**Re: 2017-2018 Annual Report**

Dear Ms. Basinger,

Ohio law requires the Department to complete an annual review of the performance of the School. The Ohio Department of Education, Office of School Sponsorship, evaluates the School based upon its academic, fiscal, organizational/operational performance, and legal compliance. During the 2017-2018 school year, the Department began working on its strategic plan which looks at the impact of education on the whole child. As a result, a large part of the School's evaluation will consider the School's impact on the whole child.

As a result of the review, the Office of School Sponsorship has determined that the School serves as a quality school option for grades kindergarten through eighth grade. The school encourages students to solve problems and focuses on the social and emotional growth of the child. Its unique approach to education has shown in the overall state report card. It is clear that the school is a true community school and staff, parents and the governing authority are dedicated to the success of the students and, in turn, the School. The School is rated as **meets the expectations of the Office of School Sponsorship**. Our office is looking forward to working with the School during the school year.

**Academic Performance**

Overall, the School's performance is meeting expectations of the Department. The School performs well above the local school district and is a quality school choice for the students and the community. A more detailed review of the School's overall academics is contained in the attachments as well as available on the Department's website at [reportcard@education.ohio.gov](mailto:reportcard@education.ohio.gov). The School's governing authority and leadership are dedicated to ensuring the school's continued success. Watching the teachers engage students and ensure that each child's academic needs are met is truly inspiring.

**Fiscal Performance**

Overall the School meets the expectations of fiscal performance. A detailed analysis may be reviewed in the attachment.

**Legal Compliance**

During the 2017-2018 school year, we reviewed the School's policies and procedures to ensure compliance with the over 200 state laws and rules applicable to community schools. We appreciate the School's desire to work closely with our office in drafting and revising policies to ensure compliance with our office's standards as well as statutory requirements. We have broken down the compliance into several sections and your compliance with each section is identified in the chart:

Category	Total Compliance Items	Items Compliant
Academic	80	80
Data and Technology	16	16
Enrollment/Admissions/Attendance	20	20
Fiscal	20	20
Governance and Employment	60	60
Health and Safety	34	33
Transportation	17	17
Other policies	11	11

We appreciate the School's hard work over the year.

### **Organization and Operational Performance**

Operationally, the School has strong organizational and operational leadership. The School's leadership team is committed to school improvement and continuing to have a strong relationship with the community. The School's governing authority is present in the school and is working on ensuring that the school remains viable for many years to come. Overall the School is in compliance with its contract, the staff is committed to the students, and the governing authority is committed to the continued viability of the school.

### **The 2018-2019 School Year**

Looking ahead to the 2018-2019 school year, we hope to continue to partner with the school as it is a strong community school choice in the Toledo area. Our office will continue to be a partner to the School this year and in the future.

Sincerely,

*Sheila P. Vitale*

# Discovery Academy Performance Framework

The Performance Framework serves as the foundation for the performance and accountability plan for schools sponsored by the Ohio Department of Education's Office of School Sponsorship. The framework evaluates the school in four equally rated areas: academic and student performance; financial performance; operational performance; and additional evidence of the effectiveness of the community school.

## Academic and Student Performance

The goals in this section are measured based on the school's own academic and student performance measures, as well as the statewide similarly situated schools and comparable community schools.

In measuring the school's academic indicators, certain report card measures identified as "weighted report card measures" are areas that are weighted more heavily in considering whether the school is showing marked improvement in academics. The weighted report card measures include a look at the past three years of school performance and include a narrative regarding whether the school is making improvement year over year.

Additional consideration is given to schools that increase any component grade one level over the previous year. The school must have received a rating for the component grade in the prior school year for the school to receive additional consideration that it is meeting or exceeding goals.

The comparison groups by which the school is measured is an important tool in determining whether the school is meeting its academic goals. If a school meets or exceeds the results of the comparison group, the school will be considered to have met its goals. This measure also includes a narrative regarding the school's performance over the past three years compared to the comparison groups.

## Key Financial Indicators of Fiscal Stability

Key	Definition	Measure	Meets Fiscal Standards	Approaching Fiscal Standards – Fiscal Plan Should be Adopted by the Governing Authority	Not Meeting Fiscal Standards – Corrective Actions Required and Sponsor-Approved Fiscal Plan Required
Current Ratio	Current Assets divided by Current Liabilities.	Identifies the current assets an agency has that easily can be changed into cash to pay current expenses.	$\Rightarrow 1.5$	$\Rightarrow 1.0, < 1.5$	$< 1.0$
Current Ratio (Multi-Year)	Current Assets divided by Current Liabilities for multiple years (three to five years).	Identifies the current assets an agency has that easily can be changed into cash to pay current expenses.	$\Rightarrow 1.5$ & Trends Up	$\Rightarrow 1.0, < 1.5$ & Stable	$< 1.0$ Trends Down
Working Capital	Current Assets minus Current Liabilities.	Measure of an entity's liquidity. If current assets exceed current liabilities, the entity is not expected to suffer from liquidity crunch in the near future. A negative working capital amount indicates the entity may not be able to pay its current liabilities when due.	Positive	Zero	Negative
Debt Ratio	Total Liabilities divided by Total Assets.	Measures the portion of the assets of a business that are financed through debt; a lower value is favorable because it indicates that a lower portion of assets is claimed by creditors. The amount identifies the percentage of assets financed through debts.	0 – 20%	$> 20\%, < 40\%$	$> 40\%$
