**Re: 2017-2018 Annual Report**

Dear Mr. Brewer,

Ohio law requires the Department to complete an annual review of the performance of the School. The Ohio Department of Education, Office of School Sponsorship, evaluates the School based upon its academic, fiscal, organizational/operational performance, and legal compliance. During the 2017-2018 school year, the Department began working on its strategic plan which looks at the impact of education on the whole child. As a result, a large part of the School's evaluation will consider the School's impact on the whole child.

As a result of the review, the Office of School Sponsorship has determined that the School works hard to ensure that the needs of the whole child are met. The School was assumed by Department during the 2016-2017 school year and the School is currently in the second full year as an assumed school. The onboarding process takes two to three school years. Based upon the school's willingness to continuously improve, the School is rated as **meets the expectations of the Office of School Sponsorship**. Our office is looking forward to working with the School during the upcoming school year.

### **Academic Performance**

Overall, the past two years has been a period of transition for the School. Academically, the school serves a unique population of students who have or are at risk of dropping out of high school. The school's staff is dedicated to providing one-on-one attention to the students as the students work at their own pace to recover credits and earn their high school diploma. Currently the school meets expectations of the Department and we are continuing to work towards overall school improvement. A more detailed review of the School's overall academics is contained in the attachments as well as available on the Department's website at [reportcard@education.ohio.gov](mailto:reportcard@education.ohio.gov). The School's governing authority and leadership are dedicated to improving academics over the next school year. The School has recently completed a comprehensive plan to improve academics. As we continue to partner with the School to work towards overall improvement, the School will continue to be a quality school choice in the Oregon and Toledo, Ohio areas.

### **Fiscal Performance**

Overall the School meets the expectations of fiscal performance. A detailed analysis may be reviewed in the attachment.

### **Legal Compliance**

During the 2017-2018 school year, we reviewed the School's policies and procedures to ensure compliance with the over 200 state laws and rules applicable to community schools. We appreciate the School's desire to work closely with our office in drafting and revising policies to

ensure compliance with our office's standards as well as statutory requirements. We have broken down the compliance into several sections and your compliance with each section is identified in the chart:

Category	Total Compliance Items	Items Compliant
Academic	80	76
Data and Technology	16	15
Enrollment/Admissions/Attendance	20	19
Fiscal	20	20
Governance and Employment	60	57
Health and Safety	34	30
Transportation	17	17
Other policies	11	11

We appreciate the School's hard work over the year.

#### **Organization and Operational Performance**

Operationally, the School has strong organizational and operational leadership. The School has an experienced school leader, the teaching team is strong and committed to the students, and most importantly the School has an active governing authority. Overall the School is in compliance with its contract, the staff is trained, and the governing authority follows its bylaws.

It is clear that both the governing authority and the school leadership care deeply about developing the whole child. Social and emotional needs of the children are a priority at the School.

#### **The 2018-2019 School Year**

Looking ahead to the 2018-2019 school year, the School expects to begin to see the results of the comprehensive improvement plan. The School is completing the onboarding process with the Department with a focus on overall academic improvement this year. Our office will continue to be a partner to the School this year and in the future as the School continues serve as a quality school choice for Oregon and Toledo families.

Sincerely,

*Sheila P. Vitale*

# Eagle Learning Center, 2018 Performance Framework

The Performance Framework serves as the foundation for the performance and accountability plan for schools sponsored by the Ohio Department of Education's Office of School Sponsorship. The framework evaluates the school in four equally rated areas: academic and student performance; financial performance; operational performance; and additional evidence of the effectiveness of the community school.

## Academic and Student Performance

The goals in this section are measured based on the school's own academic and student performance measures, as well as the statewide similarly situated schools and comparable community schools.

In measuring the school's academic indicators, certain report card measures identified as "weighted report card measures" are areas that are weighted more heavily in considering whether the school is showing marked improvement in academics. The weighted report card measures include a look at the past three years of school performance and include a narrative regarding whether the school is making improvement year over year.

Additional consideration is given to schools that increase any component grade one level over the previous year. The school must have received a rating for the component grade in the prior school year for the school to receive additional consideration that it is meeting or exceeding goals.

The comparison groups by which the school is measured is an important tool in determining whether the school is meeting its academic goals. If a school meets or exceeds the results of the comparison group, the school will be considered to have met its goals. This measure also includes a narrative regarding the school's performance over the past three years compared to the comparison groups.

### Weighted Report Card Measures

Key	Exceeds Goals	Meets Goals	Making Progress Toward Goals	Needs Improvement	Three-Year Comparison

## Operational Performance

The operational performance of the school looks at various areas of the school's compliance with laws and rules and licensure. Specifically, operational performance looks to how the school operationally takes steps to ensure it is able to offer a quality educational option to its students. This factor looks at teachers, special education, use of federal funds and the effectiveness of the school's governing authority.

Key	Notes	Compliant	Noncompliant and Corrective Action Required
Appropriate Certification and Licensure		Each credentialed staff member holds the appropriate credential for his/her assigned position.	Some educators are not appropriately licensed for their assignment according to state statute.
Annual Report		Parents and sponsor received the school's annual report by the last day of October. The report was complete, accurate and included a self-evaluation of the school's performance over a multi-year period.	Parents and sponsor did not receive the school's annual report by the last day of October. The report was not complete and/or not accurate and/or did not include a self-evaluation of the school's performance over a multi-year period.
Management Company Evaluation		Governing authority annually evaluates the management company's performance and provided the sponsor a copy of the evaluation.	Governing authority did not annually evaluate the management company's performance or did not provide the sponsor a copy of the evaluation.
Corrective Action Plans		School satisfied all corrective action plans in a timely manner.	School did not fully satisfy all corrective action plans in a timely manner.

### Notes:

Eagle Learning Center came to the OSS from a district, therefore, the school had to put processes in place for all procedures and reporting of compliance issues. Although the school does not meet all the financial standards required by OSS, the school carries a large days cash balance.

Notes:

## **Overall Results of School Performance Evaluation Narrative:**

Eagle Learning Center is in a time of transition leaving the public school sponsorship and coming to OSS. During this time of transition, the school has had to create policies and procedures to meet compliance issue. Through all of this, the school has maintained a climate of caring and building intentional relationships with its students.

Eagle is currently writing their improvement plan for the Office of Community Schools and will work on their attendance issues, along with their test scores and the possible integration of career tech components into their program.
