

EMIS Release Notes- Updated Manifest

Collection Request Name: October (K) FY13 Reporting Period

Description of Change: Add support for the County of Residence on the FS record; Create a new record type (CD) based on the FS and FD records for a student as of October 5; add basic option and combination level 1 validation checks on the new CD record type.

Planned Availability Date: 12/13/2012

Version Number: 2

Updated Version Requires:

- **Starting a new/restarting the current collection of data? Yes**
- **Running a new prepare of the collected data? N/A**
- **Replacing any data already submitted to ODE with a new submission? Yes**

“Updated Version Requires” Additional Information: Because this update adds a column to the collected FS Student Standing record, any data set in progress (already collected and/or prepared but not submitted to ODE) must be re-started with a new data collection. All EMIS reporting entities must submit with version 2 or higher no later than December 21.

New or Updated Level 1 Validation:

Error #	Description of Change
Various CD errors	All added CD errors in this version are copies of option or valid combination errors also generated on the source FS and FD records for the same student. For example, a student with a CD.0015 error will also have a FS.0015 error- both errors indicate the same data problem, but the CD error has been added to inform the user that the unresolved FS error is impacting the counting of that student for the Casino Distribution count. Not all FS errors have this impact, so the CD errors will be a subset of the FS errors with the exception of any invalid values for Grade or Disability, which will have matching errors on the FD record.
