Subject: FY22 Gifted data change 22-74

Hi,

I support the proposed gifted data change to collect gifted data earlier in the school year. This will encourage student software vendors and district personnel to collect, code and report the data to ODE as it occurs rather than waiting until the late spring to code data that occurred throughout the school year. Moving toward more real-time data reporting is a positive thing.

Thanks,

From: EDU EMISPublicComments <EMISPublicComments@education.ohio.gov>

Subject: EMIS Change #22-74, Public Comment

Will the testing dates change due to reporting Gifted at beginning year?

Good morning,

Thank you for your interest in EMIS and public comment regarding EMIS change #22-74. The purpose of this change is to start collecting existing gifted data in EMIS a few months earlier than in previous years so that it can be used for school funding, per Ohio House Bill 110. It does not change any other reporting or programmatic requirements currently in place regarding gifted education.

Please let us know if you have any additional questions.

Thank you,

Office of Data Quality & Governance
