

Connecticut State Department of Education Evidence-Based Practice Guide
Supporting Local Education Agencies' (LEA) Use of ESSA Title Funds

Climate and Culture

DRAFT

Under ESSA, there are four tiers, or levels of evidence. Throughout this guide, the level indicator key is used to identify the evidence level at a quick glance.

Tier	Evidence Level	Evidence Descriptor
1	Strong Evidence	Supported by one or more well-designed and well-implemented randomized control experimental studies.
2	Moderate Evidence	Supported by one or more well-designed and well-implemented quasi-experimental studies.
3	Promising Evidence	Supported by one or more well-designed and well-implemented correlational studies.
4	Demonstrates a Rationale	Practices that have a well-defined logic model or theory of action , are supported by research, and have some effort underway to determine their effectiveness.

Interventions applied under Title I, Section 1003 (School Improvement) are required to have strong, moderate, or promising evidence (Tiers 1-3) to support them. All other programs under Titles I-IV can rely on Tiers 1-4.

Systems

The Connecticut State Department of Education adheres to research supporting the development, implementation, and sustainability of a tiered system of support for positive school climate, defined as the quality and character of school life. This system of support must address chronic absence, school discipline and interpersonal relationships and must ensure non-academic needs are met so that students are healthy, happy, and ready to learn.

Instructional Practice

The Connecticut State Department of Education adheres to research that supports the explicit strategies and interventions to improve school climate that support student growth and development by enhancing their ability to learn and to create innovative teaching and learning environments. Practices are grounded in prevention and early intervention strategies to promote a safe and positive school culture and to identify vulnerable students and differentiating supports and interventions

Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Implement strategies and practices to connect all students to school life.</p> <p><i>To improve outcomes for students, the following strategies have proven effective:</i></p> <ul style="list-style-type: none"> • <i>create decision-making processes that facilitate student, family, and community engagement as well as academic achievement and staff empowerment;</i> • <i>provide education and opportunities to enable families to be actively involved in their children’s academic and school life;</i> • <i>provide students with the academic, emotional, and social skills necessary to be actively engaged in school;</i> • <i>use effective classroom management and teaching methods to foster a positive learning environment;</i> • <i>provide professional learning and support for teachers and other school staff to enable them to meet the diverse cognitive, emotional, and social needs of children and adolescents; and</i> • <i>create trusting and caring relationships that promote open communication among administrators, teachers, staff, students, families, and communities.</i> 	<p>PreK-3 4-5 6-8 9-12</p> <p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 1, Strong</p> <p>Source: Blum, R. Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Replace zero-tolerance policies with alternative strategies for effective school discipline approaches that include a range of responses, such as targeted behavioral supports, character education programs, or positive behavioral interventions and supports.</p> <p><i>School discipline alternatives to suspensions emphasize social, behavioral, and cognitive skill-building as well as character education and include targeted behavioral supports for students who are at risk for violent or illegal behavior.</i></p>	<p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 2, Moderate</p> <p>Source: Skiba, R., Reynolds, C. R., Graham, S., Sheras, P., Conoley, J. C., Garcia-Vazquez, E. (2006). Are Zero Tolerance Policies Effective in the Schools? An Evidentiary Review and Recommendations. American Psychological Association Zero Tolerance Task Force report.</p>
<p>To find the best intervention, first identify the specifics and conditions that prompt and reinforce a problem behavior.</p> <p><i>The success of a behavioral intervention hinges on identifying the specific conditions that prompt and reinforce the problem behavior. Teachers carefully observe the conditions in which the problem behavior is likely to occur and not occur and use the information to tailor effective intervention strategies that respond to the needs of the individual student.</i></p>	<p>PreK-3 4-5</p> <p>PreK-3 6-8</p>	<p>Tier 2, Moderate</p> <p>Source: Reducing Behavior Problems in the Elementary School Classroom, (NCEE 2008-012)</p> <p>Tier 4, Demonstrates a Rationale</p> <p>Source: Hansen, B. D., Wills, H. P., Kamps, D. M., Greenwood, C. R. (2013). The Effects of Function-Based Self-Management Interventions on Student Behavior. Journal of Emotional and Behavioral Disorders. July 2013. DOI: 10.1177/1063426613476345.</p>

Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Modify the classroom learning environment to decrease problem behaviors.</p> <p><i>Teachers can reduce the occurrence of inappropriate behavior by revisiting and reinforcing classroom behavioral expectations; rearranging the classroom environment, sequencing learning activities to meet students’ needs; and/or individually adapting instruction to promote high rates of student engagement and on-task behavior.</i></p>	<p>PreK-3 4-5</p> <p>PreK-3 4-5</p>	<p>Tier 1, Strong Source: Reducing Behavior Problems in the Elementary School Classroom, (NCEE 2008-012).</p> <p>Tier 1, Strong Source: Sugai, S., Horner, R. (2008) The Evolution of Discipline Practices: School-Wide Positive Behavior Supports, Child & Family Behavior Therapy, 24:1-2, 23-50, DOI: 10.1300/J019v24n01_03.</p>
<p>Teach and reinforce new skills to increase appropriate behavior and preserve a positive classroom climate.</p> <p><i>Teachers should actively teach students socially and behaviorally appropriate skills to replace problem behaviors using strategies focused on both individual students and the whole class. In this way, students can learn how, when, and where to use these new skills; increase the opportunities that students have to exhibit appropriate behaviors; preserve a positive classroom climate; and manage consequences to reinforce students’ display of positive “replacement” behaviors and adaptive skills.</i></p>	<p>4-5</p>	<p>Tier 1, Strong Source: Reducing Behavior Problems in the Elementary School Classroom, (NCEE 2008-012).</p>

Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Draw on relationships with professional colleagues and students’ families for continued guidance and support.</p> <p><i>Teachers should draw upon relationships with professional colleagues and students’ families in finding ways to address the behavior problems of individual students and should consider parents, school personnel, and behavioral experts as allies who can provide new insights, strategies and support.</i></p>	<p>PreK-3 4-5</p> <p>PreK-3 4-5</p>	<p>Tier 2, Moderate</p> <p>Source: Reducing Behavior Problems in the Elementary School Classroom, (NCEE 2008-012).</p> <p>Tier 2, Moderate</p> <p>Source: Treating Children With Early-Onset Conduct Problems: Intervention Outcomes for Parent, Child, and Teacher Training: Adolescent Psychology, American Psychological Association, Division 53. 33. 105-24. 10.1207/S15374424JCCP3301_11.</p>
<p>Assess whether schoolwide behavior problems warrant adopting schoolwide strategies or programs that reduce negative and foster positive interactions.</p> <p><i>Classroom teachers can benefit from adopting a schoolwide approach to preventing problem behaviors and increasing positive social interactions among students and with school staff. A systemic approach requires a shared responsibility on the part of all school personnel, particularly the administrators who establish and support consistent schoolwide practices and the teachers who implement these practices both in their individual classrooms and beyond.</i></p>	<p>PreK-3 4-5</p> <p>PreK-3 4-5</p>	<p>Tier 2, Moderate</p> <p>Source: Reducing Behavior Problems in the Elementary School Classroom, (NCEE 2008-012).</p> <p>Tier 1, Strong</p> <p>Source: A Randomized Controlled Trial of the First Step to Success Early Intervention Demonstration of Program Efficacy Outcomes in a Diverse, Urban School District: Walker, Hill & R. Journal of Emotional and Behavioral Disorders. 17. 197-212.</p>

Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Reduce students’ use of drugs and involvement in other problem behaviors by providing a supportive and responsive culture.</p> <p><i>Comprehensive school reform programs, like the Child Development Project, help elementary schools become caring communities of learners-environments characterized by supportive interpersonal relationships, shared goals, responsiveness to students’ developmental and sociocultural needs, and an emphasis on prosocial values of personal responsibility, concern for others, and fairness, as well as a commitment to learning. The programs include classroom, schoolwide, and family involvement activities that, working synergistically, are expected to foster students’ positive development and resilience to risk when confronted with stressful life events and circumstances.</i></p>	<p>PreK-3 4-5</p>	<p>Tier 2, Moderate</p> <p>Source: Battistich, V., Schaps, E., Watson, M., Solomon, D., Lewis, C. Effects of the Child Development Project on students' drug use and other problem behaviors. Journal of Primary Prevention.</p>
<p>Develop a system to address interventions for behavior problems in early grades, including screening, school intervention and parent training.</p> <p><i>Selected interventions, like First Step, for students in grades 1 through 3 with externalizing behavior problems, address prevention goals and objectives. First Step consists of three modular components (screening, school intervention, parent training); lasts approximately three months; and is initially set up, delivered, and coordinated by a behavioral coach (e.g., school counselor, behavior specialist, social worker).</i></p>	<p>1-3</p>	<p>Tier 1, Strong</p> <p>Source: A Randomized Controlled Trial of the First Step to Success Early Intervention: Demonstration of Program Efficacy Outcomes in a Diverse, Urban School District. Journal of Emotional and Behavioral Disorders, 17(4), 197–212.</p>

Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Provide social skill instruction in early childhood education for students with disabilities, including communication, problem solving, decision making, self-management and peer relations.</p> <p><i>The review of social skills training in the social-emotional development and behavior domain showed statistically positive effects. A variety of social skills training approaches and curricula are available. For example, teachers may use a structured approach to explain to students how to enact a desired behavior by providing examples and reinforcing targeted behaviors through questions, answers, and other feedback. An example of a more nuanced approach (often referred to as “incidental teaching”) is when teachers respond to student-generated utterances, interactions, and behavior to encourage the desired social skills (such as rewarding positive play).</i></p>	<p>PreK-3</p>	<p>Tier 2, Moderate</p> <p>Source: What Works Clearinghouse Intervention Report, Early Childhood Education Interventions for Children with Disabilities (2013)</p>
<p>Provide restorative interventions to students who are disproportionately suspended (race and ethnicity).</p> <p><i>Disciplined students are at greater risk than other students to experience a host of academic and psychosocial problems across the lifespan. Findings indicate that student racial background and school racial composition are enduring risks across key decision points of the school discipline process. Conversely, participation in restorative interventions and in-school suspensions protects students from out-of-school suspensions.</i></p>	<p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 2, Moderate</p> <p>Source: Anyon, Y., Jenson, J. M., Altschul, I., Farrar, J., McQueen, J., Greer, E., Downing, B., Simmons, J. (2014). The persistent effect of race and the promise of alternatives to suspension in school discipline outcomes. Professional Learning

The Connecticut State Department of Education supports the following evidence-based models of teacher professional learning that ensures equitable access to relevant individual learning opportunities and enhance practices for school climate, chronic absences, and discipline.

Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Foster team teaching.</p> <p><i>Teams of teachers collaborate to address student learning and behavior problems. Teacher teams meet periodically with parents.</i></p>	<p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 1, Strong</p> <p>Source: Blum, R. (2005). School Connectedness: Improving Students’ Lives. Johns Hopkins Bloomberg School of Public Health, Baltimore, Maryland.</p>
<p>Provide professional learning focused on school staff meeting the cognitive, emotional, and social needs of all students.</p> <p><i>Provide teachers with professional learning on strategies such as:</i></p> <ul style="list-style-type: none"> • <i>organize and structure the classroom to promote a positive environment;</i> • <i>use developmentally appropriate discipline strategies that emphasize positive behaviors and values;</i> • <i>develop a coaching and mentoring program for teachers,</i> • <i>enable teachers to learn from each other through professional learning teams;</i> • <i>educate school staff on strategies to involve parents in school life; and</i> • <i>employ teachers who demonstrate effective student-centered pedagogy.</i> 	<p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 1, Strong</p> <p>Source: Centers for Disease Control and Prevention. School Connectedness: Strategies for Increasing Protective Factors Among Youth. Atlanta, GA: U.S. Department of Health and Human Services; 2009</p>

Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Strengthen educator capacity to build collaboration between teachers and families.</p> <p><i>The Family Engagement Partnership (FEP) is an intensive, capacity-building intervention designed to support student success by transforming the ways in which teachers and families collaborate with one another.</i></p>	<p>PreK-3 4-5</p>	<p>Tier 2, Moderate</p> <p>Source: Sheldon S. B., Jung, S. B. (2015) The Family Engagement Partnership Student Outcome Evaluation. John Hopkins School of Education.</p>
<p>Provide ongoing job-embedded professional learning for administrators, teachers, and other staff in the social-emotional skills needed to change the school culture.</p> <p><i>A review of Conscious Discipline, an early childhood social emotional learning (SEL) program, revealed the importance of providing teachers with ongoing, job-embedded professional learning in order to effectively implement the multiyear, multicomponent, school-based intervention. Professional learning must aim to modify teacher and child behavior in order to create classrooms based on safety, connection, and problem solving instead of external rewards and punishments and must include discipline strategies and self-regulation skills for children, parents, and other adults.</i></p>	<p>PreK-3</p>	<p>Tier 3, Promising</p> <p>Source: NREPP SAMHSA’s National Registry of Evidence-based Programs and Practices Conscious Discipline (2015).</p>
<p>Train teachers and staff in how to deal with conflict and how to engage with families in constructive ways.</p> <p><i>Promoting positive interactions between students and adults requires concerted attention to the ways in which the school environment is structured, including training teachers and staff on how to deal with conflict in constructive ways and in finding ways school personnel can engage with families in constructive and supportive ways.</i></p>	<p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 2, Moderate</p> <p>Source: Steinberg, M. P., Allensworth, E., Johnson, D. W. (2011). Extended Learning

The Connecticut State Department of Education supports evidenced-based models of extended learning that are supported by practices to improve school climate, chronic absence and school discipline and to engage families and community members through enhanced communication with two-way relationship building.

Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Maximize student attendance and participation.</p> <p><i>Student participation is affected by issues of access and convenience, as well as by the adequacy and attractiveness of the services, and features provided in the program. Minimize the barriers to participation, especially for the students most in need of program services and most likely to benefit from them.</i></p>	<p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 4, Demonstrates a Rationale</p> <p>Source: Structuring Out-of-School Time to Improve Academic Achievement (NCEE 2009-012).</p>
<p>Adapt instruction to individual and small group needs.</p> <p><i>Supplement learning from the school day and provide targeted assistance to students whose needs extend beyond what they can receive in the classroom instruction must be focused and targeted. Closely aligning the content and pacing of instruction with student needs will result in improved student performance. Determining the right level of difficulty, pace, and the most appropriate skills to teach is critical to effectively individualizing instruction.</i></p>	<p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 2, Moderate</p> <p>Source: Structuring Out-of-School Time to Improve Academic Achievement (NCEE 2009-012).</p>
<p>Provide engaging learning experiences.</p> <p><i>Activities should be interactive, hands on, learner directed, and related to the real world, while remaining grounded in academic learning goals.</i></p>	<p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 4, Demonstrates a Rationale</p> <p>Source: Structuring Out-of-School Time to Improve Academic Achievement (NCEE 2009-012).</p>

Evidence-based practice and rationale	Grade band	Evidence level and source
<p>Use program assessment to improve quality.</p> <p><i>Both formative and summative evaluations are instrumental in any program improvement effort. Programs should have internal mechanisms to monitor staff performance, collect data related to program implementation, and conduct independent evaluations of program implementation and student impact.</i></p>	<p>PreK-3 4-5 6-8 9-12</p>	<p>Tier 4, Demonstrates a rationale</p> <p>Source: Structuring Out-of-School Time to Improve Academic Achievement (NCEE 2009-012).</p>
<p>Align out-of-school time program academics with the school day.</p> <p><i>Maximize communication between program coordinators and school personnel, designating school staff personnel to support program staff, connecting program instruction to school instruction by identifying school goals and learning objectives, and coordinating with the school to identify staff for the program.</i></p>	<p>4-5 6-8</p>	<p>Tier 4, Demonstrates a Rationale</p> <p>Source: Structuring Out-of-School Time to Improve Academic Achievement (NCEE 2009-012).</p>
<p>Provide individualized attention to students with school staff and monitor school performance, mentoring, and case management.</p> <p><i>Check & Connect is an intervention to reduce dropping out of school. Students are assigned a “monitor” who regularly reviews information on attendance, behavior, or academic problems and intervenes when problems are identified.</i></p>	<p>6-8 9-12</p>	<p>Tier 2, Moderate</p> <p>Source: What Works Clearinghouse Works Intervention Report Dropout Prevention Check and Connect (2015).</p>
<p>Connect middle school students to mentors.</p> <p><i>The LISTEN mentoring program is for at-risk students in grades 6 through 8. The study found that GPAs and attendance rates went up for participants and discipline referrals went down.</i></p>	<p>6-8</p>	<p>Tier 2, Moderate</p> <p>Source: Johnson, K. C., Lampley, J. H. (2010). Mentoring at-risk middle school students. SRATE Journal, v19, n2, Summer 2010.</p>
