Introduction

ORC 3313.821 enacted as part of Am. Sub H.B 49 requires all school districts and Educational Service Centers to create and submit their business advisory council plans to the Ohio Department of Education (ODE).

Beginning in the 2019 – 2020 (FY20) school year, ODE will coordinate the submission of these plans annually through the Data Submission Forms application located within the OH|ID web portal. The department has requested all annual plans be submitted not later than September 30th.

This guidance document is designed to help districts complete the submission process.

Those districts that that have entered into an agreement under section 3313.843 or 3313.845 of the Revised Code to receive any services from an ESC, and have agreed the ESC's business advisory council will represent the business of the district, **do not** need to upload a separate plan. The ESC submission of its plan is sufficient to meet the requirement.

Please note: Although districts supported by an ESC's business advisory council are not required to upload a separate plan, the Department is asking those districts to answer questions within the Data Submissions Forms application identifying their supporting ESC.

Accessing the Data Submission Forms Application

The Ohio Department of Education uses the Data Submission Forms application to complete the Business Advisory Council Plan collection process. Users access the system through the OH|ID web portal.
