District Contact:	Matthew L. Montgomery, Ph.D., Superintendent
	Kathy Nolan, Director of Curriculum
District IRN:	050054

Overview:

The students of the Revere Local School District take great pride in their academics, athletics, and achievements in the Revere Local Schools. The district promotes and supports high expectations and standards for all students. Revere offers students a well-rounded educational program through meaningful learning, innovative opportunities, and inclusive school cultures. With the current state of the COVID-19 pandemic, the Revere School District remains dedicated to providing students with the same level of educational excellence even if school closures are deemed necessary. This will be accomplished by establishing and maintaining a consistent and comprehensive remote learning plan.

The guiding principle of the Revere Local School District - Remote Learning Plan is to ensure learning continues even though school buildings are closed. Remote learning engages students through a variety of learning opportunities, which can be delivered online and/or offline. Remote learning does not just mean online learning. Technology certainly is a supportive tool for remote learning, but powerful remote learning can occur through thoughtful offline lessons that encourage students to explore the natural world and engage in interdisciplinary and artistic hands-on learning.

HB 164 (June 2020) indicates that “Each qualifying public school governing body may adopt a plan to provide instruction using a remote learning model for the 2020-2021 school year...Not later than July 31, 2020, the qualifying public school shall submit the adopted plan to the Department of Education. An adopted plan shall not be subject to approval by the Department. Each plan shall include all of the following: (1) A description of how student instructional needs will be determined and documented; (2) The method to be used for determining competency, granting credit, and promoting students to a higher grade level; (3) The school's attendance requirements, including how the school will document participation in learning opportunities; (4) A statement describing how student progress will be monitored; (5) A description as to how equitable access to quality instruction will be ensured; (6) A description of the professional development activities that will be offered to teachers...The Department shall make each plan it receives under division (B) of Section 16 publicly available on its website.”

The Revere Local School District will utilize the following instructional strategies throughout the program:

- ✓ Teacher-student interaction through online learning platforms
- ✓ Teacher-student interactions, in real-time, through video conferencing mediums
- ✓ Online lessons for student to work on at home
- ✓ Offline lessons and instructional packets for students

In addition to these core instructional strategies, the district's plan addresses the key components needed for remote learning to be an effective educational option. The program components include: determining instructional needs, determining competency, student promotion, attendance, participation, monitoring progress, equitable access, and professional learning of educators. The details associated with each of these components are outlined in the **Revere Local School District - Remote Learning Plan**, as set forth in this document.

Professional Learning	<p>What professional development activities will be offered to your school district's teachers to ensure remote learning is successful?</p> <ul style="list-style-type: none"> ✓ Created and communicated a Professional Learning plan that includes professional development to help teachers enhance remote learning.
<u>Professional Learning/Development:</u>	
<p>The staff throughout the year has had the opportunity, since March 2020, to take additional professional development related to online learning. The district Director of Curriculum has provided multiple professional opportunities to all district staff in order to prepare for just such an item as the need for remote learning. The professional development provided has revolved around the entire district being involved and providing meaningful work using Google Classroom. K-2 teachers in our district will begin the year with See Saw and teachers Grades 3-12 will use Google Classroom as their classroom LMS. This will allow students and families to gain access and familiarity with the online platform in case remote learning becomes required. The Director has also involved the following with providing in-service for the need of online classrooms:</p> <ul style="list-style-type: none"> · Northeast Ohio Educational Service Center professionals · Apple Professional Learning · Marcia Kish, Blended Learning Expert · Director of Technology · Department Heads and Grade Level Leads · Building administrators
