Child Care Manual Procedure Letter 153

TO: All Child Care Manual Holders

FROM: Matt Damschroder, Director

SUBJECT: 2022 Changes to the Step Up To Quality (SUTQ) Program

Reduction of Forms and Continuous Rating

Background:

Step Up To Quality (SUTQ) is the quality rating and improvement system developed by the Ohio Department of Job and Family Services (ODJFS) and the Ohio Department of Education (ODE) to increase the quality of child care and early education programs. The current five-star system requires the completion and submission of numerous forms, ratings are only effective for a designated time period and an annual report is required.

New Policy:

To assist programs with reducing administrative burden, as well as in achieving and maintaining their ratings, the following changes will take effect on April 15, 2022:

SUTQ Rating	The rating renewal process is being discontinued. A program's	
	SUTQ rating will be continuous from their rating effective date. The	
	SUTQ certificate for a continuous rating is valid with no expiration	
	date. This does not include programs with specialized ratings, those	
	ratings will continue to have an expiration date.	
	The two-star rating will be continuous with no expiration date. Two-star rated programs will no longer register for a different rating within one year, and the rating is no longer limited to once every four years.	
	Programs wishing to change their star rating must submit an ongoing rating registration.	
Specialized Rating	Change of ownership, reinstatement and/or expedited ratings are not	
	continuous, as they are time limited. Programs with these ratings	
	must continue to follow the process outlined in Chapter 5101:2-17, of	
	the Ohio Administrative Code.	

Annual	The requirement to submit documentation for the annual report is	
Report/Verification	being discontinued. SUTQ standards will be reviewed annually. One	
Visit	and two-star rated programs will receive a complete verification visit every other year to review all SUTQ standards. Highly rated three to five-star rated programs will receive a complete verification visit every three years.	
Standards	The number of forms required for upload at registration for each starrating has been reduced. The standards have been revised to identify sample forms that may be used to meet the standard. The updated standards are attached to this letter.	
Rating Reductions	If a program's rating is reduced to a lesser rating, not a zero, this new rating will also be continuous. Programs cannot be awarded a new rating until six months from the new continuous rating effective date.	
School-Age	Programs serving school-age children are not required to obtain or	
Children	implement a school-age curriculum.	

Implementation:

Currently rated programs do not need to take any action to make their rating continuous. All current rating expiration dates will be removed via a system process. The system process to remove rating expiration dates does not apply to change of owner, reinstatement, and expedited ratings, as these ratings are time limited as outlined in rule.

The Ohio Child Licensing and Quality System (OCLQS) will reflect these changes on April 18, 2022. Updated SUTQ certificates reflecting a continuous rating can be printed from OCLQS on April 18, 2022. System changes are being implemented beginning Friday, April 15, 2022, and will be completed Monday, April 18, 2022. OCLQS will not be available during this time.

	Action	
Annual Report	If your program's rating expires on or after April 15, 2022, you do	
	NOT need to submit an annual report to maintain your current SUTQ	
	rating.	
	Disregard emails received reminding your program that the annual	
	report is due.	
Ongoing	If your program's rating expires on or after April 15, 2022, you do	
Rating/Renewal	<u>NOT</u> need to submit an ongoing registration to maintain your current	
Registration	SUTQ rating.	
	Disregard emails received reminding your program to complete an	
	ongoing registration.	

	If your program's rating expires before April 15, 2022, it will be	
	processed according to the current standards.	
Specialized Rating	If your program currently holds a change of ownership, re-	
	instatement, or expedited rating, you must submit an initial	
	registration within the 120- day deadline, as this rating type is not	
	continuous.	

Programs registering for a star rating can begin to use the revised forms on April 15, 2022. Forms completed and currently on file at a rated program do not need to be updated with these revised versions until a form is required to be updated.

Prescribed forms that have been revised that appear in the standards:

JFS 01509 "Continuous Improvement Plan (CIP) for Step Up To Quality (SUTQ)" has been revised to clarify what is required for dates and goals, and for Family Child Care, to add the program owner's self-assessment (CKC).

JFS 01590 "Curriculum Standards Assessment Alignment Tool: Infants, Toddlers and Preschoolers for Step Up to Quality Programs" is a new form that has consolidated the former JFS 01590 "Curriculum Standard Assessment Alignment Tool: Infants and Toddlers for Step Up To Quality" and JFS 01591 "Curriculum Standard Assessment Alignment Tool: Pre-Kindergarten Strand for Step Up To Quality". Further revisions include language clarification and the addition of blended curriculums.

Sample forms that have been revised and have been added to the standards:

JFS 01381 "Program Transition Policies For Four To Five-Star Ratings for Step Up To Quality (SUTQ)" has been revised to update form description wording.

JFS 01518 "Classroom Self-Assessment Action Plan for Step Up To Quality (SUTQ)" has been revised to update the wording in some fields for clarification.

JFS 01587 "Professional Development Plan for Step Up To Quality (SUTQ)" has been revised to mirror language in the rule standards.

The following forms have been revised and are available on forms central as technical assistance documents:

JFS 01369 "Records Transfer Policy/Request For Two to Five-Star Ratings for Step Up To Quality (SUTQ)" has been revised to add a section to indicate which records are being transferred, and to update the parent signature to give authorization for the transferring of forms.

JFS 01379 "Health Screening Process for Three to Five-Star Ratings for Step Up To Quality (SUTQ)" has been revised to include information previously on the JFS 01375 "Health Referral Process for Three to Five-Star Ratings for Step Up To Quality (SUTQ)", which is being made obsolete.

JFS 01507 "Curriculum Selection Process for Two to Five-Star Programs for Step Up To Quality (SUTQ)" has been revised to mirror language in the rule standards.

The following forms have been made obsolete:

JFS 01364 "Written Wage Structure for One to Five-Star Ratings for Step Up To Quality (SUTQ)"

JFS 01365 "Description of Professional Development Planning Process for One to Five-Star Ratings for Step Up To Quality (SUTQ)"

Step Up To Quality Center Program Standards For a Four and Five-Star Rating

Domain: Learning and Deve	lopment (Maximum 21 Points)
Sub-Domain: Curriculum and Planning (CP)	
Program Standard	Requirements
CP 1 The program implements a written, research based, comprehensive curriculum aligned with the Early Learning and Development Standards (appropriate to the age group served) and demonstrates its alignment to the child assessment. Each teacher has daily access to a copy of the curriculum.	The program is to complete and submit the JFS 01590 "Curriculum Standard Assessment Alignment Tool: Infants, Toddlers, and Preschoolers for Step Up To Quality" or the publisher's alignment with Ohio's Early Learning and Development Standards for each age group(s) served. This documentation to show alignment with the current curriculum is to be maintained on-site for review.
Each lead teacher has available and can access in the classroom the Early Learning and Development Standards. Programs are not required to implement a school-age curriculum.	Teachers of infant, toddler, and preschool children are to be able to explain how they address the Early Learning and Development Standards through the arrangement of the learning environment, daily routines, and planned experiences.
CP 2 Teachers use a written dated plan of activities for all hours of instructional time.	Teachers are to use and have on file for review a current, written, dated plan of activities to support children's development and learning. The activity plans are to include the following information: The teacher's name The name of the group The time frame the plan covers (daily, weekly, biweekly, monthly) Daily activities to support children's development and learning and reflects current activities in the group. Lead teachers are to be able to explain the activity planning process including how they implement the curriculum and child assessment. Curriculum is not required to be implemented for school-age children. The plans for all infants, toddlers, and preschool aged children are to be aligned to all developmental domains in Ohio's Birth-Kindergarten Entry Early Learning and Development Standards.

CP 3

Lead teachers plan intentional and purposeful activities and experiences for all hours of instructional time, that meet the needs, interests, and abilities of children across the following domains: Approaches Toward Learning, Social/Emotional Development, Cognitive and General Knowledge, Physical Well-Being and Motor Development, and Language and Literacy Development in the Early Learning Development Standards and/or Common Core Standards; or the K-12 Standards for school-age children in areas chosen by the program that best matches the philosophy. (5 points)

Lead teachers are to be able to describe and provide written documentation of examples of the strategies that they use in the development and implementation of intentional and purposeful activities.

All teachers are to be able to describe and give examples of how they consider individual child needs, interests, and abilities during the planning process. They are to share any written documentation, work samples, collections, or evidence.

CP 4

Teachers support children's active engagement through opportunities for exploration and learning. (3 points)

Lead teachers are to be able to describe and provide written documentation of examples of the methods that they use to create a variety of types of daily experiences for children that encourage exploration and learning.

Sub-Domain: Child Screening and Assessment (CSA)

Program Standard Requirements

CSA 1

The program ensures that all children (except school-age children) receive a comprehensive developmental screening that is valid and reliable within 60 days of entry into the program and annually thereafter. Necessary referrals are completed within 90 days of identification of need, and the results are formally communicated with families.

Staff who administer screenings are trained to administer, score and use the screening tools appropriately.

The tool(s) is to include the following domains: language, cognitive, motor, social and emotional and behavioral.

A program may identify more than one tool, depending on the age groups served and the domains each tool addresses.

The program is to keep on file for review screening tools that are completed for each child within 60 days of enrollment and annually thereafter, results are to be communicated with the families.

The program is to maintain written documentation which outlines the program's referral process and the identified formal communication methods to share screening results with families.

The program maintains written documentation of referrals made. The sample JFS 01378 "Developmental Screening Referral Process for Three to Five-Star Ratings for Step Up To Quality (SUTQ)" may be used to meet this requirement.

CSA 2 The program administers the state required assessment for all enrolled preschool aged children.	The program is to administer the Early Learning Assessment (ELA) following the schedule prescribed by the Ohio Departments of Education and Job and Family Services (ODE and ODJFS).
CSA 3 The program assesses all children enrolled (except school-age children) using formal and informal methods on an ongoing basis to inform instruction. Results are shared with families. Programs serving school-age children and stand-alone school-age programs are only required to complete informal assessments with school-age children.	The program is to describe the on-going child assessment process which includes: • A description of the on-going process used for child assessment including that formal assessments are completed at least twice annually • Identification of the standardized tool(s) used for formal assessments • Methods by which child observations are conducted and recorded • Identification of supporting evidence and the methods used to collect supporting evidence. The program is to keep on file for review examples of completed tools and supporting evidence of on-going child assessment; as well as samples of information provided to families to share results. The program is to be able to explain the assessment process, methods, and how results are shared with families.
CSA 4 The program and parents work collaboratively to create two written developmental and educational goals within sixty days of enrollment for children and updated annually.	The written goals are to include the name of the child, developmental and/or educational goals, the parent/guardian signature and date of completion. The written documentation is to clearly identify the family's opportunity to develop the goals. The goals are to be updated annually. The sample JFS 01514 "Developmental and Educational Goals for Step Up To Quality (SUTQ)" may be used for this requirement.
On-going child assessment results are used to make, adjust, and refine instructional decisions and to evaluate child progress. (5 points) School-age child care programs or programs serving school-age children are only required to complete informal assessments with school-age children. The on-going informal child assessment results are used to make, adjust, and refine instructional decisions and evaluate child progress.	 The program is to apply the on-going child assessment results for the following areas: The process used to analyze and interpret results both at the individual child and group level. How the program monitors individual child progress over time and used the results of the progress to inform and modify, including sharing results with families. The intentional strategies used to inform instruction for individual children, as well as the group.

	The program is to be able to explain their methods for analyzing and interpreting assessment data and to explain how they modify their instructional strategies to meet the needs, interests, and emerging abilities of individual children in group as well as the group.
CSA 6 Program provides at least two ways to explain to families the child assessment process used, and data collected, and how families can review and contribute to the education plan of their child. (4 points)	The lead teacher(s) is to be able to describe and provide written samples of the process used with families to: • Understand the child assessment process and how data is collected • Review and contribute to the education plan of their child • Share child's progress toward educational goals
Sub-Domain: Interacti	on and Environment (IE)
Program Standard	Requirements
The program completes an annual classroom self-assessment tool(s) that addresses the quality of the classroom environment and staff/child interactions that is developmentally appropriate to age groups served.	The program is to maintain written documentation of the completion of a classroom self-assessment for each group of children. The tool is to be developmentally appropriate to age groups served and is to be completed annually. Note: The completion of the classroom self-assessment tool is not to be used to meet the teacher observation program standard in the Administrative and Leadership Practices domain.
The lead teacher in each group identifies at least one area for improvement and creates an action plan which includes a goal and at least one action step based on the results of the annual classroom self-assessment.	The lead teacher in each group is to use the results of the classroom self-assessment to identify at least one area of improvement and develop an annual action plan. The written action plan is to include: Teacher's name Group Date Completed Name of tool used Goal Action steps for achieving the goal Timeframe for completing the goal The sample JFS 01518 "Classroom Self-Assessment Action Plan for Step Up TO Quality (SUTQ)" may be used for this requirement.

The program supports each child's development by providing well-structured learning environments and positive interactions among staff and children.	The Ohio Classroom Observation Tool (OCOT) is conducted in randomly selected groups, representing the age groups the program serves which will be observed using a standardized tool embedded within the verification process. The tool will assess both the quality of the classroom environment and staff/child interactions. Programs will need to successfully meet the elements and indicators within the tool to demonstrate they meet this standard.
IE 4 Each lead teacher documents progress on action steps and readjusts goals if not met. (4 points)	Each lead teacher is to document progress they have made on completing action steps towards achieving identified goal(s). Additionally, as goals are adjusted throughout the year based on the ability to successfully make progress, documentation of the adjustment is to also be maintained.
	The sample JFS 01518 "Classroom Self-Assessment Action Plan for Step Up To Quality (SUTQ)" may be used for this requirement. Each lead teacher is to be able to describe the classroom self-assessment process, the process for developing goals and action steps based on the results of the classroom self-assessment, and the progress made toward achievement of the goals throughout the year.

Sub-Domain: Child Screening and Assessment (CSA)	
Program Standard	Requirements
The program ensures that all children (except school-age children) receive a comprehensive developmental screening that is valid and reliable within 60 days of entry into the program and annually thereafter. Necessary referrals are completed within 90 days of identification of need, and the results are formally communicated with families. Staff who administer screenings are trained to administer, score, and use the screening tools appropriately.	The tool(s) is to include the following domains: language, cognitive, motor, social and emotional and behavioral. A program may identify more than one tool, depending on the age groups served and the domains each tool addresses. The program is to keep on file for review screening tools that are completed for each child within 60 days of enrollment and annually thereafter, results are to be communicated with the families. The program is to maintain written documentation which outlines the program's referral process and the identified formal communication methods to share screening results with families. The program maintains written documentation of referrals made. The sample JFS 01378 "Developmental Screening Referral Process for Three to Five-Star Ratings for Step Up To Quality (SUTQ)" may be used to meet this requirement.
CSA 2 The program administers the state required assessment for all enrolled preschool aged children.	The program is to administer the Early Learning Assessment (ELA) following the schedule prescribed by the Ohio Departments of Education and Job and Family Services (ODE and ODJFS).
CSA 3 The program assesses all children enrolled (except school-age children) using formal and informal methods on an ongoing basis to inform instruction. Results are shared with families. Programs serving school-age children and stand-alone school-age programs are only required to complete informal assessments with school-age children.	The program is to describe the on-going child assessment process which includes: A description of the on-going process used for child assessment including that formal assessments are completed at least twice annually Identification of the standardized tool(s) used for formal assessments Methods by which child observations are conducted and recorded Identification of supporting evidence and the methods used to collect supporting evidence The program is to keep on file for review examples of completed tools and supporting evidence of on-going child assessment; as well as samples of information provided to families to share results.

	The program is to be able to explain the assessment process, methods, and how results are shared with families.
CSA 4 The program and parents work collaboratively to create two written developmental and educational goals within sixty days of enrollment for children and update annually.	The written goals are to include the name of the child, developmental and/or educational goals, the parent/guardian signature and date of completion. The written documentation is to clearly identify the family's opportunity to develop the goals. The goals are to be updated annually. The sample JFS 01514 "Developmental and Education Goals for Step Up To Quality (SUTQ)" may be used for this requirement.

The program provides information regarding a minimum of at least two resources and community services to families.	The program is to maintain examples of at least two resources and community services provided to families to support the family and the development of their children.
CE 2	
The program communicates with families using at least two different modes of communication; and at least one mode promotes two-way communication.	The program is to show or be able to describe at least two modes of communication that the program uses to communicate with families.
CE 3	
The program provides families with combined or separate information on at least one health topic and one child development topic annually that are appropriate to all age groups served at the program.	The program is to maintain examples of information on one health topic and one child development topic provided to families.
CE 4	
The program offers at least one opportunity for all families to engage in activities annually.	The program is to maintain examples of family engagement opportunities that have been offered to families. The example is to include information describing the activity and to whom and when it was offered.
CE 5	
The program offers at least one educational training, workshop, or event to support families' engagement in children's learning and development annually for each age group served.	The program is to have on file for review documentation of the educational training, workshop or even the program offered. The documentation is to include the date(s), topic addressed and type of activity. The activity described here is not to be the same activity to engage families in an activity annually.
CE 6	
The program has written policies and procedures to ensure that children have received comprehensive health screenings or families have been provided information on the importance of health screenings.	The program is to maintain documentation of its health screening policy which includes how the program will ensure that children have received comprehensive health screenings and referrals to community resources. The policy is to also include a referral process to community resources for those children who have not received a health screening.

The program has written policies and procedures for its referral process to community resources that support families and children.

This is not required for school-age children.

Comprehensive health screenings include vision, dental health, height, weight, hearing and blood lead and hemoglobin levels.

The program is to maintain a written description of its referral policy which includes how it communicates with families regarding community resources that are available to obtain the screenings.

Step Up To Quality Family Child Care Program Standards For a Four and Five-Star Rating

Domain: Learning and Development (Maximum 21 points)	
Sub-Domain: Curriculum and Planning (CP)	
Program Standard	Requirements
The program implements a written, research based, comprehensive curriculum aligned with the Early Learning and Development Standards (appropriate to the age group served) and demonstrates its alignment to the child assessment. Each teacher has daily access to a copy of the curriculum. The lead teacher and/or program owner has available and can access the Early Learning and Development Standards. Programs are not required to obtain a school-age curriculum.	The program is to complete and submit the JFS 01590 "Curriculum Standard Assessment Alignment Tool: Infants, Toddlers, and Preschoolers for Step Up To Quality" or the publisher's alignment with Ohio's Early Learning and Development Standards for each age group(s) served. This documentation to show alignment with the current curriculum is to be maintained on-site for review. Program owner or teachers of infant, toddler, and preschool children are to be able to explain how they address the Early Learning and Development Standards through the arrangement of the learning environment, daily routines, and planned experiences.
CP 2 Teachers and/or program owner use a written dated plan of activities for all hours of instructional time.	Teachers and/or program owner are to use and have on file for review a current, written, dated plan of activities to support children's development and learning. The program is to have activity plans that include the following information: The teacher's name The name of the group The time frame the plan covers (daily, weekly, biweekly, monthly) Daily activities to support children's development and learning and reflects current activities in the group. Lead teachers and/or program owner are to be able to explain the activity planning process including how they implement the curriculum and child assessment. Curriculum is not required to be implemented for school-age children. The plans for all infant, toddler and preschool aged children are to be aligned to all developmental domains in Ohio's Birth-Kindergarten Entry Early Learning and Development Standards.

CP 3

Lead teachers or program owner plan intentional and purposeful activities and experiences for all hours of instructional time, that meet the needs, interests, and abilities of children across the following domains: Approaches Toward Learning, Social/Emotional Development, Cognitive and General Knowledge, Physical Well-Being and Motor Development, and Language and Literacy Development in the Early Learning Development Standards and/or Common Core Standards; or the K-12 Standards for school-age children in areas chosen by the program that best matches the philosophy. (5 points)

Lead teachers or program owner are to be able to describe and provide written documentation of examples of the strategies that they use in the development and implementation of intentional and purposeful activities.

All teachers or program owner are to be able to describe and give examples of how they consider individual child needs, interests, and abilities during the planning process. They are to share any written documentation, work samples, collections, or evidence.

CP 4

Teachers support children's active engagement through opportunities for exploration and learning. (3 points)

Lead teachers or program owner are to be able to describe and provide written documentation of examples of the methods that they use to create a variety of types of experiences for children that encourage exploration and learning.

Sub-Domain: Child Screening and Assessment (CSA)

Program Standard Requirements

CSA 1

The program ensures that all children (except school-age children) receive a comprehensive developmental screening that is valid and reliable within 60 days of entry into the program and annually thereafter. Necessary referrals are completed within 90 days of identification of need, and the results are formally communicated with families.

Staff who administer screenings are trained to administer, score, and use the screening tools appropriately.

The tool(s) is to include the following domains: language, cognitive, motor, social and emotional and behavioral.

A program may identify more than one tool, depending on the age groups served and the domains each tool addresses.

The program is to keep on file for review screening tools that are completed for each child within 60 days of enrollment and annually thereafter, and how results are to be communicated with the families.

The program is to maintain written documentation which outlines the program's referral process and the identified formal communication methods to share screening results with families.

The program maintains written documentation of referrals made.

The sample JFS 01378 "Developmental Screening Referral Process for Three to Five-Star Ratings for Step Up To Quality (SUTQ)" may be used for this requirement.

CSA 2 The program administers the state required assessment for all enrolled preschool aged children.	The program is to administer the Early Learning Assessment (ELA) following the schedule prescribed by the Ohio Departments of Education and Job and Family Services (ODE and ODJFS).
CSA 3 The program assesses all children enrolled (except school-age children) using formal and informal methods on an ongoing basis to inform instruction. Results are shared with families. Programs serving school-age children and stand-alone school-age programs are only required to complete informal assessments with school-age children.	 The program is to describe the on-going child assessment process which includes: A description of the on-going process used for child assessment including that formal assessments are completed at least twice annually Identification of the standardized tool(s) used for formal assessments Methods by which child observations are conducted and recorded Identification of supporting evidence and the methods used to collect supporting evidence. The program is to keep on file for review examples of completed tools and supporting evidence of on-going child assessment; as well as samples of information provided to families to share results. The program is to be able to explain the assessment process, methods, and how results are shared with families.
CSA 4 The program and parents work collaboratively to create two written developmental and educational goals within sixty days of enrollment for children and updated annually.	The written goals are to include the name of the child, developmental and/or educational goals, the parent/guardian signature and date of completion. The written documentation is to clearly identify the family's opportunity to develop the goals. The goals are to be updated annually. The sample JFS 01514 "Developmental and Education Goals for Step Up To Quality (SUTQ)" may be used for this requirement.
On-going child assessment results are used to make, adjust and refine instructional decisions and to evaluate child progress. (5 points) School-age child care programs or programs serving school-age children are only required to complete informal assessments with school-age children. The on-going informal child assessment results are used to make, adjust, and refine instructional decisions and evaluate child progress.	The program is to apply the on-going child assessment results in the documentation for the following areas: • The process used to analyze and interpret results both at the individual child and group level. • How the program monitors individual child progress over time and used the results of the progress to inform and modify, including sharing results with families. • The intentional strategies used to inform instruction for individual children, as well as the group.

CSA 6 Program provides at least two ways to explain to families the child assessment process used, and data collected, and how families can review and contribute to the education plan of their child. (4 points)	The program is to be able to explain their methods for analyzing and interpreting assessment data and to explain how they modify their instructional strategies to meet the needs, interests, and emerging abilities of individual children in group as well as the group. The lead teacher or program owner is to be able to describe and provide written samples of the process used with families to: • Understand the child assessment process and how data is collected • Review and contribute to the education plan of their child • Share child's progress toward educational goals
Sub-Domain: Inte	eraction and Environment (IE)
Program Standard	Requirements
The program completes an annual self-assessment using Family Child Care Environment Rating Scale, Revised Edition (FCCERS-R) or other tool to measure the learning environment. The tool is to include staff/child interactions and be developmentally appropriate to age groups served.	The program is to maintain written documentation of the completion of the self-assessment for each group of children. The tool is to be developmentally appropriate to age groups served and is to be completed annually. Note: The completion of the self-assessment tool is not to be used to meet the teacher observation program standard in the Administrative and Leadership Practices domain.
The lead teacher or program owner in each group identifies at least one area for improvement and creates an action plan which includes a goal and at least one action step based on the results of the classroom annual self-assessment.	The lead teacher or program owner in each group is to use the results of the self-assessment to identify at least one area of improvement and develop an annual action plan. The written action plan is to include: Teacher's name Group Date completed Name of tool used Goal Action steps for achieving the goal Timeframe for completing the goal The sample JFS 01518 "Classroom Self-Assessment Action Plan for Step Up To Quality (SUTQ)" may be used for this requirement.

IE 3 The program supports each child's development by providing well-structured learning environments and positive interactions among staff and children.	The Ohio Classroom Observation Tool (OCOT) is conducted in randomly selected groups, representing the age groups the program serves which will be observed using a standardized tool embedded within the verification process. The tool will assess both the quality of the classroom environment and staff/child interactions. Programs will need to successfully meet the elements and indicators within the tool to demonstrate they meet this standard.
IE 4 The lead teacher or program owner documents progress on action steps and readjusts goals if not met. (4 points)	The lead teacher or program owner is to document progress they have made on completing action steps towards achieving identified goal(s). Additionally, as goals are adjusted throughout the year, based on the ability to successfully make progress, documentation of the adjustment is to also be maintained. The sample 01518 "Classroom Self-Assessment Action Plan for Step Up To Quality (SUTQ)" may be used for this requirement. The lead teacher or program owner is to be able to describe the group self-assessment process, the process for developing goals and action steps based on the results of the group self-assessment, and the progress made toward achievement of the goals throughout the year.
Domain: Administrative and	Leadership Practices (Maximum 12 points)
	Program Administration (PA)
Program Standard	Requirements
PA 1 The program completes an annual program self-assessment using a standardized tool that is used to assess a program's administrative policies, procedures and practices.	The program is to keep on file for review, the documentation of the completed, scored and dated self-assessment tool. The self-assessment is to be completed and/or updated annually and include the following elements: • Human resource leadership and development • Family and community partnerships • Program development and evaluation • Business and operations management
PA 2 The program completes an annual continuous improvement plan using results from the current annual program self-assessment, which includes a minimum of two goals and at least two action steps towards completing the goals. Input from staff and families is also included in developing the continuous improvement plan.	The program is to complete and submit the required sections of the JFS 01509 "Continuous Improvement Plan (CIP) for Step Up To Quality (SUTQ)". The plan is to be updated annually and should be maintained on-site for review. The program is to maintain written examples of ways that staff and family input is gathered and used to inform the continuous improvement plan.

PA 3 The program's annual continuous improvement plan has strategies to engage community partners to support child and family outcomes. (3 points)	The program is to complete and submit all of the optional sections of the JFS 01509 "Continuous Improvement Plan (CIP) for Step Up To Quality (SUTQ)" in order to obtain points towards a four or five-star rating.
PA 4	
The program conducts an annual survey or meeting with families and community partners to review accomplishments of program goals. (3 points)	A sample copy of the survey or meeting minutes, a summary of the results, and the number of families and community partners that participated is to be maintained in writing and available for review.
Sub-Domai	n: Staff Management (SM)
Program Standard	Requirements
SM 1	
The program owner completes the Ohio Administrator Core Knowledge and Competencies Self-Assessment annually. All staff (other than program owner) have at least one formal observation annually.	The program is to maintain an annual summary of the Ohio Administrator Core Knowledge and Competencies Self-Assessment (Administrator CKC). The summary is to include the date the Administrator CKC was completed.
	The observation is to be updated and completed by the program owner within 30 days of hire and updated at least annually. The program is to maintain documentation of the formal observations for each staff member. The documentation is to include the staff member's name and the date the observation was completed.
	The sample JFS 01521 "Teacher Observation for Step Up To Quality (SUTQ)" may be used to meet this requirement.
	Note: The completion of the classroom self-assessment tool or a self-evaluation by the staff does not meet the requirement for formal observations.
SM 2	
The program owner and all staff have annual professional development plans.	A professional development plan is a written individualized plan used to document the on-going training and professional development needs of staff and is to be updated at least annually.

Program Standards	Requirements
PD 1 The program owner achieves and maintains the Step Up To Quality Professional Development Certificate in the current or previous biennium. All child care staff achieve and maintain the Step Up To Quality Professional Development Certificate in the current or previous biennium. Individuals who are currently enrolled in a degree-granting program in early childhood or related field can use coursework to fulfill the biennial training requirement.	For initial ratings only: The program owner and all child care staff are not required to achieve the Professional Development Certificate prior to registering for an initial rating. The program owner and all child care staff are to achieve the Professional Development Certificate prior to the end of the current biennium. The required hours for the Professional Development Certificate are to be prorated based on the rating effective date of the program's initial rating. Once rated, the program owner and all child care staff achieve and maintain the Step Up To Quality Professional Development Certificate in the current or previous biennium.
The program owner and all staff have achieved Tier 3 for current or previous biennium. (3 points); or The program owner and all staff have achieved Tier 2 for current or previous biennium. (2 points)	If a child care staff member was hired after the program's initial rating date, the required hours for the Professional Development Certificate are to be prorated based on his or her hire date.
PD 2 The program owner and all child care staff are to complete the required quality and child development courses.	The program owner and all newly hired child care staff are required to complete Ohio's Approach to Quality and Ohio's Overview of Child Development within 30 days of being hired unless they have documentation of the courses in the OPR or meet exemption requirements. The hours accumulated for these two courses are to count as professional development hours. Any post-secondary child development course completed (with a grade of C or better or a passing grade from a pass/fail course) within the previous six years from an accredited institution of higher education is to count toward the Ohio's Overview of Child Development regardless of degree. Documentation of the course is to be submitted to the OPR no later than sixty days prior to the end of the biennium.
