**Re: 2017-2018 Annual Report**

Dear Mr. Zgrabik,

Ohio law requires the Department to complete an annual review of the performance of the School. The Ohio Department of Education, Office of School Sponsorship, evaluates the School based upon its academic, fiscal, organizational/operational performance, and legal compliance. During the 2017-2018 school year, the Department began working on its strategic plan which looks at the impact of education on the whole child. As a result, a large part of the School's evaluation will consider the School's impact on the whole child.

As a result of the review, the Office of School Sponsorship has determined that the School serves a unique cross-section of students in the Parma area many of which are English language learners. As a kindergarten through eighth grade school, the students are engaged and eager to learn. It is clear that the school is a true community school and staff, parents and the governing authority are dedicated to the success of the students and, in turn, the School. The School is rated as **exceeds the expectations of the Office of School Sponsorship**. Our office is looking forward to working with the School during the upcoming school year.

### **Academic Performance**

Overall, the School's performance is excellent earning an overall "A" on the state report card. The School performs well above the local school district and is a quality school choice for the students and the community. A more detailed review of the School's overall academics is contained in the attachments as well as available on the Department's website at [reportcard@education.ohio.gov](mailto:reportcard@education.ohio.gov). The School's governing authority and leadership are dedicated to ensuring the school's continued success. Watching the teachers engage students and ensure that each child's academic needs are met is truly inspiring.

### **Fiscal Performance**

Overall the School meets the expectations of fiscal performance. A detailed analysis may be reviewed in the attachment.

### **Legal Compliance**

During the 2017-2018 school year, we reviewed the School's policies and procedures to ensure compliance with the over 200 state laws and rules applicable to community schools. We appreciate the School's desire to work closely with our office in drafting and revising policies to ensure

compliance with our office's standards as well as statutory requirements. We have broken down the compliance into several sections and your compliance with each section is identified in the chart:

Category	Total Compliance Items	Items Compliant
Academic	80	80
Data and Technology	16	16
Enrollment/Admissions/Attendance	20	20
Fiscal	20	19
Governance and Employment	60	57
Health and Safety	34	32
Transportation	17	17
Other policies	11	11

We appreciate the School's hard work over the year.

### **Organization and Operational Performance**

Operationally, the School has strong organizational and operational leadership. The School's leadership team is committed to school improvement and continuing to have a strong relationship with the community. The School's governing authority is present in the school and is working on ensuring that the school remains viable for many years to come. Overall the School is in compliance with its contract, the staff is committed to the students, and the governing authority is committed to the continued viability of the school.

### **The 2018-2019 School Year**

Looking ahead to the 2018-2019 school year, we hope to continue to partner with the school as it is a strong community school choice in the Parma area. Our office will continue to be a partner to the School this year and in the future.

Sincerely,

*Sheila P. Vitale*

# Global Village Academy, 2018 Performance Framework

The Performance Framework serves as the foundation for the performance and accountability plan for schools sponsored by the Ohio Department of Education's Office of School Sponsorship. The framework evaluates the school in four equally rated areas: academic and student performance; financial performance; operational performance; and additional evidence of the effectiveness of the community school.

## Academic and Student Performance

The goals in this section are measured based on the school's own academic and student performance measures, as well as the statewide similarly situated schools and comparable community schools.

In measuring the school's academic indicators, certain report card measures identified as "weighted report card measures" are areas that are weighted more heavily in considering whether the school is showing marked improvement in academics. The weighted report card measures include a look at the past three years of school performance and include a narrative regarding whether the school is making improvement year over year.

Additional consideration is given to schools that increase any component grade one level over the previous year. The school must have received a rating for the component grade in the prior school year for the school to receive additional consideration that it is meeting or exceeding goals.

The comparison groups by which the school is measured is an important tool in determining whether the school is meeting its academic goals. If a school meets or exceeds the results of the comparison group, the school will be considered to have met its goals. This measure also includes a narrative regarding the school's performance over the past three years compared to the comparison groups.

## Weighted Report Card Measures

Key	Exceeds Goals	Meets Goals	Making Progress Toward Goals	Needs Improvement	Three-Year Comparison
Performance Index	Grade A or B or exceeded the overall statewide average.	Grade C or meets the overall statewide average.	Grade D and is below the overall statewide average or an increase of 10 percent.	Grade F and is below the overall statewide average.	Statistically, the school remained the same.
Value-Added	Grade A or B	Grade C	Grade D	Grade F	Students made more progress than expected.

## Notes:

Global Village Academy has met all three standards in school climate. They are true to their mission and support the students and families with academic and social services as needed. The mission of school is incorporated in its activities and giving back to the community. The school has a very strong professional development program for their teaching staff and a formal evaluation system.

## **Overall Results of School Performance Evaluation Narrative:**

Global Village Academy has a strong academic program that continually improves in facets of education. Not only do they excel educationally, the school has a culture that is unique of most schools. Being located in Parma, Ohio, the school has a diverse group of students, some of them being immigrants that are new to the US. Where other schools may be apprehensive of meeting the needs of these students, Global Village has created a culture of acceptance and security.

Not only does the school have a strong academic program, they also provide social service connections to their families. This school goes above and beyond meeting all aspects of educating the whole child and encouraging parent and community engagement.

Financially, this school is wise and frugal. They stretch their resources and prioritize purchases. The school meets all compliance requirements and is diligent in meeting due dates.
