Schools To Watch™

A School Self-Study and Rating Rubric ©

This is a continuing-improvement tool as well as a mandatory self-rating for schools interested in applying for a state Schools To Watch designation. Schools applying for a STW state designation should be consistently averaging scores between 3.4 and 4.0 in all sections and components.

The rubric is divided into four sections: **Academic Excellence, Developmental Responsiveness**, **Social Equity**, and **Organizational Support and Processes**. Under each section there is general criteria followed by concrete, detailed, expected examples of excellence. Self-rate each general and detailed component. The **ultimate goal** is to be consistently excellent and rate a well-evidenced score point 4 in every component (general and detail) of every section. Even when that ultimate goal is reached, a true high performing middle school will continue to seek ways to improve as new challenges arise.

A **4** in any general and detail component means the practice is highly and completely implemented, systemic, coherent in every classroom, by every teacher, across the school.
A **3** in any general and detail component means that there is a high degree or maturing quality of implementation that is systemic, but it may not be coherent or of the highest quality in every classroom and by every teacher, but certainly by most, 75 percent or better.
A **2** in any general and detail component means that there is a mixed, fair, immature quality of implementation. A 2 also means that practices may include many teachers but not the majority. The program may be too new to have realized accountable results or to be evaluated as effective.
A **1** in any general and detail component means that the practice may just have gotten started, (very immature), or is only practiced by a handful of practitioners).
No score is equivalent to a **0.**
