

**TO:** Community School Administrators  
**FROM:** The Office of Budget and School Funding  
**SUBJECT:** June Community School Payment  
**DATE:** June 10, 2015

This payment reflects formula and factors that are based on provisions of Am. Sub. H. B. 59, the FY2014-15 budget bill, using reported FY2015 data for all enrollment data.

The June payment continues the phase in of flags placed by resident districts to community school students. Much progress has been made in the previous month by all parties to resolve flags. ODE again took steps to limit the impact of flags for some community schools this month. The payment is based on students reported as of May 16<sup>th</sup>. For schools with less than 3 percent of their students flagged, the full weight of the flag is applied. For community schools where the percent of students flagged is in excess of 3 percent, ODE performed a manual override of the flags so that no community school will see a reduction in FTEs that exceeds 5 percent. Because of this override, the fatal error reports typically sent out do not have the full number of flags and fatal errors place don students. Please look for separate correspondence from your sponsor and area coordinator. ODE’s goal is to get as many flags resolved before running a Final #1 reconciliation payment with the August community school payment.

Payments to community schools are made no later than the 10th business day of each month. The tenth business days for fiscal year 2015 are as follows:

July 10, 2014	January 14, 2015
August 12, 2014	February 11, 2015
September 11, 2014	March 11, 2015
October 9, 2014	April 9, 2015
November 14, 2014	May 12, 2015
December 10, 2014	June 10, 2015

**Community School Payment Report**

- Opportunity Grant, Targeted Assistance, Special Education, Limited English Proficiency, Economically Disadvantaged, and K-3 Literacy funding are all based on the enrollment data provided in May, 2015 through the EMIS data collector and SOES.
- The targeted assistance per-pupil amount and economically disadvantaged index that are applied based on each student's resident district, are calculated based on the resident district's most recent FY2015 data.
