**Subject:** Change 22-4 Remove GY

Our Cosmetology students take their 12 pnt. credential test after school is over their Sr. year. Since we will not be able to report this credential in the March follow up, does that mean this program will never show students with a credential? How will this affect other credential reporting that takes place the summer after graduation?

(We are a JVS and do not have a G reporting prd.)

**Subject:** RE: Change 22-4 Remove GY

You will still have the ability to report industry credentials (GW records) during March D, such as the cosmetology license. This proposed change will only eliminate the CTE Webxam assessments (GY records) reporting from March D. I hope this helps to clarify.

Thank you for your feedback and interest in EMIS. The data that districts and community schools report to the Ohio Department of Education play a critical role in shaping students' opportunities.

Change 22-4 indicates that the GY record will no longer be reported in Period D, but it can be reported in period G. However, JVS districts don't report in period G and the GY records are to be reported by the

district that is providing the CTE program. Will the home district be allowed to report the GY records in period G if they were missed by the JVS?

Thank you for your feedback about the reporting of GY records in March D. Your feedback has been provided to the Office of CTE for their consideration and awareness. CTE has indicated that Tech skill now uses only students who were concentrators in the reporting year. It includes assessments taken and reported in the year, as well as any aligned assessments from the prior year. As such, we encourage districts to focus first and foremost on the CTE assessment reporting for the current year for the greatest impact.

Thank you,
