

Data to be Reported on the 2020 Ohio School Report Cards

Ohio's ordered school-building closure and subsequent emergency legislation (House Bill 197 of the 133rd General Assembly) have substantial impacts on the state's accountability system and Ohio School Report Cards for the 2019-2020 school year. Ohio School Report Cards, Dropout Prevention and Recovery Report Cards and Career-Technical Planning District Report Cards all contain multiple measures that use assessment data that will not be available or may be substantially limited this year.

There will be no grades assigned or rankings issued. The tables below outline the data that will be reported publicly for **informational and planning purposes only**. The data will not factor into any graded measures or components. Measures primarily based on the spring state tests will not have data available this year. However, some measures are based on lagged (prior year) data and will be available as noted below.
