

Where Kids Count/Full Academic Year Main Logic

Overview: Each student record is initially assigned a WKC IRN, which is modified by subsequent adjustments. The first adjustment that matches the student's data is processed and any remaining adjustments are ignored.

WKC Assignment:

When both the Majority of Attendance IRN and the Accountable IRN contain building IRNs with different values, the Accountable IRN value will be used to populate the WKC IRN. For all other conditions, Majority of Attendance IRN will be used to populate the WKC IRN.

WKC Adjustments:

1. If the student is of Limited English Proficiency and was enrolled in US Schools for the first time on or after the first day of the current school year, then the WKC IRN is assigned the State IRN and WKC TYPE is assigned the value '12'.
2. If the student participated in an Autism Scholarship, then the WKC IRN is assigned the State IRN and WKC Type is assigned the value '11'.
3. If the WKC IRN assigned in Step 1 does not represent the State IRN and the student's attending home status is '1B' or their attending home status is between '22' and '26' and student status is 'B', the WKC IRN is assigned the Attending Home IRN and WKC TYPE is assigned the value '10'.
4. If student's attending home status is '1P' or '1T' or their attending home status is between '22' and '26' and the student status is a 'P' or 'T', then the WKC IRN is assigned the State IRN and WKC TYPE is assigned the value '05'.
5. If the WKC IRN assigned in Step 1 is a building and both Majority of Attendance IRN and Accountable IRN contain the same building IRN, WKC IRN remains as assigned in Step 1 and WKC TYPE is assigned the value '01'.
6. If the WKC IRN assigned in Step 1 is a building but Majority of Attendance IRN and Accountable do not contain the same building IRN, WKC IRN remains as assigned in Step 1 and WKC TYPE is assigned the value '02'.
7. If the WKC IRN assigned in Step 1 is a district, WKC IRN remains as assigned in Step 1 and WKC TYPE is assigned the value '03'.
8. If the WKC IRN assigned in Step 1 is the state, WKC IRN remains as assigned in Step 1 and WKC TYPE is assigned the value '04'.

WKC_TYPE Code Explanations

WKC Type Code	Meaning	WKC Level
01	Student is enrolled in one building within a district for a full academic year.	Student counts at the building where the full academic year criterion is met, AND counts at the district, and state levels, for the % proficient, performance index, and attendance rate calculations.
02	Student is enrolled in one building within a district for a full academic year, AND the district has determined that the student should be included in another building within the reporting district for accountability purposes.	Student counts at the building level in the building indicated in the "Accountability IRN" by the educating entity, AND counts at the district, and state levels, for the % proficient, performance index, and attendance rate calculations.
03	Student is enrolled in the district, but not in one building within the district, for a full academic year.	Student counts at the district level and the state level for the % proficient, performance index, and attendance rate calculations.
04	Student is NOT enrolled in either a building or a district for a full academic year.	Student counts at the state level for the % proficient, performance index, and attendance rate calculations.
05	Student is placed into an institution either via a court-placement or a parent-placement.	Student counts at the state level for the % proficient, performance index, and attendance rate calculations. The student will count at the educating district for participation rate.
10	Student participates in a special education cooperative program in another district; and is in the educating district for a full academic year.	Student counts in the district designated in the attending/home IRN element (reported by the educating district) for the % proficient, performance index, and attendance rate calculations. The student will count at the educating district for participation rate.
11	Student Participates in the Autism Scholarship	Student counts in the state level calculations, if student has attendance or takes a statewide test in a public district.
12	LEP student in US schools for the first time on or after the first day of the current school year. Student exempt from % Proficient, Participation Rate and Performance Index calculations	State level calculations: % proficient, Performance Index, and Participation rate
