

THOMAS P. MILLER & ASSOCIATES

January 19, 2018

Dear Ms. Modell,

Thomas P. Miller & Associates (TPMA) is pleased to support the OhioMeansJobs-Readiness Seal.

Our clients include many employers who often stress the importance of the skills cited in the Readiness Seal. We work with manufacturing sector partnerships throughout Ohio and are heavily involved with workforce initiatives where personal strengths, strong work ethic, and professional experience are necessary for success.

TPMA's work with national initiatives related to additive and lightweight manufacturing gives us insight into the talents necessary for new and innovative strategies that must start with foundation skills such as those provided in the OhioMeansJobs-Readiness Seal.

Additionally, the Readiness Seal speaks to the needs of students to contribute to the workplace and their communities; needs we hear about in the many strategic planning sessions we facilitate in various regions of Ohio.

TPMA will continue to support the Ohio Department of Education, Governor's Office of Workforce Transformation, and Ohio Department of Higher Education in its initiatives to prepare students for the workplace.

Please accept this letter and its contents as a testimonial for the OhioMeansJobs-Readiness Seal.

Sincere regards,

Thomas P. Miller
