

## Huntington Local Schools Remote Learning Plan

Huntington Local School District believes in the importance of education. We are dedicated to sustaining a learning environment that is nurturing, safe and healthy for our students and staff. Our team has worked diligently to listen to the concerns and views of our community. It is our hope that the plan we have developed will meet the needs of each family while also providing a quality education to the children of our township.

Families will have two options for the first semester of the 2020-2021 school year:

1. The first option is to attend school 5 days a week on campus with social distancing and precautions in place for students and staff.
2. The second option is to participate in remote learning online instruction from home with Huntington Teaching Staff using Google Classroom. Students will be required to log in each school day and complete the class activities. Attendance will be taken each day.

If circumstances necessitate all students to move to remote learning, Huntington Local Schools will utilize Google Classroom to deliver instruction.

Requirements Pursuant to HB 164	District Action Plan
How student instructional needs will be determined and documented.	Student instructional needs will be determined by reviewing past assessment data, surveying parents and conducting baseline assessment at the beginning of the school year. Teachers will use Mastery Connect to analyze student data and plan instruction to meet the needs of each individual student.
Determining competency, credit and promotion	Huntington Local School District will follow Board Policy on retention, promotion and earning credit.
Attendance Requirements	Attendance will be monitored using Google Classroom logins each day as well as participation in scheduled Google Hangout Lessons.
Monitoring Student Progress	Student Progress will be monitored using ProgressBook Grading System in grade 4-12. Grade K-3 will utilize a Standards-Based Report Card System at the end of each nine weeks to communicate student progress to the Parents. MAPs will be given 3 times a year to monitor student progress in Math and Language Arts.
Equitable Access for All Students	To ensure equitable access for all students, Huntington Local School District will provide devices to all students in order to access Google Classroom and instructional materials. Hot spots will be available to the student.
Teacher Professional Development	Professional Learning Days have been built into the District Calendar to ensure Teachers have the training and resources they need to implement the district remote learning plan. Teachers were surveyed as to the readiness level for remote learning. Professional Development will be tailored to meet the needs of each level of learner.
