National School Lunch and School Breakfast Programs*

**CHARBROILED BEEF PATTIES
FROZEN
(OHIO PROCESSED)**

Product Description

Charbroiled beef patties are made with soy from commodity ground beef weighing 2.45oz. (cooked weight). Maximum VPP is 6.5 percent.

Pack Size

25-pound case bulk packed containing 150 charbroiled beef patties.

Yield

One 25-pound case provides approximately 150 servings of at least 2 ounces of cooked meat /meat alternate.

Uses

Charbroiled beef patties are pre-cooked and ready to heat and serve.

Storage

Store charbroiled beef patties frozen in original shipping containers off the floor at 0°F or below.

Best If Used By*

Frozen charbroiled beef patties are best if used within 12 months of production.

Preparation

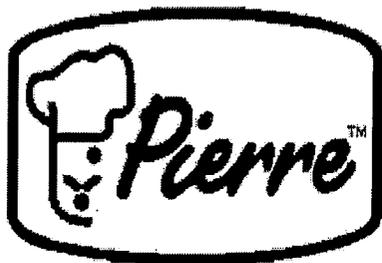

Place frozen charbroiled beef patties in convection oven at 350°F for eight (8) minutes or bake in conventional oven for twelve (12) minutes at 350°F.

**The "Best If Used By" date is intended to tell you how long the product will retain best flavor or quality. The term is not a safety date. "Best If Used By" dates are intended as useful guidelines. Some foods may deteriorate more quickly and other foods may last longer than the times suggest. A number of factors can shorten the useful life of a food product, such as improper handling and inadequate storage temperatures. The inventory control method of "first-in-first-out" should be practiced by those responsible for managing commodity inventories and distribution to the State and local level. Products kept past the "Best If Used By" dates are not necessarily unusable. Food products may be consumed after the "Best If Used By" date if the product has been properly stored and handled, and the primary container is in good condition.*
