children need to respect and honor diversity among cultural groups.</p>	<p>Instructional Strategies</p> <p>Provide students with various books, photos and artifacts to illustrate the cultural practices of families in other cultures in various time periods. Guide students to compare the way each cultural group addresses basic human needs today with the way it was done in the past.</p> <p>Diverse Learners</p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Instructional Resources</p> <p>Connections</p>
Expectations for Learning	<p>Describe how different cultures satisfy basic needs and how this may change over time.</p>

Essential Questions		

Theme	<i>Families Now and Long Ago, Near and Far</i>	
Strand	<i>Government</i>	
Topic	<i>Rules and Laws</i> Rules play an important role in guiding behavior and establishing order in families, classrooms and organizations. Laws are enacted by governments to perform similar functions.	
Content Statement	<i>10. Rules exist in different settings. The principles of fairness should guide rules and the consequences for breaking rules.</i>	
Content Elaborations	<p>In Kindergarten, children learned the purpose for rules in the home, school and community.</p> <p>In grade one, children build on that concept to understand that there are different rules in different settings.</p> <p>Children understand that rules need to be fair (justice for all parties and concern for the fair allocation of resources among diverse members of a community). There are consequences for breaking rules.</p>	<p>Instructional Strategies</p> <p>Children compare playground, cafeteria, gym and classroom rules, noting differences and similarities. Then, children design and role-play various scenarios related to the rules in each setting.</p> <p>Children make posters that demonstrate the appropriate rules and actions for each setting.</p> <p>Diverse Learners</p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Instructional Resources</p> <p>Connections</p>
Expectations for Learning	<p>Explain why there are different rules for different settings.</p> <p>Explain why rules need to be guided by the principle of fairness and why rules include consequences for those who break them.</p>	
Essential Questions		

Theme	<i>Families Now and Long Ago, Near and Far</i>	
Strand	<i>Economics</i>	
Topic	Scarcity There are not enough resources to produce all the goods and services that people desire.	
Content Statement	11. Wants are unlimited and resources are limited. Therefore, people make choices because they cannot have everything they want.	
Content Elaborations	Instructional Strategies	
<p>Wants are unlimited and resources are limited (scarce), thereby forcing individuals to make choices.</p> <p>For example, Johnny can buy a new bicycle or a new computer game, but does not have money for both.</p> <p>Expectations for Learning Explain how and why people must make economic choices.</p>	<p>Diverse Learners Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Instructional Resources</p> <p>Lesson Plan: Trade to the Tailor http://www.econedlink.org/lessons/index.php?lid=699&type=educator This lesson is based on the <i>A New Coat for Anna</i> book by Harriet Ziefert. Children are introduced to scarcity, resources and decision making through Anna and her mother.</p> <p>Lesson Plan: Toys for Me http://www.econedlink.org/lessons/index.php?lid=517&type=educator This lesson plan from the Council for Economic Education introduces the concept of scarcity by illustrating how time is finite and how life involves a series of choices. Specifically, this lesson teaches students about scarcity and choice.</p> <p>Connections Connect with Content Statement 13 linking scarcity, decision making and markets.</p>	
Essential Questions		

Theme	<i>Families Now and Long Ago, Near and Far</i>	
Strand	<i>Economics</i>	
Topic	<i>Production and Consumption</i> Production is the act of combining natural resources, human resources, capital goods and entrepreneurship to make goods and services. Consumption is the use of goods and services.	
Content Statement	12. People produce and consume goods and services in the community.	
Content Elaborations	<p>People in the community work at jobs where they produce goods and services.</p> <ul style="list-style-type: none"> • Goods are objects that are capable of satisfying people's wants (e.g., homes, cars, furniture, food, clothing). • Services are actions that are capable of satisfying people's wants (e.g., medical care, restaurants, hotels, lawn mowing, babysitting). <p>People also are consumers in the community. Consumer wants are satisfied by using goods and services.</p> <p>People can be both producers and consumers.</p>	<p>Instructional Strategies</p> <p>Career Connection Students will conduct a workplace visit to their school cafeteria where they will explore the location that lunch is consumed. Discuss related careers that are involved in the many aspects of consumption (e.g., agriculture: farmers, logistics: shipping and receiving companies, transportation: truck drivers and delivery drivers, business and marketing: retail sales).</p> <p>Diverse Learners Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at this site. Additional strategies and resources based on the Universal Design for Learning principles can be found at www.cast.org.</p> <p>Instructional Resources Lesson Plan: Simple Simon Meets a Producer http://www.econedlink.org/lessons/index.php?lid=464&type=educator Using the classic rhyme, <i>Simple Simon and the Pie-Man</i>, children are introduced to the concepts of consumer and producer</p> <p>Connections</p>
Expectations for Learning	Demonstrate how people are producers and consumers in the community.	
Essential Questions		

Theme	<i>Families Now and Long Ago, Near and Far</i>
