5.4 DISTRICT TESTING–YEAREND (DT) RECORD

Required Reporting Periods

The District Testing–Yearend (DT) Record is ~~to be reported for the Yearend (N) reporting period during the Traditional Districts Final Student (S) Collection and the Community/STEM Schools Final Student (S) Collection.~~

General Guidelines

A District Testing (DT) Record must be reported to collect headcount information on district-wide assessments beyond those required by the state. This will be reported during the ~~June (N) reporting period~~ Final Student (S) Collections for each city, exempted village, and local school district as well as each community school and the Ohio Department of Youth Services (ODYS).

Report one record per test per grade level if a test is given to an entire grade level in the district. This only applies to non-state tests. If the only tests that the district administers to all students in grades K-12, or to all students in particular grade levels, are state tests—for example, Ohio’s Achievement and Graduation Tests, ~~the KRA-L~~, or the Ohio Test of English Language Acquisition (OTELA), then report a single record with “NT” in the grade level field and a Local Assessment Number of the district’s choice.

If a test was required for students in one grade level, but was optional for students in another grade level, then only report a record for the required grade level. For example, if the district requires all fourth graders to take the Otis Lennon, yet permits students who enter the district at a later grade to take the Otis Lennon as part of the gifted identification process, then the district would only enter a record for the “04” grade level and would only include students in grade 4 in the headcount fields.
