The definition for Extended Learning Time Instruction is "Any method of program-sponsored (including schoolwide program) service instructional delivery that extends the total hours of a school day, week, or regular approach term beyond that which would otherwise be available for learning. This category would include early-morning and after-school programs; evening programs and other programs that extend the time for learning outside of the traditional "9:00-3:00" school day; programs that alter the school schedule to accommodate migratory student schedules; Saturday programs; extended-time kindergarten, and summer school, methods that substitute one type of learning time for another within the traditional school day, such as pull-out or in-class tutoring, are not considered extended-time instructional approaches .

For the following two items, a "site" refers to any location that a Extended Learning Time Instruction program is held, other than a building within the district.

**For example:** a site can be a YMCA, or Parks and Recreation site. Because buildings can indicate on the Building record whether or not an Extended Learning Time Instruction Program is housed within their building, in this element do **not** include buildings owned by the school district. Only include sites housed at locations that are NOT district buildings.

#### **4.1.3.2 Participation Eligibility:**

It is **OPTIONAL** for the district to report this information. For those districts that have an adopted policy indicating the amount of time a student must be attending the district in order to participate in extra curricular activities in the district, this element can be used to report the FTE equivalent necessary for participation. For example if the district policy indicates the student must be receiving services for 0.25 of FTE in order to participate, then 0.25 will be reported in this element. This element will then be used to calculate eligibility criteria.

#### **4.1.3.3 Birthdate Deadline for Kindergarten Entrance /Choices on Kindergarten Entrance Date (H.B. 383)**

##### **4.1.4.3 Funding Count Week**

By law, districts must report the Average Daily Membership (ADM) counts during the first five-day school week in October. A school building must be open all five days to receive full credit for all students reported during the period. For most schools in FY04 that would be the week of Oct. 6, 2003. If a building is not in session for one or more days during the week of Oct. 6, but wants to receive full credit for all students reported, the Superintendent/chief school administrator or a designee may request a waiver from ODE. **Districts must submit waiver requests by Oct. 6, 2003.** The waiver request

should indicate the first week that the building is in session for five days after the official October Count week.

If the district does not request a waiver before the Oct. 6 deadline, the Department will use the official October Count week for the district's ADM count. The waiver request will be used to apply for an exemption for the Count Week identified and the EMIS enrollment information deadline of Oct. 15. Enrollment information for the approved week must be entered into EMIS within one week after the end of the week approved on the waiver. The waiver request form is available at:

[http://www.ode.state.oh.us/school\\_finance/forms/finance\\_forms/Wavier2.pdf](http://www.ode.state.oh.us/school_finance/forms/finance_forms/Wavier2.pdf).

**4.1.5.2 Family Literacy Services**

Is your Title I (Part A)-funded district providing "family literacy services" as defined by the U. S. Department of Education?

VALID OPTIONS

- \*- Not applicable
- Y-Yes
- N- No

To answer “Yes,” the Title I (Part A)-funded district must be providing family literacy services with all elements of the definition present. All of the components need to be present within a district, though they may or may not all be contained within the same building, and could be spread throughout several buildings.

Family Literacy Services are **NOT** required by Title I, but are highly recommended. Parent /Family Involvement (which includes programs and activities to involve parents and families in the education of their children) **IS** required by Title I but is **NOT** reported here.

The U.S. Department of Education defines family literacy services as services that are of sufficient **intensity** in terms of hours, and of sufficient **duration**, to make sustainable changes in a family and that integrate all of the following activities:

**1) Parent and Child Together Time (PACT)**-Interactive literacy activities between parents and their children.

**2) Parent Education** -Training for parents regarding how to be the primary teacher for their children and full partners in the education of their children.

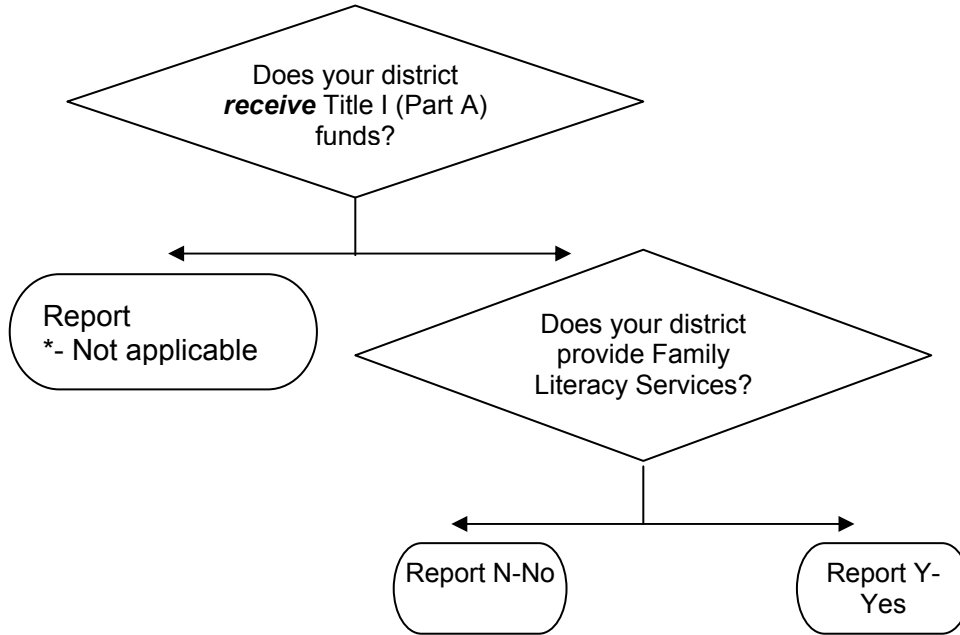

**3) Adult Education** -Parent literacy training that leads to economic self-sufficiency.

**4) Early Childhood Education** -An age-appropriate education to prepare children for success in school and life experiences.

The four integrated components of this type of comprehensive program are provided through collaborative partnerships among community agencies and programs already in existence. That is, these programs are built upon communities' resources. As a consequence, no two family literacy programs look alike but are unique based upon each community's needs and resources.

**NOTE:** Title I (Part A) is the Title I Basic Program which does NOT include Part B-Even Start; Part C-Migrant Education; or Part D-Delinquent/Neglected.

### "Family Literacy Services" Decision Tree

#### 4.1.5.3 Number of Extended Learning Time Instruction Program "Sites"

**The definition for Extended Learning Time Instruction is** "Any method of program-sponsored (including schoolwide program) service instructional delivery that extends the total hours of a school day, week, or regular approach term beyond that which would otherwise be available for learning. This category would include early-morning and after-school programs; evening programs and other programs that extend the time for learning outside of the traditional "9:00-3:00" school day; programs that alter the school schedule to accommodate migratory student schedules; Saturday programs; extended-time kindergarten, and summer school, methods that substitute one type of learning time for another within the traditional school day, such as pull-out or in-class tutoring, are not considered extended-time instructional approaches .

For the following two items, a "site" refers to any location that a Extended Learning Time Instruction program is held, other than a building within the district.

**For example:** a site can be a YMCA, or Parks and Recreation site. Because buildings can indicate on the Building record whether or not an Extended Learning Time Instruction Program is housed within their building, in this element do **not** include buildings owned by the school district. Only include sites housed at locations that are NOT district buildings.

NOTES: The following proration procedures will be used when prorations are necessary for Operational Unit and/or Subject Code for 100 and 200 within a specific Fund/Function/SCC combination.

Object codes 112-119, 120, 130, 210 and 240 - Same proportion as 111 & 113

Object codes 142-149, 150, 160, 220 and 250 - Same proportion as 141 & 143

Object codes 190, 230, 260, 270, 280, and 290 - Same proportion as the sum of the 111, 113, 141, and 143 object codes.

All other prorations will be calculated using the district's ADM.

If districts choose to use more detail in a particular dimension of the coding system than is required, this detail must be used throughout that dimension or the proration routines

used by the Department will be inaccurate. For example, if the instruction level (I) is used to code expenditures for supplies from the General Fund, Function 1100, Object 510, and the instructional level must be used for all supplies within that function area.

When OPU is required, but not feasible, use the district-wide/undistributed OPU. When OPU is not required and not reported, the district-wide/undistributed OPU will be assumed.

**4.2.2 FIVE YEAR FORECAST**

The Five Year Forecast is a financial projection required by Sub. H.B 412. For details or assistance in preparing the forecast contact the State Auditors Office or the Office of

School Finance. The Auditors Office maintains a web site with the latest HB 412 information at: Auditor's HB 412 Information.

A five-year forecast is required of all city, local, exempted village, and joint vocational school districts (see Section 5705.391 of the Revised Code and 3301-92-04 of the Ohio Administrative Code). The five-year forecast consists of three years of historical data, projections for the current year and four ensuing years, and a summary of key assumptions.

The initial five-year forecast must be submitted through EMIS by October 31<sup>st</sup> of each year (reporting period P). Districts are also required to submit an updated forecast through EMIS between April 1<sup>st</sup> and May 31<sup>st</sup> of each year. Both the five-year projections and the forecast notes must be successfully submitted to EMIS in order to meet these statutory requirements.

The remainder of this section describes the fields required on the Five Year Forecast.

See (desc\_forecast\_rec) for the detailed record layout.
