POTATO ROUNDS, FROZEN
(Ohio Processed)

Product Description

Formed potato rounds

Pack Size

30 lb case containing 6/5 lb packages

Yield

One 30-pound case provides approximately 190 – 2.5 oz servings (½ cup) of potato rounds.

Uses

Potato rounds are frozen and ready to cook and serve. Potato rounds may be used to meet the vegetable component of the NSLP pattern

Storage

Store potato rounds frozen in original shipping containers off the floor at 0°F or below.

Best If Used By*

Frozen potato rounds are best if used within 18 months of production.

Preparation

Place frozen potato rounds in convection oven at 425°F for eight (8) – twelve (12) minutes or deep fry 1.5 lbs for two and a half (2 ½) – three (3) minutes at 350°F.

Nutritional value

½ cup serving of potato rounds (2.5oz.) provides:

**The “Best If Used By” date is intended to tell you how long the product will retain best flavor or quality. The term is not a safety date. “Best If Used By” dates are intended as useful guidelines. Some foods may deteriorate more quickly and other foods may last longer than the times suggest. A number of factors can shorten the useful life of a food product, such as improper handling and inadequate storage temperatures. The inventory control method of “first-in-first-out” should be practiced by those responsible for managing commodity inventories and distribution to the State and local level. Products kept past the “Best If Used By” dates are not necessarily unusable. Food products may be consumed after the “Best If Used By” date if the product has been properly stored and handled, and the primary container is in good condition.*
