District Name:	Brooklyn City School District
District Address:	9100 Biddulph Road, Brooklyn Ohio 44144
District Contact:	Michelle Kalish
District IRN:	043653

Overview:

The students of the Brooklyn City School District take great pride in their academics, athletics, and achievements in the arts. The district promotes and supports high expectations and standards for all students. Brooklyn offers students a well-rounded educational program through meaningful learning, innovative opportunities, and inclusive school cultures. With the current state of the COVID-19 pandemic, the Brooklyn City School District remains dedicated to providing students with the same level of educational excellence even if school closures are deemed necessary. This will be accomplished by establishing and maintaining a consistent and comprehensive remote learning plan.

HB 164 (June 2020) indicates that “Each qualifying public school governing body may adopt a plan to provide instruction using a remote learning model for the 2020-2021 school year...Not later than July 31, 2020, the qualifying public school shall submit the adopted plan to the Department of Education. An adopted plan shall not be subject to approval by the Department. Each plan shall include all of the following: (1) A description of how student instructional needs will be determined and documented; (2) The method to be used for determining competency, granting credit, and promoting students to a higher grade level; (3) The school's attendance requirements, including how the school will document participation in learning opportunities; (4) A statement describing how student progress will be monitored; (5) A description as to how equitable access to quality instruction will be ensured; (6) A description of the professional development activities that will be offered to teachers...The Department shall make each plan it receives under division (B) of Section 16 publicly available on its website.”

The goal of the Brooklyn City School District Remote Learning Plan is to ensure learning continues even though school buildings are closed. Remote learning engages students through a variety of learning opportunities, which can be delivered online and/or offline. Remote learning does not just mean online learning. Technology certainly is a supportive tool for remote learning, but powerful remote learning can occur through thoughtful offline lessons that encourage students to explore the natural world and engage in interdisciplinary and artistic hands-on learning.

In addition, this plan is complementary to the educational considerations, the students educational experience and learning, educator readiness, social emotional and health considerations, and operational considerations as set for by the Ohio Department of Education’s Reset and Restart - Planning Guide for Ohio Schools and Districts document.

The Brooklyn City School District will utilize the following instructional strategies throughout the program:

- ✓ Teacher-student interaction through online learning
- ✓ Teacher-student interactions, in real-time, through video conferencing mediums
- ✓ Online lessons for student to work on at home
- ✓ Offline lessons and instructional packets for students

In addition to these core instructional strategies, the district’s plan addresses the key components needed for remote learning to be an effective educational option. The program components include: determining instructional needs,
