

## Update to 2019-2020 Report Card Information

The U.S. Department of Education has provided states the ability to seek one-year waivers from the Every Student Succeeds Act's (ESSA) testing and accountability requirements. The Ohio General Assembly subsequently passed emergency legislation canceling the spring administration of Ohio's State Tests and waiving report card requirements other than reporting of some limited, available data. The legislation also put in place a "Safe Harbor" period for many elements of the accountability system. Accordingly, the Ohio Department of Education sought and received a federal ESSA waiver for the 2019-2020 school year.

This technical document details how the measure or calculation works in a typical school year. Ohio School Report Cards, Dropout Prevention and Recovery report cards and Career-Technical Planning District report cards all have multiple measures that use assessment data that are not available or are substantially limited this year.

Please visit the [Report Card FAQ](#) website for more information about data availability for the 2019-2020 report cards.

IB Score	-	Reported	Reported	Reported	Reported	Reported

\*High mobility value added receives an A-F letter grade reported on the Progress page, but it is not included in the Progress Component Grade calculation.

\*\*High school value added was reported as a separate element in 2015. In 2016 and beyond it is incorporated into the other four value-added measures, but is disaggregated on the report cards (where applicable) to show the gains of these students.
