Clearly Defined Behavior

The specific action the child will be expected to perform

Based on one specific skill

Do not blend skills, such as listening and responding in one goal

AVOID broad terms

Criteria Used to Evaluate Performance

IEP Individualized Education Program CHILD'S NAME:

6 MEASURABLE ANNUAL GOALS

NUMBER: 1 AREA:

PRESENT LEVEL OF ACADEMIC ACHIEVEMENT AND FUNCTIONAL PERFORMANCE

Currently when provided with a verbal prompt, Donna is able to walk two steps independently in 2 out of 5 trials.

MEASURABLE ANNUAL GOAL

When provided with a verbal prompt, Donna will walk ten steps independently in 4 out of 5 trials.

METHOD(S) FOR MEASURING THE CHILD'S PROGRESS TOWARDS ANNUAL GOAL

<input type="checkbox"/> A. Curriculum Based Assessment	<input type="checkbox"/> E. Short-Cycle Assessments	<input type="checkbox"/> I. Work Samples
<input type="checkbox"/> B. Portfolios	<input type="checkbox"/> F. Performance Assessments	<input type="checkbox"/> J. Inventories
<input type="checkbox"/> C. Observation	<input type="checkbox"/> G. Checklists	<input type="checkbox"/> K. Rubrics
<input type="checkbox"/> D. Anecdotal Records	<input type="checkbox"/> H. Running Records	

Must be a written record to support this method of data collection.

- The level the child must demonstrate for mastery:
Accuracy, frequency, latency, intensity, duration
- The number of times that skill or behavior must be demonstrated
- The same unit of measurement and criteria should be used in the PLOP and in the Progress Reports

Progress Monitoring

METHOD(S) FOR MEASURING THE CHILD'S PROGRESS TOWARDS ANNUAL GOAL ←

A. Curriculum-Based Assessment E. Short-Cycle Assessments
 B. Portfolios F. Performance Assessments
 C. Observation G. Checklists
 D. Anecdotal Records H. Running Records

Performance assessment, also known as alternative or authentic assessment, is a form of testing that requires students to perform/demonstrate a task or skill rather than select an answer from a ready-made list. You need to structure the way of scoring the assessment beforehand (i.e., a rubric might be used in conjunction with a performance assessment)

MEASURABLE OBJECTIVES Add Objective

NUM	OBJECTIVE

FREQUENCY OF WRITTEN PROGRESS REPORTING TOWARD GOAL MASTERY TO THE CHILD'S PARENTS

Note: Progress Reports must be provided to parents of a child with a disability at least as often as report cards are issued to all children. If the district provides interim reports to all children, progress reports must be provided to all parents of a child with a disability.

Add Next Goal Add New Reporting Period

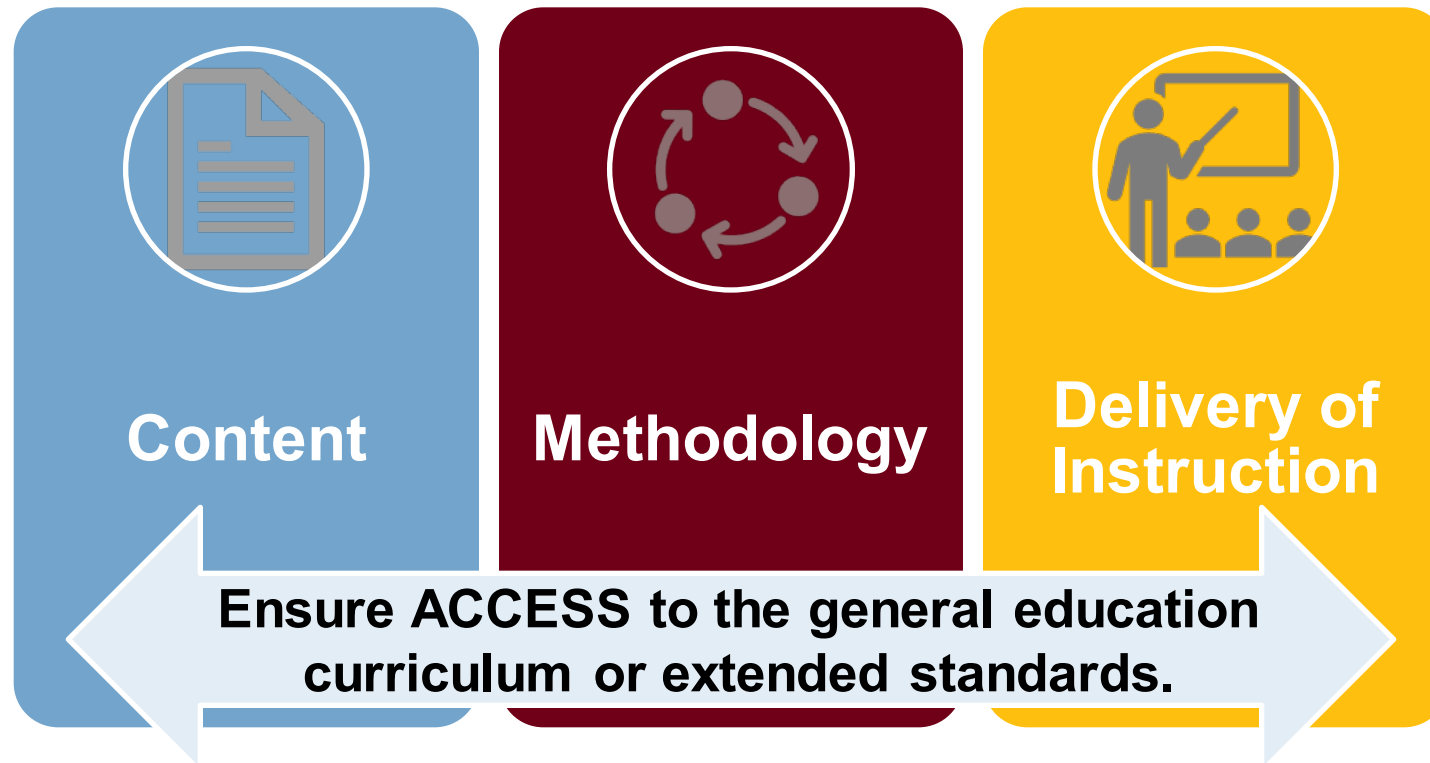

Refers to the method being used for measuring the child's progress towards their annual goal.

Refers to the amount of time of mastery the child is presently performing.

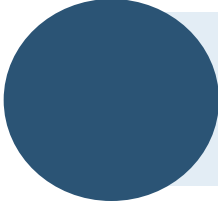

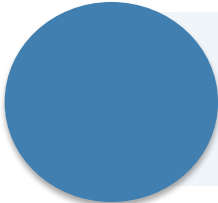

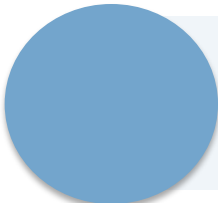

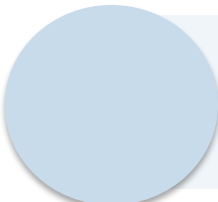

Report the child's current performance on the GOAL compared to the goal mastery criteria from the IEP.

Specially Designed Instruction (SDI)

Adapting to the NEEDS of the child

Specially Designed Instruction (SDI)

-  **HOW** the delivery of instruction aligns to the needs of the child
-  Must be a clear connection to the **SPECIFIC** goal referenced and the location of the service
-  Amount of **TIME/FREQUENCY** must reflect the need of the individual student and be clear to parents
-  Should have only **ONE** provider and location

Specially Designed Instruction (SDI)

- Instructional methods and strategies specifically designed for each individual student and goal
- Designed to assist the child in progressing towards achievement in their goals
- Consider the implications for instruction in part two of the Evaluation Team Report
- Can be provided by intervention specialist and related service providers

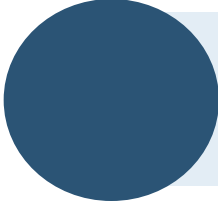

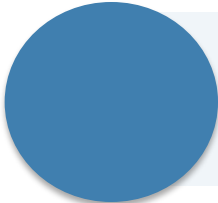

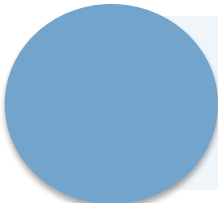

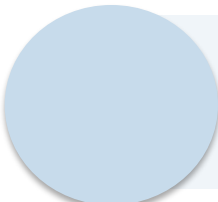

Specially Designed Instruction (SDI)

TYPE OF SERVICE		GOAL ADDRESSED	PROVIDER TITLE	LOCATION OF SERVICE
SPECIALLY DESIGNED INSTRUCTION:				+
		#1	Intervention Specialist	Preschool Classroom

Assistive Technology

Assistive Technology

Any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified or customized

- A surgically implanted device is NOT assistive technology

Assistive Technology Service

Any service that directly assists a child with a disability in the selection, acquisition or use of an assistive technology device.

Accommodations

Provide access to course content but do not alter the scope or complexity of the information taught to the child.

Does not reduce the learning or performance expectations of what is being taught or tested.

EXAMPLES

Visual Highlighters
Extended Time
Cuing
Fidgets

Reduction of Visual Distractions
Manipulatives
Large Text Print
Frequent Breaks

The condition for and extent of the accommodations MUST be explained.

Modifications

Changes the amount and/or complexity of the instructional material being taught.

Modifications of the curriculum result in the child being taught the same information as the same-age, grade-level peers, but with less complexity.

Support for School Personnel

Documents the needed support from adult to adult

For preschool must provide time and frequency

EXAMPLES	
Itinerant teacher supports general education teacher	Speech and Language Pathologist providing training and guidance to classroom teacher
