Subject: FY22 22-28 Data Science Foundations

Hi,

I support this change because having correct EMIS documentation with subject codes and aligning with the Educator Profile CORE certification data is important. The more the EMIS Manual has correct subject codes, subject areas for CORE, subject areas of credit, and subject areas for CTE reporting and clear instructions and guidance, the easier it is for consumers of the documentation and EMIS systems to use, code and review related data and reports.
