

Document Upload Guidance for the 2017-2018 Sponsor Evaluation, Quality Practices Component

For the quality practices component of the 2017-2018 sponsor evaluation, sponsors must upload their documents through 32 designated submission types¹ in Epicenter, one for each standard on the Quality Rubric. The 32 submission types streamline the original 52 submission types that were used during the previous evaluation cycle. This change gives sponsors more flexibility and autonomy in demonstrating the breadth of their sponsoring practices; it also facilitates a streamlined approach to document upload.

Sponsors are strongly encouraged to review the Quality Rubric carefully before uploading documents into Epicenter. Each standard includes a descriptive summary, key indicators and clearly-defined metrics within the rubric. The rubric, in particular, should provide a thorough understanding of exactly how sponsors are being evaluated and what evidence they need to submit to demonstrate their practices at each rating level. Sponsors who have questions about any standard should contact Stacy Cherry (Stacy.Cherry@education.ohio.gov, 614-995-1956).

The following information is intended to guide sponsors in identifying and uploading appropriate documents for the Quality Practices component of the 2017-2018 sponsor evaluation. The following tables should serve as a starting point for sponsors as they consider what documents will best demonstrate their organizational practices. The Ohio Department of Education has identified “Examples of Relevant Documents” for your convenience. Please keep in mind that the examples listed are not all encompassing; there may be acceptable document types other than those listed. Please also note that submitting the examples provided does not guarantee a specific rating on any standard.

The Department has also identified “Examples of Unacceptable Documents,” which outline documents that will not support the standard. Again, this list does not identify every possible unacceptable document; it should serve only as a guide.

Remember that sponsors should **NEVER UPLOAD** documents that contain identifying student information or nonpublic information, such as a Safety Plan. If a document to be uploaded contains a date (e.g. emails, policies, completed school applications, etc.), make sure the date corresponds to the review year (i.e. July 1, 2017 – June 30, 2018). However, if sponsors have policies that cover multiple years and are reviewed every two to five years instead of annually, then a policy dated outside of the review year is acceptable.

If you need further assistance determining whether a document is appropriate, please contact Stacy Cherry.

¹ A submission type is the title given to a request for documentation within the Department’s online platform, Epicenter.
