

## 2016-2017 Reporting on Extracurricular Activities

Beginning with the 2014-2015 school year and continuing thereafter, Ohio's school and district report cards will include information about the number of extracurricular activities offered to students. These data do not receive a letter grade, but rather are designed to offer parents and the public some additional information about the range of activities offered by their district or school.

Most districts offer a variety of different programs and students may participate in just one activity or they may participate in many. At the end of each school year, districts report a list of the activities in which each student has participated during the school year. These data are reported on a student-by-student basis and districts have the opportunity to report multiple program codes for each student.

The table below shows the list of activities that can be reported. Extracurricular Activities offered by the district will be identified based on data reported by the district via the Student Program Record (GQ) in EMIS. For the purpose of display on the report cards, a program will be included on a district's or school's list of activities offered only in cases where one or more students are reported as having participated in that activity.
