Preschool to Kindergarten IEP Preschool to Kindergarten IEP Transition

OFFICE OF EARLY LEARNING AND SCHOOL READINESS

Revised January 2023

Introduction

The Office of Early Learning and School Readiness provides technical assistance and resources for our partners working with families, preschool staff and communities to meet the individual needs of preschool children with disabilities. The goal of this manual is to offer information to preschool programs and school districts that are responsible for planning, developing and implementing the individualized education program (IEP) of a child who is leaving preschool to enter kindergarten. This guidance will help the child's IEP team plan for his or her success, making the transition from preschool to elementary school a positive experience.

Please contact the Preschool Special Education team for further assistance at <u>preschoolspecialeducation@education.ohio.gov</u> or (614) 369-3765.

One Combined, Preschool and Kindergarten IEP *or* Two Subsequent IEPs: (Preschool then Kindergarten)?

First, the IEP team must decide whether it will develop and implement one IEP for the preschool special education student that will transition with the child to kindergarten or develop a preschool IEP and later assemble the school-age IEP team to develop a subsequent school-age IEP for the child's kindergarten year. The team should consider the advantages and disadvantages of both scenarios and which set-up best meets the needs of the child. The team also must ensure the child's special education and related services are not interrupted in the preschool to kindergarten transition.

Option 1: Combined IEP

Developing and implementing a combined IEP may streamline the process for the child transitioning from preschool to kindergarten by reducing the paperwork required and minimizing scheduling difficulties for IEP team members. Choosing this option, the team would use the IEP form that contains both preschool and school-age sections and complete the preschool and kindergarten IEP at the same time. Ideally, representatives from preschool and school-age services collaborate to develop the combined IEP.

Option 2: Subsequent IEPs

The IEP team would hold one IEP team meeting for the preschool IEP and a subsequent IEP meeting when it is time to prepare the child to transition to school-age special education services. The IEP team can complete the school-age IEP after the end of preschool or at the very beginning of kindergarten, whichever works best for the IEP team, including the parent. Again, the team must ensure services are not interrupted in the transition. Only one combined IEP or subsequent IEP (preschool or kindergarten) can be active at a given time and reported in the Education Management Information System (EMIS). The Office of Early Learning and School Readiness recommends that a subsequent, school-age IEP be written as close as possible to when the child will begin receiving school-age services. This gives the IEP team an opportunity to review the child's preschool progress and known needs for kindergarten.

IEP Guidance for Preschool to Kindergarten Transition

School districts can use their discretion in choosing option 1 or option 2 when planning for a child's transition from preschool to school-age special education and related services. A district should base its choice on the child's individual needs. The option a district chooses also should ensure services are not interrupted and the transition is a positive experience for the child.

Option 1 Requirements: Combined IEP

- The IEP team must use the Ohio Department of Education version of the IEP form that includes both preschool and school-age sections.
- Both preschool and school-age special education services will be covered during the IEP effective dates listed on the combined IEP form.
- The preschool staff must complete the Child Outcomes Summary process within 30 calendar days of the child's exit from preschool special education.
- Here are additional requirements for sections of the IEP form relating to transition:
 - Page1 Other Information: Include these statements:

- (Student's Name) will transition from preschool special education services to kindergarten special education services on (date) xx/xx/xxxx. There (will be/will not be) a change in placement at the time the student transitions from preschool to kindergarten.
 - NOTE: This information is necessary because Section 15 will address any change of placement for preschool (from the previous IEP to the new IEP). If a change of placement occurs in the transition to kindergarten, the team must document it.
 - If there is a change in placement between preschool and kindergarten, the Office of Early Learning and School Readiness recommends the district provide prior written notice (PR-01) to the parents to indicate the placement change.
- Section 4 Extended School-Year Services: If the IEP team determines extended schoolyear services are necessary, the district must determine how the services will be delivered.
- Section 5 Postsecondary Transition: Section 5 currently is not applicable to the student, whether in preschool or kindergarten.
- Section 7 Description of Specially Designed Services: The descriptions of Specially Designed Services must be defined separately for preschool special education services and kindergarten special education services. This must be clear for all areas: Type of Service, Goal Addressed, Provider Title, Location of Service, Begin, End, Amount of Time, and Frequency. See the example on the IEP form in Attachment A.
- Section 8 Transportation: The team must complete this section to reflect the student's preschool transportation needs. If the team needs to make changes in this section for the child's kindergarten year, it must complete an amendment.
- Section 11 Least Restrictive Environment: In this section, the team must complete both the For School-Age and the For Preschool areas of the form.
- Section 12 Statewide and Districtwide Testing: The team must complete this section in accordance to kindergarten applicability.
- Section 13 Exemptions: The team must complete this section in accordance to kindergarten applicability.
 - Third Grade Reading Guarantee: Not applicable (NA).
 - Graduation Tests: Indicate NA for a student transitioning from preschool to kindergarten.
 - Other Assessments: Indicate NA for a student transitioning from preschool to kindergarten if Other Assessment Exemptions do not apply to kindergarten.
- Section 14 Meeting Participants:
 - The required members include a parent, general education teacher, special education teacher/provider and a district representative.
- Section 15 Signatures: Based on the following scenarios, complete the appropriate areas of Section 15:
 - If there are no changes in placement both in preschool and kindergarten:
 - Complete the Not a Change in Placement area of the IEP Annual Review.
 - If there is a change of placement in either preschool or kindergarten:
 - Complete Not a Change in Placement area of the IEP Annual Review for the setting in which there is no change in placement and note the transition on the form. For example, if there is no change in placement from the previous

Department

of Education

preschool IEP to the new preschool IEP, note "For preschool to preschool transition."

- Complete the Change of Placement area of the IEP Review for the setting in which there will be a change of placement and note the transition on the form. For example, if there is a change in placement from preschool to the kindergarten, note "For preschool to kindergarten transition."
- If there are changes in placement in both preschool and kindergarten:
 - For the preschool to preschool change in placement, complete the Change of Placement area of the IEP Review for preschool and note the transition on the form by stating "For preschool to preschool transition."
 - For the preschool to kindergarten change in placement, ensure the change in placement has been documented in the Other Information section (page 1 of IEP form). The Office of Early Learning and School Readiness recommends the district provide prior written notice (PR-01) to the child's parents to confirm the kindergarten change in placement. Indicate whether the parent agrees with the change in placement and obtain the parent signature.

Other Considerations:

Any changes in the goals or other sections of the IEP that may occur once the child transitions to kindergarten should be addressed with an amendment.

Option 2 Requirements: Subsequent IEPs

- First, the preschool IEP team will develop a preschool IEP.
- The preschool IEP must be written for a year (364 days), even if there are only a few weeks or months remaining in preschool.
- Only one IEP can be active at a time.
- After the end of preschool or at the very beginning of kindergarten, the school-age IEP team will meet to complete the subsequent, school-age IEP.
- The district must determine when the child's preschool services will end and when school-age services will begin. There should be no interruption in services in the preschool to school-age (kindergarten) transition.

Other Considerations:

• Any changes in the goals or other sections of the IEP that may occur once the child transitions to kindergarten should be addressed with an amendment.

EMIS Considerations

This applies to FY 2021 and forward

- Least Restrictive Environment (LRE) codes need to be reported accurately in order to ensure children are appropriately included in the Federal Child Count (October 31) and so districts receive the correct amount of funding.
- The LRE code is reported to EMIS on the Special Education (GE) record in the Outcome ID Element (GE120). An LRE code may also need to be reported to EMIS on the FN270 data element, depending on the age and grade level of the student and what was last reported to EMIS. The FN270 data element is reported on the Student Attributes- No Date Record (FN). The element is titled 'Updated October 31 IEP Outcome.'

- For students who are age 5 as of October 31:
 - Students who are age 5 and in Kindergarten grade or higher are considered a 'School Age' student for purposes of the Federal Child Count. Therefore, a School Age LRE code is needed. If the last reported LRE Code reported on the GE record was a Preschool LRE code, then the District should report a School Age LRE code on the FN270 element.
 - Students who are age 5 and in Preschool grade are considered a 'Early Childhood' student for purposes of the Federal Child Count. Therefore, a Preschool Age LRE code is needed. If the last reported LRE code reported on the GE record was a School Age LRE code, then the District needs to report a Preschool LRE code on the FN270 element.

• For students who are age 6 as of October 31:

- Students who are age 6 and in Preschool grade are considered a 'School Age student' for purposes of the Federal Child Count. Therefore, a School Age LRE code is needed. If the last reported LRE code reported on the GE Record was a Preschool LRE code, then the District needs to report a School Age LRE code on the FN270 element.
- Students who are age 6 and in Kindergarten grade are considered a 'School Age student'. Therefore, a School Age LRE code is needed. If the last reported LRE code reported on the GE record was a Preschool LRE code, then the District needs to report a School Age LRE code on the FN 270 element.

Keep in mind that EMIS reporting instructions may be updated to reflect potential changes in Ohio law, federal law, Ohio Administrative Code, Ohio Department of Education policies, EMIS and Ohio Department of Education systems design or responses to errors found in the manual. Please refer to the <u>EMIS Manual</u> on the Ohio Department of Education's website for any potential updates.

Attachment A: One Combined IEP (Preschool with Kindergarten IEP)

Attachment A: One Combined IEP (Preschool with Kindergarten IEP)

THIS IEP WILL BE IMPLEMENTED DURING THE REGULAR SCHOOL TERM UNLESS NOTED IN SECTION 4 EXTENDED SCHOOL YEAR SERVICES

CHILDREN WITH VISUAL IMPAIRMENTS

This form shall be completed during the IEP meeting for each child who has a visual impairment, as defined by Ohio's Amended Substitute House Bill Number 164, which requires a statement specifying one or more reading and writing media in which instruction is appropriate to meet the child's educational needs. A copy of this completed form is part of, and must be attached to, the child's IEP form.

1.	Annual assessment of reading and writing skills was conducted with each child in all media considered appropriate. The results of these assessments are included in "Present Levels of Academic Achievement and Functional Performance" on the IEP and indicate both strengths and weaknesses.	YES	NO 🗌
2.	The IEP contains a requirement for instruction in Braille reading and writing when that medium is appropriate and is indicated by adding "Unified English Braille" as a special service in Section 7.	YES	NO 🗌
3.	Instruction in Braille reading and writing was carefully considered for this child and pertinent literature describing the educational benefits of instruction in Braille reading and writing was reviewed by the persons developing this child's IEP.	YES 🗌	NO
4.	The following visual condition(s) was taken into account and discussed in making the above decision:	YES	NO 🗌
	Condition is degenerative and progressive loss is expected.	YES	NO 🗌
	Condition is currently unpredictable in nature and will be reviewed if change in visual condition is noted.	YES	NO 🗌
	Condition is temporary and expected to improve.	YES	NO 🗌
	Condition is stable and will be monitored.	YES	NO 🗌
5.	Indicate the appropriate instructional media		
	Unified English Braille	YES	NO 🗌
	Large Print	YES	NO 🗌
	Regular Print	YES	NO 🗌
	Tape/auditory	YES	NO 🗌
	Pre-reader	YES	NO 🗌
6.	Complete if Braille reading and writing ARE appropriate at this time		
	Annual goals provided	YES	NO 🗌
	Short-term objectives provided	YES	NO 🗌
	Date of initiation indicated	YES	NO 🗌
	Frequency and duration of instructional sessions indicated	YES	NO 🗌
	Level of competency to be achieved annually indicated	YES	NO 🗌
	Objective determinants used to measure achievement provided	YES	NO 🗌
7.	Reasons Braille reading and writing ARE NOT appropriate this time		
	Documented visual acuity allowing the choice of larger type/regular type	YES	NO 🗌
	Child is considered a pre-reader	YES	NO 🗌
	Other	YES	NO 🗌
