

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>History</i>	
<b>Topic</b>	<p><b><i>Historical Thinking and Skills</i></b></p> <p>Historical thinking begins with a clear sense of time – past, present and future – and becomes more precise as students progress. Historical thinking includes skills such as locating, researching, analyzing and interpreting primary and secondary sources so that students can begin to understand the relationships among events and draw conclusions.</p>	
<b>Content Statement</b>	<p><b><i>1. Events in local history can be shown on timelines organized by years, decades and centuries.</i></b></p>	
<b>Content Elaborations</b>	<p>Using dates from historical events in the local community, students can demonstrate an understanding of units of time (years, decades, centuries) and chronological order (in order of time of occurrence) by placing these events in sequential order on a timeline.</p>	<p><b>Instructional Strategies</b></p> <p>Create a timeline from establishment of the local community to present. Allow space for specific events in each decade. Students can describe and illustrate each event on the timeline.</p> <p>Insert an event or date from local history into proper position on an interactive whiteboard timeline.</p>
<b>Expectations for Learning</b>	<p>Place events accurately on a timeline organized by years, decades and centuries.</p>	<p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p>Group students into cooperative learning groups.</p> <p>Allow students to choose from a variety of assessment formats.</p>
		<p><b>Instructional Resources</b></p> <p><i>Doing History: Investigating With Children in Elementary and Middle Schools</i> by Linda S. Levstik &amp; Keith C. Barton. This book includes information on the sociocultural context of teaching history and building communities of historical inquiry.</p>
		<p><b>Connections</b></p>
<b>Essential Questions</b>		

<b>Theme</b>	<b><i>Communities: Past and Present, Near and Far</i></b>	
<b>Strand</b>	<b><i>History</i></b>	
<b>Topic</b>	<b><i>Historical Thinking and Skills</i></b> Historical thinking begins with a clear sense of time – past, present and future – and becomes more precise as students progress. Historical thinking includes skills such as locating, researching, analyzing and interpreting primary and secondary sources so that students can begin to understand the relationships among events and draw conclusions.	
<b>Content Statement</b>	<b><i>2. Primary sources, such as artifacts, maps and photographs, can be used to show change over time.</i></b>	
<b>Content Elaborations</b>	<p>Primary sources are first introduced to students in grade three. Primary sources are records of events as they are first described, usually by witnesses or by people who were involved in the event. At this level, students learn to locate and use primary sources like artifacts, maps and photographs.</p> <p>An artifact is a material object of a culture such as a tool, an article of clothing or a prepared food.</p> <p>As students examine artifacts, maps and photographs from the local community, they begin to understand the concept of change over time.</p> <p>Change may be observed in:</p> <ul style="list-style-type: none"> <li>• Businesses;</li> <li>• Architecture;</li> <li>• Physical features;</li> <li>• Employment;</li> <li>• Education;</li> <li>• Transportation;</li> <li>• Technology;</li> <li>• Religion; and</li> <li>• Recreation.</li> </ul>	<p><b>Instructional Strategies</b></p> <p>Students evaluate photos, artifacts and maps from the local community that illustrate change over time. The teacher can use/create artifact baskets or bins with pictures, articles, etc., related to particular topics (e.g., Native Americans, pioneers, Amish communities). Have students identify and describe the changes with regard to various characteristics of the local community listed in the content elaborations.</p> <p>Students use artifacts, maps and photographs to write and illustrate a <i>Then and Now Book</i> related to specific topics (e.g., 1800s classroom, grocery items, housing, jobs).</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p><b>Instructional Resources</b></p> <p><b>Museum Box</b>  <a href="http://museumbox.e2bn.org/">http://museumbox.e2bn.org/</a>                  This website allows users to create collections of artifacts including text, pictures, audio, video, files and links. To save collections, teachers will need to register with the site.</p> <p><b>The Ohio Historical Society Archives/Library</b>  <a href="http://www.ohiohistory.org/resource/archlib/index.html">http://www.ohiohistory.org/resource/archlib/index.html</a>                  The <a href="#">Ohio Historical Society</a> collects, preserves and makes available to the public written and graphic information concerning Ohio's history. It is the designated repository for state government records of enduring historical value.</p>

<p><b>Expectations for Learning</b></p> <p>Use artifacts, maps and photographs to evaluate change in the local community.</p>	<p><b>Connections</b></p> <p>Connect with <a href="#">Economics Content Statement 14</a> and <a href="#">History Content Statement 3</a>, regarding change over time.</p> <p>Connections can be made to the <a href="#">Technology Academic Content Standards</a>, Technology and Communication Standard, Benchmark B, through student use of graphics and text in designing a slideshow presentation about change over time.</p>
<p><b><i>Essential Questions</i></b></p>	

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>										
<b>Strand</b>	<i>History</i>										
<b>Topic</b>	<i>Heritage</i> Ideas and events from the past have shaped the world as it is today. The actions of individuals and groups have made a difference in the lives of others.										
<b>Content Statement</b>	<b>3. Local communities change over time.</b>										
<b>Content Elaborations</b>	<p>As students examine primary sources from a variety of time periods, they begin to understand how characteristics of the local community have changed over time. Community is defined as a group of people residing in the same locality and under the same government.</p> <p>Characteristics for analysis include architecture, business, physical features, employment, education, transportation, technology, religion and recreation.</p> <p><b>Expectations for Learning</b> Research, analyze, organize and present historical information about a characteristic of the local community that has changed over time.</p>										
<b>Instructional Strategies</b>	<p>Students interview grandparents or older residents of the local community to learn about how life has changed over time. If resources are available, students can video or audiotape their interviews and present to the class.</p> <p>Students research information on a specific period in the past and assume the role of a community member during that time to complete a <a href="#">RAFT activity</a>. For example:</p> <table border="1" data-bbox="961 727 1843 792"> <thead> <tr> <th>Role</th> <th>Audience</th> <th>Format</th> <th>Topic</th> </tr> </thead> <tbody> <tr> <td>1800s Farmer</td> <td>Family in Germany</td> <td>Letter</td> <td>Farming in Ohio</td> </tr> </tbody> </table> <p>Other roles from this time period might include a homemaker, local businessperson, schoolteacher, Moravian missionary or young child.</p> <p><b>Diverse Learners</b> Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p><b>Instructional Resources</b> <b>America on the Move: Where's everyone going?</b> <a href="http://americanhistory.si.edu/onthemove/games/game1/game1.html">http://americanhistory.si.edu/onthemove/games/game1/game1.html</a> This Smithsonian site provides information on changes in transportation over time.</p>			Role	Audience	Format	Topic	1800s Farmer	Family in Germany	Letter	Farming in Ohio
Role	Audience	Format	Topic								
1800s Farmer	Family in Germany	Letter	Farming in Ohio								

	<p><b>Connections</b></p> <p>Connect to <a href="#">Geography Content Statement 6</a>, regarding human modifications to the environment in the local community, and <a href="#">History Content Statement 2</a>, regarding primary sources and change over time in the local community.</p> <p>Connections can be made to the <a href="#">Technology Academic Content Standards</a>, Technology and Society Interaction Standard, Benchmark B, regarding the idea that technology affects the environment in positive and/or negative ways.</p>
<p><b><i>Essential Questions</i></b></p>	

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Geography</i>	
<b>Topic</b>	<p><b><i>Spatial Thinking and Skills</i></b></p> <p>Spatial thinking examines the relationships among people, places and environments by mapping and graphing geographic data. Geographic data are compiled, organized, stored and made visible using traditional and geospatial technologies. Students need to be able to access, read, interpret and create maps and other geographic representations as tools of analysis.</p>	
<b>Content Statement</b>	<p><b>4. <i>Physical and political maps have distinctive characteristics and purposes. Places can be located on a map by using the title, key, alphanumeric grid and cardinal directions.</i></b></p>	
<b>Content Elaborations</b>	<p>Political maps show boundaries, towns and other human features while physical maps show physical features like elevation or landforms.</p> <p>Third-grade students can find the cardinal directions (NSEW) on a map. Intermediate directions (NE, NW, SE and SW) are introduced in grade four.</p> <p>The use of an alphanumeric grid at this level prepares students for latitude and longitude in grade five social studies and graphing skills in mathematics.</p> <p>Third-grade students can use maps of the local community to find landmarks and other familiar places.</p> <p>When students say that the park is on the north side of main street, they demonstrate an understanding of relative location. If they locate the museum at G11 on an alphanumeric grid, they are beginning to understand absolute location.</p>	<p><b>Instructional Strategies</b></p> <p>Have students draw an alphanumeric grid on the playground and then give them coordinates at which to stand. (This activity can be done indoors, using masking tape on the floor for the grid.)</p> <p>Use a county map to find familiar streets, landmarks and other features. Have students answer basic questions about location.</p> <p>After the teacher models the components of physical and political maps, the students design their own island on a map that includes a title, key, alphanumeric grid and cardinal directions.</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p>Use cooperative groupings for work with maps.</p>
<b>Expectations for Learning</b>	<p>Describe characteristics of physical and political maps and identify the purpose for each.</p> <p>Use the map title, key, alphanumeric grid and cardinal directions to locate places in the local community.</p>	<p><b>Instructional Resources</b></p> <p><b>U.S. Geological Survey Map Adventures</b>  <a href="http://egsc.usgs.gov/isb/pubs/teachers-packets/mapadventures/index.html">http://egsc.usgs.gov/isb/pubs/teachers-packets/mapadventures/index.html</a>            This site provides seven different lessons, appropriate for grades K-3. Students learn basic concepts for visualizing objects from different perspectives and they learn how to understand land-use maps.</p>
<b>Essential Questions</b>		

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Geography</i>	
<b>Topic</b>	<p><i>Places and Regions</i></p> <p>A place is a location having distinctive characteristics, which give it meaning and character and distinguish it from other locations. A region is an area with one or more common characteristics, which give it a measure of homogeneity and make it different from surrounding areas. Regions and places are human constructs.</p>	
<b>Content Statement</b>	<p><b>5. <i>Daily life is influenced by the agriculture, industry and natural resources in different communities.</i></b></p>	
<p><b>Content Elaborations</b></p> <p>Artifacts (material objects of a culture such as a tool, an article of clothing or a prepared food) and photographs can be used to help students understand life in the local community. Students examine artifacts and photographs from the past and present, and places far and near to make inferences about the influence of agriculture, industry and natural resources on daily life.</p> <p><b>Expectations for Learning</b></p> <p>Evaluate the influence of agriculture, industry and natural resources on daily life.</p>	<p><b>Instructional Strategies</b></p> <p>Students communicate with pen pals/e-pals in other communities and ask questions about agriculture, industry and natural resources. Students can collect photographs from the pen pals that show daily life in their communities. The teacher guides students to make inferences about the influence of agriculture, industry and natural resources on daily life in these communities.</p> <p><b>Career Connection</b></p> <p>As students communicate with pen pals or e-pals in other communities, they will explore the agriculture industry and natural resources throughout their region. Guide students to recognize the influence that agriculture and natural resources have on daily life across communities. Students will generate and exchange responses with their e-pals regarding practices related to agriculture and natural resources. They will ask questions relative to the types of careers available within agriculture and natural resources, and the types of places people work (e.g., large companies, small businesses, entrepreneurs). Students will learn about the types of careers available throughout their respective communities, and compare and contrast those practices with their own community, particularly in relation to the tools, resources, and technologies available.</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p>Create a collage of materials that are found in the local area to help students make inferences about the influence of agriculture, industry, etc.</p> <p><b>Instructional Resources</b></p> <p><b>Connections</b></p>	

	Connections can be made to the <a href="#">Technology Academic Content Standards</a> , Technology and Society Interaction Standard, Benchmark C, regarding how people have made tools to provide food, make clothing and provide protection.

**Expectations for Learning**

Explain how individuals make the community a better place by solving problems in a way that promotes the common good.

***Essential Questions***

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Government</i>	
<b>Topic</b>	<i>Rules and Laws</i> Rules play an important role in guiding behavior and establishing order in families, classrooms and organizations. Laws are enacted by governments to perform similar functions.	
<b>Content Statement</b>	<b>11. Laws are rules which apply to all people in a community and describe ways people are expected to behave. Laws promote order and security, provide public services and protect the rights of individuals in the local community.</b>	
<b>Content Elaborations</b>	<p>Laws are rules established by the government authority to describe how people are expected to behave.</p> <p>Laws provide safety, security and orderliness in the daily life of a community.</p> <p>Laws apply to both individuals and groups. For example:</p> <ul style="list-style-type: none"> <li>• Individuals – each driver is responsible for abiding by the speed limit when driving.</li> <li>• Groups – a parade permit issued by the government is necessary for a group of people to hold a parade.</li> </ul> <p>There are consequences for not obeying the laws.</p>	<p><b>Instructional Strategies</b></p> <p>Draft a classroom contract to establish rules and responsibilities within the classroom. Help students make connections between the rules in the classroom and the need for laws in the local community.</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p><b>Instructional Resources</b></p> <p><b>Connections</b></p> <p>Connect to <a href="#">Government Content Statement 12</a>, which involves the government's authority to make and enforce laws.</p> <p>Connections can be made to the <a href="#">Technology Academic Content Standards</a>, Technology and Society Interaction Standard, Benchmark D, regarding the responsible use of technology as addressed by the district Acceptable Use Policy.</p>
<b>Expectations for Learning</b>	<p>Explain how laws affect the behavior of individuals and groups in a community.</p> <p>Explain the benefits of having laws in a local community.</p>	
<b>Essential Questions</b>		

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Government</i>	
<b>Topic</b>	<i>Roles and Systems of Government</i> The purpose of government in the United States is to establish order, protect the rights of individuals and promote the common good. Governments may be organized in different ways and have limited or unlimited powers.	
<b>Content Statement</b>	<b>12. Governments have authority to make and enforce laws.</b>	
<b>Content Elaborations</b>	<p>Local government has the authority to make and carry out (enforce) laws to provide order, security, public services (e.g., police and fire protection) and protection of individual rights. At this level, rights should focus on being safe and secure. Students will examine First Amendment rights in grade 4.</p> <p>Local governments also enforce laws by establishing consequences for not obeying the law (e.g., fines, incarceration).</p> <p>Governments have the authority to change laws as necessary.</p>	<p><b>Instructional Strategies</b></p> <p>Invite a local elected official and a law enforcement officer to speak with students. Work with students before their visits to draft questions that relate to the process of making and enforcing laws in the local community and why governments have that authority.</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. <b>Expectations for Learning</b>	Explain why governments have authority to make and enforce laws.	
<b>Essential Questions</b>		

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Government</i>	
<b>Topic</b>	<i>Roles and Systems of Government</i> The purpose of government in the United States is to establish order, protect the rights of individuals and promote the common good. Governments may be organized in different ways and have limited or unlimited powers.	
<b>Content Statement</b>	<b>13. The structure of local governments may differ from one community to another.</b>	
<b>Content Elaborations</b>	<p>Local governments in Ohio vary according to the way they are structured. At present, Ohio has more than 3,600 separate local government units. There are four types of local government in Ohio: municipal, county, township and special.</p> <p>Students at this level should be familiar with the organization of their local government and understand that their local government may be unlike that of a nearby city.</p>	<p><b>Instructional Strategies</b></p> <p>Invite local leaders to visit the classroom and talk to students about local government. Students can then email students in other communities or conduct research on the Internet to gather information and compare the way other local governments in Ohio are structured.</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p><b>Instructional Resources</b></p> <p><b>State and Local Government on the Net</b> <a href="http://www.statelocalgov.net/state-oh.cfm">http://www.statelocalgov.net/state-oh.cfm</a> Scroll to the bottom of the landing page for a listing of Ohio county, city and village government websites or use the search box in the upper left corner.</p> <p><b>Connections</b></p>
<b>Expectations for Learning</b>	Explain the structure of the local government.	
<b>Essential Questions</b>		

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Economics</i>	
<b>Topic</b>	<p><b><i>Economic Decision Making and Skills</i></b></p> <p>Effective economic decision making requires students to be able to reason logically about key economic issues that affect their lives as consumers, producers, savers, investors and citizens. Economic decision making and skills engage students in the practice of analyzing costs and benefits, collecting and organizing economic evidence, and proposing alternatives to economic problems.</p>	
<b>Content Statement</b>	<p><b>14. <i>Line graphs are used to show changes in data over time.</i></b></p>	
<b>Content Elaborations</b>	<p>Use line graphs to display data that shows changes over time. Line graphs compare two variables. Each variable is plotted along an axis: an x-axis (horizontal) and a y-axis (vertical). Usually, the x-axis has numbers representing the time period and the y-axis has numbers for what is being measured. Change over time will be reflected by the peaks (ups) and valleys (downs) in the line.</p> <p>Since students already are working with timelines in grade 3, they can practice making line graphs with evenly spaced intervals (years, decades, centuries) and accurately plotted data (e.g., constructing a line graph showing changes in production of corn in Ohio from 1900 to the present).</p>	<p><b>Instructional Strategies</b></p> <p>Show students a line graph that demonstrates change over time and explain the range or intervals being considered. Have students gather data on business and/or population growth within the local community over a designated period of time. Students work individually or in small groups to create a line graph that reflects the data and change over time.</p> <p>Each area of change could be studied as a unit. Inquiry may be planned around a unit question (e.g., <i>How has the population in the local community changed over time? How has that growth affected the community?</i>).</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p><b>Instructional Resources</b></p> <p><b>Connections</b></p> <p>Connect to <a href="#">History Content Statement 2</a> and <a href="#">History Content Statement 3</a> regarding change over time.</p>
<b>Expectations for Learning</b>	<p>Construct line graphs showing change over time using data related to a specific topic.</p>	
<b>Essential Questions</b>	<p><b><i>How has my community changed over time?</i></b></p>

Students identify incentives in their daily lives at home and school. Students will discuss which incentives have worked to influence their decisions and why.</p> <p><b>Connections</b></p>
<b>Expectations for Learning</b>	<p>Give examples of positive and negative incentives that affect people's choices and behaviors.</p>	
<b>Essential Questions</b>		

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Economics</i>	
<b>Topic</b>	<b>Scarcity</b> There are not enough resources to produce all the goods and services that people desire.	
<b>Content Statement</b>	<b>16. Individuals must make decisions because of the scarcity of resources. Making a decision involves an opportunity cost, the value of the next best alternative given up when an economic choice is made.</b>	
<b>Content Elaborations</b>	<b>Instructional Strategies</b>	
<p>Scarcity refers to the lack of sufficient resources to produce all the goods and services that people desire.</p> <p>You cannot have more of anything you want without having less of something else you want. Every choice involves a cost, which means giving up the chance to get something else. This is called opportunity cost.</p> <p><b>Expectations for Learning</b> Describe the opportunity cost of an individual economic decision.</p>	<p><b>Diverse Learners</b> Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p><b>Instructional Resources</b> <b>Lesson Plan: Toys for Me</b> <a href="http://www.econedlink.org/lessons/index.php?lid=517&amp;type=educator">http://www.econedlink.org/lessons/index.php?lid=517&amp;type=educator</a> This lesson plan from the Council for Economic Education introduces the concept of scarcity by illustrating how time is finite and how life involves a series of choices. Specifically, this lesson teaches students about scarcity and choice.</p> <p><i>Money Troubles</i> by Bill Cosby (Scholastic, 1998): The irrepensible Little Bill does different jobs and collects cans to earn money to buy a telescope. While collecting cans, he comes across a little boy who also is collecting cans but who looks as if he needs the money more than Little Bill. In the end, Little Bill decides to use the money he has saved to buy food for the school food drive for the poor.</p> <p><b>Connections</b> Connect to <a href="#">Economics Content Statement 19</a> regarding costs and benefits and <a href="#">Economics Content Statement 20</a> regarding the use of a budget.</p>	
<b>Essential Questions</b>		

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Economics</i>	
<b>Topic</b>	<i>Production and Consumption</i> Production is the act of combining natural resources, human resources, capital goods and entrepreneurship to make goods and services. Consumption is the use of goods and services.	
<b>Content Statement</b>	<b>17. A consumer is a person whose wants are satisfied by using goods and services. A producer makes goods and/or provides services.</b>	
<b>Content Elaborations</b>	<p>Consumers are people who use goods and services to satisfy their personal needs and not for resale or in the production of other goods and services.</p> <p>Producers are people and businesses that use resources to make goods and services. Goods are objects that are capable of satisfying people's wants. Services are actions that are capable of satisfying people's wants.</p>	<p><b>Instructional Strategies</b></p> <p>Have two or three different classes create and make a product (e.g., food, bookmarks). Classes might sell these items during lunch. Each student has the opportunity to be a producer, making their product, and a consumer of a product, through buying items.</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p><b>Instructional Resources</b></p> <p><b>Junior Achievement</b> <a href="http://www.ja.org/">http://www.ja.org/</a> Multiple resources are available for grade three, including lesson plans. <b>Essential Questions</b>		

<b>Theme</b>	<b><i>Communities: Past and Present, Near and Far</i></b>	
<b>Strand</b>	<b><i>Economics</i></b>	
<b>Topic</b>	<b><i>Markets</i></b> Markets exist when buyers and sellers interact. This interaction determines market prices and thereby allocates scarce resources, goods and services.	
<b>Content Statement</b>	<b><i>18. A market is where buyers and sellers exchange goods and services.</i></b>	
<b>Content Elaborations</b>	<p>Markets involve the interaction of buyers and sellers exchanging goods and services.</p> <p>The market is the place where people purchase the goods or services that they need from the businesses that sell them.</p>	<p><b>Instructional Strategies</b></p> <p>Visit a local marketplace. Ask questions about what the students see happening: <i>What are buyers and sellers exchanging? Is what is being exchanged a good or a service?</i> When students return to the classroom, have them design a graphic illustration or a role-play exercise that demonstrates the exchange of goods and services they observed in the local market.</p> <p>Use an interactive whiteboard to display various pictures of economic markets. Have students talk about what is happening in each scene and identify the goods and services that are exchanged.</p> <p>Have students portray someone with a role in the local marketplace. Allow students to ask questions to determine whether the individual is a buyer or seller and whether they provide goods or services.</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. <b>Expectations for Learning</b>	Describe markets that exist in the local community.	
<b>Essential Questions</b>		

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Economics</i>	
<b>Topic</b>	<i>Financial Literacy</i> Financial literacy is the ability of individuals to use knowledge and skills to manage limited financial resources effectively for lifetime financial security.	
<b>Content Statement</b>	<i>19. Making decisions involves weighing costs and benefits.</i>	
<b>Content Elaborations</b>	<p>At this level, students need to understand that there are costs and benefits associated with each personal decision.</p> <p>A cost is the alternative given up as the result of a decision.</p> <p>A benefit is that which is received as an improvement or advantage as the result of the decision.</p> <p>This foundational skill builds to making financial decisions by systematically considering alternatives and their consequences.</p> <p>Students also understand that the cost of a decision is not always monetary.</p>	<p><b>Instructional Strategies</b></p> <p><b>Diverse Learners</b> Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>. Additional strategies and resources based on the Universal Design for Learning principles can be found at <a href="http://www.cast.org">www.cast.org</a>.</p> <p><b>Instructional Resources</b></p> <p><b>Lesson Plan: Off to Interactive Island</b> <a href="http://www.econedlink.org/lessons/index.php?lid=178&amp;type=educator">http://www.econedlink.org/lessons/index.php?lid=178&amp;type=educator</a> This lesson plan from the <a href="#">Council for Economics Education</a>, written for grades K-2, provides an activity to explore the concept of economic decision making that could be adapted for older students. In the lesson, students are given a limited number of tokens and asked to exchange those tokens for goods in preparation for pioneering in a new land. They decide what to leave behind and give reasons for their choices. Finally, they identify the costs and benefits of their choices.</p> <p><b>Connections</b> Connect to <a href="#">Economics Content Statement 16</a> regarding opportunity cost and economic choice.</p>
<b>Expectations for Learning</b>	Evaluate the costs and benefits of an individual economic decision.	
<b>Essential Questions</b>		

<b>Theme</b>	<i>Communities: Past and Present, Near and Far</i>	
<b>Strand</b>	<i>Economics</i>	
<b>Topic</b>	<i>Financial Literacy</i> Financial literacy is the ability of individuals to use knowledge and skills to manage limited financial resources effectively for lifetime financial security.	
<b>Content Statement</b>	<b>20. A budget is a plan to help people make personal economic decisions for the present and future and to become more financially responsible.</b>	
<b>Content Elaborations</b>	<p>A budget helps individuals take personal responsibility for financial decisions.</p> <p>A budget is a plan for using income productively, including spending, sharing and setting money aside for future expenses.</p> <p>Budgeting is important for organizing personal finances and managing cash flow.</p>	<p><b>Instructional Strategies</b></p> <p>Have students plan a budget for a class activity, make decisions about expenditures and break down the cost for each element of the activity.</p> <p><b>Diverse Learners</b></p> <p>Strategies for meeting the needs of all learners including gifted students, English Language Learners (ELL) and students with disabilities can be found at <a href="#">this site</a>.
