

ODE EMIS MANUAL

Section 3.1: Staff Records Overview

Version 2.0
October 16, 2013

REVISION HISTORY

The revision history provides a means for the readers to easily navigate to the places in the manual where updates have occurred. Where there has been a significant change or update it will be highlighted. Minor changes, such as typos, formatting, and grammar are not highlighted.

Version	Date	Effective Date (FY & Reporting Period)	Change #	Description
<u>2.0</u>	<u>10/8/13</u>	<u>FY14K</u>	<u>1010</u>	<u>Removed references to unit funding.</u>

3.1 STAFF RECORDS OVERVIEW

General Guidelines

The Staff Records sections in the ODE EMIS Manual provide instructions about reporting staff data records and elements to the Ohio Department of Education (ODE). These sections also contain guidance regarding the reporting of staff in a contracted situation, such as when the school district contracts with an Educational Service Center (ESC) or another EMIS reporting entity. For specific contracted staff reporting instructions, see Section 3.2 Reporting Contracted Staff. Most staff records are submitted to the Ohio Department of Education (ODE) with a staff employee ID. Some examples of how staff data are used include reporting student-teacher ratio statistics, and teacher supply and demand reports, ~~and state preschool special education unit funding.~~

OVERVIEW OF DATA

The following are general categories of staff data covered in Staff Records of the ODE EMIS Manual.

- Staff demographic data (race, gender, age, name, education level, attendance, etc.)
- Staff employment data (salary, assignment area, fund source, etc.)
- Career-technical education class data

REPORTING RESPONSIBILITY

One Staff Demographic Record and at least one Staff Employment Record are required for each individual employed (certificated/licensed and classified) by the following EMIS reporting entities.

- City, local, or exempted village school districts
- Community schools
- Educational service centers (ESCs)
- Joint vocational school districts (JVSD)
- Ohio Schools for the Deaf and Blind
- Ohio Department of Youth Services (ODYS)
- STEM districts

Reporting Staff Members

Please keep these key points in mind when reporting a staff member:

- Staff members must be assigned a unique *Employee ID*.
- The ID assigned to a staff member must be the same used for reporting related records in Staff Records (Section 4.3 Staff Course Record (CU), Section 3.4 Staff Employment Record (CK), Section 3.3 Staff Demographic Record (CI), Section 3.5 Contractor Staff Employment Record (CJ)) and Student Records (Section 2.9 Student Program Record (GQ)).
- When reporting a Staff Demographic Record for a staff member who has a credential issued by ODE, the staff member must be reported with his/her Ohio Credential ID in the State Staff ID element.

Use the following guidelines to determine which staff members must be reported for the October (K) and Yearend (N) reporting periods, and which individuals need not be reported to EMIS. The term “individuals” refers to both certificated/licensed and classified staff members.

October (K) Reporting. Staff data reported during the October (K) reporting period provide a snapshot of the district’s employees during the October count week. The following employees are to be reported by the EMIS reporting entity.

- Individuals employed by the reporting entity as of the district’s October count week.
- Individuals or companies contracted by the school district as of the October count week for duties normally performed by school district personnel (e.g., bus drivers, food service staff, and special education therapists).
- Individuals who were employed during the current school year but who left prior to the October count week.
- Individuals who are on leaves of absence.
- Substitutes who become the “teacher of record.”
- Individuals employed during the previous reporting period, who are no longer employed, including individuals who have resigned over the summer.

Do not report the following individuals to EMIS.

- Individuals employed through supplemental contracts
- Daily (as needed) substitutes
- Student employees
- Board of education members
- Adult education teachers
- Game officials, ticket takers
- Part-time help
- Volunteers serving in the district

Yearend (N) Reporting. The staff records for the Yearend (N) reporting period are identical in format to the staff records for the October (K) reporting period. The difference is that the yearend staff data reflect the status of the staff member as of the end of the school year. Data should be extracted at yearend from personnel and/or payroll systems. The following employees are to be reported by the EMIS reporting entity. The term “individuals” refers to both certificated/licensed and classified staff members.

- Individuals employed by the reporting entity as of the end of the school year.
- Individuals hired after the October count week who left before the end of the school year.
- Individuals who were employed during the current school year but who left prior to the October count week.
- Individuals or companies contracted by the school district as of the end of the school year to perform duties normally performed by school district personnel (e.g., bus drivers, food service staff, and special education therapists).
- Individuals who were reported as part of the October staff data, even if they are no longer employed.

- Individuals employed through supplemental contracts as of the end of the school year, including individuals whose only position is a supplemental contract.

Do not report the following individuals to EMIS.

- Daily (as needed) substitutes
- Student employees
- Board of education members
- Adult education teachers
- Game officials, ticket takers
- Part-time help
- Individuals who left over the summer and were reported as no longer employed during the October (K) reporting period
- Volunteers serving in the district

Reporting Substitute Teachers

Types of Substitutes

1. *Daily (As-Needed) Substitutes*. These are individuals whom the district contacts on an as needed basis who are not on the district's salary schedule but are paid the daily substitute rate. These individuals are not reported through EMIS.
2. *Full-time Substitute Teachers (Permanent)*. Individuals hired as full-time (permanent) substitute teachers should be reported with position code "225".

Staff assigned this position code meet the following criteria.

- Have a contract with the district; AND
- Are placed on the district salary schedule; AND
- Report to the district for work daily

Teaching assignments for individuals assigned to this position code are subject to change daily. An individual in this position is never the teacher of record, but has a variety of assignments based upon the needs of the district. No Staff Course Record should be reported for full-time (permanent) substitute teachers, because they cannot be the teachers of record. If a substitute becomes the teacher of record, then his/her position code should reflect the new assignment and he/she should have the proper certification/licensure for the position he/she is hired to fill. A position code of "225" cannot be used as a teacher of record.

Individuals assigned a position code of "225" are not counted in the teacher FTE, but may be included in data analysis and in calculating total costs.

Substitute Becoming Teacher of Record. Districts should use their discretion in determining when a substitute teacher becomes a teacher of record. As a general guideline, the teacher of record is the individual, with a regular teaching assignment, who is responsible for assigning the grade to the student. The teacher of record is to have a Staff Course Record reported by the district.

Once a substitute is determined to be the teacher of record, he/she should be coded with a regular teaching assignment. He/she is required to have the proper credentials to teach the particular subject for which he/she has been designated teacher of record.

Note. A Staff Course reported for a teacher of record without the proper credentials is subject to the usual consequences for funding and certification.

Reporting Contracted Staff

The term “contract” refers to an agreement with another entity or individual to provide services. The nature of the contract may range from a formal written document to a general agreement between district leaders. The term “contractor” refers to the entity with which the resident/educating district is contracting. A contractor may be an ESC, another school district, or a non-EMIS reporting entity. The term “contracting district” refers to the resident/educating district contracting for the service.

The EMIS reporting entity where the staff member is employed is responsible for reporting staff data. A Staff Demographic Record, Staff Employment Record, and in some cases a Contractor Staff Employment Record, are required to be reported by the employing entity. In most contracting situations, the Staff Course and Course Master Record is only reported by the resident/educating district contracting for staff to teach a course. In cases where the ESC ~~provides preschool special education instruction or is allocated a preschool special education teacher center based unit or~~ receives state funds for an Early Childhood Education Program, the ESC is still required to report a Staff Course and Course Master record for these preschool teachers.

The following are general reporting guidelines for contracting situations. For reporting instructions regarding specific situations, please see Section 3.2 Reporting Contracted Staff.

Resident/Educating District Contracts with a Non-EMIS Reporting Entity. If the resident/educating district contracts with an individual or entity that does not report through EMIS, then the resident/educating district is responsible for reporting all staff information for the contracted staff member. This will include a Contract Only Record or a Staff Demographic Record, Staff Employment Record, and if applicable, a Staff Course and Course Master Record. No Contractor Staff Employment Record is reported by the resident/educating district. See Section 3.2 Reporting Contracted Staff, for additional information. In this situation, the resident/contracting entity is responsible for reporting all student information.

Common contracting situations that follow this guideline include, but are not limited to, the following.

- Resident/educating district or ESC is allocated state funds for an Early Childhood Education program and is contracting with an agency such as a Head Start Agency or a Community Action Organization for a staff member to provide instruction to preschool students. The instruction may take place either at the resident/educating district or at another entity.
- Resident/educating district is contracting with a national agency/organization/association or hospital for a staff member to provide special education services to students with disabilities.

Resident/Educating District Contracts to Teach Courses or Provide Services to Students. The resident/educating district contracting with an ESC (or another EMIS reporting entity) for a staff member to teach a course or provide services does not report a Staff Demographic, Staff Employment, or Contactor Staff Employment Record. However, the resident/educating district is required to report the applicable Staff Course and Course Master Record(s) and/or Student Program Record with the *Employee ID Element* and the *Provider IRN Element* completed. If the staff member is teaching a course, the staff member is reported with his/her Ohio Credential ID in the *Employee ID Element*. The resident/educating district is responsible for reporting all student data (i.e., Student Course Record, Student Program Record, etc.).

In this situation, it is the responsibility of the contractor (the entity where the staff member is employed such as an ESC) to report a Staff Demographic Record, Staff Employment Record, and a Contractor Staff Employment Record for each staff member contracted out (teaching a course) to the resident/educating district. With the exception of preschool courses, in this situation the contracting entity does not report any student data.

This includes teaching position code 230 with assignment areas 999365, 999370, 999380, 999412, 999414, and 999800 and instructional paraprofessionals with a position code of 415 which are contracted. In addition, this also applies to gifted coordinators.

Common contracting situations that follow this general guideline include, but are not limited to the following. For reporting instructions regarding specific situations, please see Section 3.2 Reporting Contracted Staff.

- Virtual School (or resident/educating district) contracts with a Virtual School to teach online courses.
- Resident/educating district ~~is allocated a preschool special education related service unit and~~ contracts with an ESC or another EMIS reporting entity for a staff member to provide the special education service. Eligible position codes for preschool contracted related service staff are listed below. No course master is required to be reported for staff members with these position codes.
 - 304 Audiologist
 - 318 Psychologist
 - 325 Physical Therapist
 - 326 Speech and Language Therapist
 - 327 Occupational Therapist
 - 328 Orientation and Mobility Therapist
 - 333 Adapted Physical Education Therapist
- ~~Note that this only applies to preschool special education related service units. A Contractor Staff Employment Record will almost never be reported for a center based teacher.~~
- Resident/educating district receives funding for an Early Childhood Education program (formerly state-funded Public Preschool program) and contracts (or subcontracts) with an ESC or another EMIS reporting entity for a staff member to teach preschool.
- Resident/educating district contracts with an ESC or EMIS reporting entity for staff to provide instruction to students in an alternative school setting.

- Resident/educating district contracts with an ESC or another EMIS reporting entity for a staff member to teach an art, music, or PE course to students in grades K-8. In this case, the resident/educating district counts this staff member towards Educational Service Personnel Requirements (ESP). It is the responsibility of the resident/educating district to report a Staff Course and Course Master Record for these ESP teachers.
 - *ESP Teaching Position Code.* Use position code 230 with one of the following assignment areas: 999050 Art Education K-8, 999570 Music Education K-8, and 999418 Physical Education K-8.
- Resident/educating district contracts with an ESC or another EMIS reporting entity for educational service personnel (other than the teaching positions of music, art and PE) to meet their ESP ratio requirement. In this case, it is the responsibility of the contractor to report a Staff Demographic Record, Staff Employment Record, and Staff Contractor Employment Record.
 - **ESP Position Codes (other than music, art, and PE teachers)**
 - 202 Counselor
 - 203 Library/Media Specialist
 - 320 Registered Nurse
 - 323 Social Worker
 - 330 Visiting Teacher

Resident/Educating District Contracts for Classified Staff. A contracted classified staff member (i.e., bus drivers, food service personnel, etc.) is required to be reported to EMIS. For reporting instructions regarding specific situations, see Section 3.2 Reporting Contracted Staff.

Contract Career-Tech Staff. The district employing the contract career-tech staff member is responsible for reporting the Staff Demographic, Employment, Staff Course, Course Master, and CTE Correlated Class Records. For reporting instructions regarding specific situations, see Section 3.2 Reporting Contracted Staff.

Other “Contracting” Situations. In situations where an ESC is providing preschool special education instruction~~allocated a preschool special education teacher/related service unit~~ or the ESC is allocated state funds for an Early Childhood Education program (formerly Public Preschool), the ESC is responsible for reporting a Staff Demographic, a Staff Employment, Staff Course, and a Course Master Record. In addition, Student Demographic, Student Attendance, the applicable Student Program, and Student Course Records are also required to be submitted by the ESC.

In these situations there may or may not be a contract between the ESC and the resident/educating district to provide these services or teach a course because the payment for these services comes through ODE ~~(either in the form of an Early Childhood Education grant or an allocated preschool special education unit)~~. Because the ESC is in direct receipt of funds from ODE specifically for these preschool services, the ESC is required to report both staff and student data. This situation does not fall under the general reporting guidelines mentioned in #2. The resident/educating district is still required to report students with disabilities in this situation with the applicable program codes. For reporting instructions regarding specific situations, see Section 3.2 Reporting Contracted Staff.

STAFF-LEVEL RECORDS

There are six different records containing staff data that may need to be submitted to ODE. Below is a list of each record, its name and record number. Data elements for each of these records are found in the following sections of Staff Records.

Record Number	Record Name
CI	Staff Demographic Record
CK	Staff Employment Record
CJ	Contractor Staff Employment Record
CC	Contract Only Staff Record
CL	Staff Summer Employment Separation Record
CP	Staff Missing Override Record

District IRN Element

Each staff record is submitted with a *District IRN Element*. Basically, this is the IRN of the reporting district/entity. Below is the definition and field number of the *District IRN Element*.

District IRN Element

Record Field Number	XX040
Definition	The state assigned six-digit information retrieval number (IRN) for the district.

Valid Options

Six-digit code Valid school district IRN

The *District IRN Element* is found on each of the seven staff records submitted to ODE. Although this element is not defined on each staff section of the Staff Record, the file layout does list this element on each staff record.

Generally, software packages will automatically populate this field based on the IRN of the reporting entity. If a different district IRN is required to be reported (in addition to the *District IRN Element*), there will be another field on the record named something other than *District IRN Element*. The additional field will be found with the rest of the records elements. For example, the CJ record contains an element called *Contracting District IRN Element*. This element is to be populated with a district IRN, but the definition of the *Contracting District IRN Element* is different from that of the *District IRN Element*. See the Contractor Staff Employment Record for more information regarding the *Contracting District IRN Element*.
