

Chapter 5 - Rules for School District Data Formatting

5.1 General Data Characteristics

File Descriptions

This chapter presents the file descriptions for each of the EMIS data files to be transferred to the designated data acquisition site. Each file description includes:

the data elements,
their characteristics,
field number,
position in the file,
field size, and
most field values.

Also included are file descriptions to be used for field validations, as provided by the Ohio Department of Education.

These file descriptions will be used by individuals responsible for formatting the school district data. Persons responsible for this task may be a vendor, district personnel, designated data acquisition site staff, or the Ohio Department of Education staff involved in the creation or use of the EMIS data.

Picture Clause Symbols:

SYMBOL	MEANING
X	Alphanumeric field
A	Alphabetic field
9	Numeric field
V	Indicates position of assumed decimal point; used only in numeric fields, does not count toward data item size.
S	Operational sign. Used only in numeric fields. All signed number fields must use a trailing separate character.

Formatting Rules and Notes:

Unless otherwise stated, **alphanumeric fields** must be left justified and filled with trailing spaces.

Numeric fields must be right justified and filled with leading zeroes.

All signed numeric fields must contain a trailing separate sign character. The sign character immediately follows the numeric digits. The sign character must be either a "+" or "-" (ASCII values 44 and 46 respectively). For example, the picture S9(9)V99(s) represents 11 numeric digits followed by a sign field. This field would have a total size of 12 bytes.

For **date fields**, CCYYMMDD represents the required format for the date. For example, the value for May 2, 2004 is 20040502.

For **time fields** (shown as HHMM or HHMMMP) enter the hours, minutes and "A" for A.M. or "P" for P.M. For example, 8:00 in the morning is entered as 0800A; 6:00 in the evening is 0600P.

A field format of Y/N indicates that the field is entered as either "Y" or "N."

Areas defined as **"Filler"** are blank areas to pad records to an appropriate size. These areas should be left blank (filled with spaces) and are reserved for use in the future.

Employee Name format (element on the Staff-Demographics file): Last name and appendage (if any) followed by a comma (,); then first and middle name or initial. Maiden name may also be specified in place of the middle name. The following are examples of valid formats for this element:

Smith, John E

Smith Sr., Mark A

Jones, Susan

Leaving Fields Unspecified

A record may have some fields unspecified. The software used at the data collection site will be capable of ignoring certain fields. If a field is filled entirely with commercial at-signs (@), the field will be ignored and will not be loaded into the district's EMIS database.

This might be useful if the software system producing the record does not contain sufficient information to complete the entire record. In this case, the software system producing the detail record should fill all unknown fields with "@".

Note: This does not imply that the data is optional. The fields will be provided from another source.

For example, a student attendance system may not contain information about in-school suspensions that is contained in a student discipline tracking system. The attendance system could produce a detail EMIS attendance record with the attendance and absence fields completed and the In-school Suspension field filled with at-signs (@). The discipline tracking system would likewise produce a record with in-school suspension fields completed and attendance fields filled with at-signs.

When these two files are loaded into the designated data acquisition site's computer system, the fields containing at-signs will be ignored. Records with matching key values will be merged into a single record.

To work properly, the "key" fields for each record type must be specified. The "key" fields are ones that can be used to uniquely identify each record. These fields are identified in the table below. For example, the student ID must (not) contain at-signs. Furthermore, the key fields from the various systems producing EMIS files must use the same values to identify records. In the above example, the attendance system and discipline tracking system must use matching student IDs to identify students.

EMIS Identifying Fields

The following table contains fields for each record type that are considered "key" fields. Key fields are those that can be used to uniquely identify each record. These fields are the minimum numbers of fields that must be specified for the record to be considered valid. These fields cannot contain at-signs (@).

Note: This table does not imply that the data are optional for EMIS reporting. It is expected that the data will be supplied from another source.

The State Student ID (SSID) is only required in the Student Demographic Record and the Student Proficiency-Only Record (the SSID is only optional for this record if the student completed high school courses prior to June 30, 2003). All other student ID's are those supplied by the local student management software and will be replaced with the State Student ID during the aggregation process at the Data Acquisition Site. In the file layouts these other student ID's are called EMIS Student IDs. This element is the district-determined number used by districts for student tracking.

For student, staff and financial records, the first 31, 22 and 35 positions respectively of each record are always required. The fields listed in the table below are in addition to the preliminary parts of each record.

TERMS USED:

Sort Type identifies the record type. Such as Staff Demo (CI), Staff Job (CK), Program (GQ), Gifted (GG), etc. It is 2 characters in length. The sort type is critical and basically determines which type of data the record is for. The EMIS loading programs will use this to determine which file the records are to be loaded. For example, a GI record will be loaded into the Student Demographic record and the GI record layout is assumed for all of the fields being loaded.

The **record format indicator** is what is used to distinguish between versions of the file layouts. Every time a new field is added to the specific layout the record format indicator should be advanced to the next letter. This is how the State Software Development Team loading programs maintain a backwards compatibility with earlier file layouts.

5.1.1 BATCH HEADER & TRAILER RECORDS

Each file (batch) that is transmitted to a designated data acquisition site must contain a header and trailer record. These records assist the designated data acquisition site to identify the reporting district and to ensure the batch is complete and valid.

Batch Header Record - Sort Type "H" (space H)

Number	Position	Name	Pic/Size
H001	1-7	Record Number	PIC 9(7)
H005	8	Record Status	PIC X
		A-Add/Update	
H010	9-10	Sort Type	PIC X(2)
		"H" Header record (space followed by H)	
H015	11	Record Format Indicator	PIC X
		"G" to indicate Format G	
H020	12-15	Fiscal Year e.g. 2004(CCYY)	PIC X(4)
H030	16	Report Period	PIC X
		A - All	
H040	17-22	District IRN	PIC X(6)
H050	23-30	File date (The date that this batch of records was prepared, formatted as CCYYMMDD)	PIC 9(8)
H060	31-36	File Time (The time that this batch of records was prepared, formatted as HHMMSS)	PIC 9(6)
	37-56	FILLER (reserved by ODE)	PIC X(20)
	57-96	User/Vendor Defined Area (Optional) This area may be used by the producer of the file to include other information about the file. This field should contain only printable characters.	PIC X(40)
	97-300	Filler	PIC X(204)

NOTE: The FILLER size at the end of the record depends on the record size of the records included in the batch. The size of the header record must match the size of the records being reported in the batch.

Batch Trailer Record - Sort Type " T" (space T)

Number	Position	Name	Pic/Size
T001	1-7	Record Number	PIC 9(7)
T005	8	Record Status	PIC X
		A-Add/update	
T010	9-10	Sort Type	PIC X(2)
		"T" Header record (space followed by T)	
T015	11	Record Format Indicator	PIC X
		"G" to indicate Format G	
T020	12-15	Fiscal Year e.g. 2004(CCYY)	PIC X(4)
T030	16	Reporting Period	PIC X
		A-All	
T040	17-22	District IRN	PIC X(6)
T050	23-30	File date	PIC 9(8)
		The date that this batch of records was prepared, formatted as CCYYMMDD	
T060	31-36	File time	PIC 9(6)
		The time that this batch of records was prepared, formatted to HHMMSS	
T070	37-43	Record Count	PIC 9(7)
		The number of records in this batch including the header and trailer records.	
T080	44-50	Checksum of record numbers	PIC 9(7)
		This field should contain an arithmetic total of all the record numbers (position 1-7) in this batch, including the Header and Trailer records. Truncated on left to 7 digits.	
T090	51-56	Checksum of IRNs	PIC 9(6)
		This field should contain an arithmetic total of all IRNs in positions 17-22 from each record in this file, including header and trailer records. IRNs in positions other than 17-22 should not be included. Truncated on left to 6 digits.	

Number	Position	Name	Pic/Size
	57-96	User/Vendor Defined Area (Optional)	PIC X(40)
		This area may be used by the producer of the file to include other information about the file. This field should contain only printable characters. Note that the value of this field does not have to match that of the header record.	
	97-300	FILLER	PIC X(204)

NOTE: The FILLER size at the end of the record depends on the record size of the records included in the batch. The size of the trailer record must match the size of the records being reported in the batch.

5.1.6 STUDENT TESTING Records

5.1.6.1 Student Proficiency Testing

The Fourth-, Sixth-, and Ninth-Grade Proficiency Tests are reported by any district for all students enrolled during any test administration (October or March) during the current school year **AND** by the district in which the student was most recently enrolled during the current school year. (In most cases this will be the district in which the student is enrolled in June.)

The reporting district(s) must submit a separate proficiency record per student, per test date, per test subject, for tested grade levels.

This record should also be used to report test results in the FY04 Yearend reporting period for those students that take the ninth grade proficiency test during the summer of 2003. (Results for students who have completed course requirements and are no longer enrolled in the district should continue to be reported in the Student Proficiency-Only Test Record.)

5.1.6.3 STUDENT DIAGNOSTIC TESTING (WILL NOT BE USED FOR FY2004)

5.1.6.4 STUDENT ACHIEVEMENT TESTING

The Third-Grade Reading Achievement Test is reported by any district for all students enrolled during any test administration (October or March) during the current school year **AND** by the district in which the student was most recently enrolled during the current school year. (In most cases this will be the district in which the student is enrolled in June.)

The reporting district(s) must submit a separate achievement record per student, per test date, per test subject, for tested grade levels.

NOTES: For FY04, if a district is unable to report multiple test dates, the district may report the date with the highest score. For FY04, only Third Grade Reading should be reported, as this it is the only achievement test being administered that will be reported on this record.

5.1.12 Early Childhood Record

Each district must report one record per preschool student (ages 3-5) enrolled in state-funded public preschool and/or state and federally funded Preschool Special Education. ONLY the educating district submits this record for a student. (If a student is served 50% in one district, and 50% in another, then both report the record for the time that student is educated in that entity.

5.3 DISTRICT/BUILDING FILES

District Records (October and Yearend) must be reported for all city, exempted village and local school districts as well as all community schools, Educational Service Centers (ESCs), Joint Vocational School Districts (JVSDs), and the Department of Youth Services (DYS).

Building Records (October and Yearend) must be reported for all buildings within the same entities identified for district records and the Building IRN should be that of the individual building (in some cases such as ESCs and community schools, the Building and District IRN will be the same).

District and Building Records for Summer School are only reported if summer school was offered by the district and building.
