Introduction

The Ohio Department of Education’s Office for Exceptional Children (OEC) would like to extend appreciation to the Portsmouth City School District staff for their efforts, attention and time committed to the completion of the review process.

The following report is a summary of the onsite review conducted by OEC on April 3 and 4, 2019, as part of its general supervision requirements under the Individuals with Disabilities Education Act (IDEA) and Am. Sub. HB1.

Overview

During the onsite review, OEC consultants monitor the educational agency’s implementation of IDEA to ensure compliance and positive results for students with disabilities. The primary focus of the review is to:

- Improve educational results and functional outcomes for all students with disabilities; and
- Ensure that educational agencies meet program requirements under Part B of IDEA, particularly those requirements that are most closely related to improving educational results for students with disabilities.

Onsite reviews are targeted to include the following specific areas:

- Child Find;
- Delivery of Services;
- Least Restrictive Environment (LRE);
- IEP Verification of delivery of services;
- Parent Input; and
- Teacher and Administrator Interviews.

Data Sources

During the review, OEC considered information from the following sources:

1. **Public Parent Meeting and Written Comments**

   Portsmouth City School District mailed 461 OEC approved letters to all families with students with disabilities in the educational agency. OEC provided the educational agency with a public meeting announcement to post on the district website. Public parent meeting dates for all educational agencies selected for onsite reviews are also posted on the ODE website.

   On April 3, 2019, OEC consultants held a public meeting for parents and other interested parties. Two parents and family members and two State Support Team (SST) Region 15 representatives attended the public meeting. Attendees could speak to OEC representatives publicly in the meeting, speak to OEC representatives individually, provide written comments or both. Two attendees made comments during the public meeting. Written comment forms were available before, during and after the meeting. OEC did not receive written comments.

   During the public meeting, parents were advised by OEC consultants of the formal complaint process under IDEA and that their public comments did not constitute a formal complaint. The participants were also informed that while the information they provided may be helpful to the review, it may not necessarily be acted upon as part of the review process. Ohio’s procedural safeguards notice was available for participants who wanted a copy.
2. **Pre-Onsite Data Analysis**

   OEC conducted a comprehensive review which included district, building and grade level data; Special Education Performance Profile; Local Report Cards; Comprehensive Continuous Improvement Plan (CCIP); and Education Management Information System (EMIS) data. The data analysis assisted OEC in determining potential growth areas and educational agency strengths.

3. **Record Review/IEP Verification**

   Prior to the onsite visit, OEC consultants reviewed 30 records of students with disabilities. OEC selected records of students with disabilities from a variety of disability categories and ages. Of the 30 records reviewed, 13 student records were selected for IEP verification in the classroom setting.

4. **Staff/Administrative Interviews**

   On April 3rd and 4th, OEC consultants held 14 sessions of interviews with eight administrators and 63 teachers, school counselors, related services personnel and school psychologists. OEC interviews focused on the following review areas: Child Find; Delivery of Services; Least Restrictive Environment (LRE) and IEP alignment and Discipline.

**Findings of Noncompliance**

A finding is made when noncompliance is identified with evaluation team report (ETR) and/or individualized education program (IEP) requirements. Noncompliance that is systemic in nature or that is identified in *30% or more* of the records reviewed by OEC and substantiated through other data sources must be included in a comprehensive corrective action plan (CAP) with action steps to address each of the noncompliance findings. All noncompliance identified by OEC as part of the review (listed below and by subject area in the *OEC’s Review Findings and Educational Agency Required Actions Table*) must be corrected as indicated in the *Evidence of Correction/Required Actions* column.

OEC provides separate written correspondence to the parent/guardian when action is required to correct findings of noncompliance for individual students. The educational agency will receive copies of this correspondence.

1. **Continuum of Services and Access to Curriculum**

   **Finding:**

   Through observations, record reviews and interviews with teachers and staff, it was found by OEC and SST 15 that a continuum of services and subsequently access to the general education curriculum is not being offered to students based on their LRE and individual learning needs. Students were being placed based upon disability category, not individual need. Staff indicated that they would like to see a greater range of placements on continuum, but there is a lack of intervention specialists, support staff or teachers required to provide the continuum of services to all students. The language regarding students’ placements on the IEP was not consistent with their actual placement or need for an alternative setting. LRE change of placements were done based upon school personnel decision, not the IEP team. LRE statements were not individualized based on student need and did not demonstrate or support the existence of a continuum of service. This unilateral placement based on disability category and district personnel placement has resulted in students not being provided, to the greatest extent possible, access to the general education curriculum. The curriculum must align to Ohio learning standards or Ohio learning standards-extended. Modifications made to students’ length of school day and curriculum must be made by the IEP team and based upon individual student need.

   **Correction:**

   Portsmouth City Schools must offer the full continuum of alternative placements to meet the specific needs of children with disabilities for special education and related services within their LRE. LRE decisions will be made by the IEP team, with informed parental consent. Students will be provided, to the greatest extent possible, access to the general education curriculum.
2. **Workload Ratios**

**Finding:**
Portsmouth City Schools is in violation of the workload determinations and the caseload ratios established for personnel servicing children with disabilities. Portsmouth City Schools service providers are assigned numbers of children with disabilities that exceed the caseload standards and exceed the workload determinations referenced in the *Ohio Operating Standards for the Education of Children with Disabilities*. The district, with SST 15 assistance, must take into account the workload/caseload calculator for related services personnel, as they are assigned other duties.

**Correction:**
Portsmouth City Schools, with SST 15 assistance, must determine the proper workload/caseload for each intervention specialist and related service provider working under the same citation. Additionally, Portsmouth City Schools must take immediate steps to bring special education workloads and caseloads into compliance with the assistance of SST 15.

3. **Need for written Policies, Practices and Procedures:**

**Findings:**
Through observations, record reviews and interviews with teachers and staff, it was found by OEC and SST 15 that Portsmouth does not have any formal, written policies, practices and procedures to include, but not limited to; discipline, Response to Intervention(RTI), Positive Behavioral Intervention and Supports (PBIS), Functional Behavior Assessment(FBA), Behavior Intervention Plan(BIP), documentation of specially designed instruction, access to the curriculum, continuum of services, special education programs, Trojan Learning Center(TLC), transportation, etc.

**Correction:**
Portsmouth, with OEC and SST 15 assistance will write, and adopt board approved written policies, practices and procedures for all areas related to special education and students with disabilities.

**Corrective Action Plan (CAP)**

The educational agency will develop a CAP to address any items identified in this summary report. An approved form for the CAP will be provided by OEC or can be accessed on ODE’s website by using the keyword search “Monitoring”. The CAP developed by the educational agency must include the following:

- Activities to address all areas identified in this summary report;
- Documentation/evidence of implementation of the activities;
- Individuals responsible for implementing the activities;
- Resources needed;
- Completion dates; and
- Continued Plan for Improvement and/or Compliance.

The educational agency must submit the CAP by email to david.boso@education.ohio.gov within 30 school days from the date of this report. OEC will review the action plan submitted by the educational agency for approval. If OEC deems that a revision(s) is necessary, the educational agency will be required to revise and resubmit. The educational agency will be contacted by OEC and notified when the action plan has been approved.

**CAP Due Date: October 3, 2019**

**OEC Trainings**

As part of the OEC monitoring process, Portsmouth City School District personnel, as identified by OEC, are required to complete the Special Education Essentials 2018-19 training modules within the Learning Management System.
System (LMS). OEC will provide specific instructions on completing these training modules during the Summary Report presentation. Participants must achieve a 75% or more on each quiz. Participants who do not achieve at least 75% will be contacted by the State Support Team (SST) for additional training.

Completion of LMS Training Modules Due Date: **October 3, 2019**

**Individual Correction**

The educational agency has **60 school days** from the date of this summary report to correct all identified findings of noncompliance for individual students, unless noted otherwise in the report. Detailed information on individual findings are provided in a separate report.

Individual Correction Due Date: **November 19, 2019**

**Systemic Correction**

The educational agency will provide OEC with documentation verifying the educational agency’s completion of all CAP activities. OEC will verify systemic correction through the review of this documentation. If needed, OEC may request additional student records to review.

Completion of Systemic Correction Due Date: **December 19, 2019**

Once the educational agency has completed all action plan activities, the educational agency will use OEC’s monitoring process to create and implement a Strategic Improvement Plan with the OEC and SST assistance.

For questions regarding the review, please contact: David Boso, OEC Contact Consultant, at (614) 466-8903, toll-free at (877) 644-6338, or by e-mail at david.boso@education.ohio.gov.
**OEC's Review Findings and Educational Agency Required Actions**

**Component 1: Child Find**

*Each educational agency shall adopt and implement written policies and procedures approved by the Ohio Department of Education, Office for Exceptional Children, that ensure all children with disabilities residing within the educational agency, regardless of the severity of their disability, and who are in need of special education and related services are identified, located, and evaluated as required by the Individuals with Disabilities Education Improvement Act of 2004 and Federal Regulations at 34 C.F.R. Part 300 pertaining to child find, including the regulations at 34 C.F.R. 300.111 and 300.646 and Rule 3301-51-03 of the Ohio Operating Standards serving Children with Disabilities.*

| DS-21              | 300.321(5) 3301-51-07(I) | Record Review Four IEPs did not indicate that the IEP Team included a group of qualified professionals. | Individual Correction For the IEPs identified as noncompliant, the educational agency must:  
- Provide documentation that the parent was informed prior to the IEP meeting that the person qualified to interpret the instructional implications of evaluation results would not participate in the meeting, and  
- Provide a written excuse signed by the parents and the educational agency that allowed the person qualified to interpret the instructional implications of evaluation results not to be in attendance at the IEP meeting, or  
- Reconvene the IEP team to review the IEP with all required members present.  
Systemic Correction The educational agency must submit evidence to OEC of written procedures and practices regarding the involvement of people qualified to interpret the instructional implications of evaluation results in the IEP process. | ☒ No The educational agency does not need to address this finding in a Corrective Action Plan. |
**Component 3: Least Restrictive Environment (LRE) and IEP Alignment**

Each educational agency shall ensure that to the maximum extent appropriate, children with disabilities, including children in public or nonpublic institutions or other care facilities, are educated with children who are nondisabled; and that a continuum of alternative placements is available to meet the needs of children with disabilities for special education and related services.

| LRE-1              | 300.114 300.320(a)(5) 3301-51-07 (H)(1)(f) | Record Review Eighteen (18) IEPs did not include an explanation of the extent to which the child will not participate with nondisabled children in the general education classroom. **Other Considerations** Explanations were in terms of what the classroom offers and not what the student needs. The justification statement must reflect why the student needs prohibit them from participating with their peers. | Individual Correction The educational agency must reconvene the teams of the IEPs identified as noncompliant to review and include a justification as to why the child was removed from the general education classroom. The justification should:  
- Be based on the needs of the child, not the disability.  
- Reflect that the team has given adequate consideration to meeting the student’s needs in the general classroom with supplementary aids and services.  
- Document that the nature or severity of the disability is such that education in general education classes, even with the use of supplementary aids and services, cannot be achieved satisfactorily.  
- Describe potential harmful effects to the child or others, if applicable.  
**Systemic Correction** The educational agency must submit evidence to OEC of written procedures and practices regarding the least restrictive environment placement decision process. | ☒ Yes The educational agency needs to address this finding in a Corrective Action Plan. |
Other Considerations:

1. The district has implemented a co-teaching model. With this being newer, there is a need for training around IEPs for all staff. The district may also want to look at scheduling to find common planning time for those using the co-teaching methods.

2. Portsmouth City School District has developed a great relationship with outside stakeholders to provide services. The collaboration of these outside entities and Portsmouth City Schools has provided a needed resource to its students.

3. The Trojan Learning Center (TLC) is a newer program within Portsmouth City Schools. The program was noted as being a positive on the alternate placement continuum and if used effectively, would provide an outlet for those students needing an alternate learning environment. There is a need for clear, formal written policies, practices and procedures surrounding its enrollment, implementation and transition back to the traditional school day. When enrolling students with disabilities, there needs to be consideration given to LRE and access to the curriculum, as this is a shortened day program.

4. Portsmouth City School District has currently around 33% students identified with disabilities district wide. The staff has self-identified a need and want for more professional development around students with disabilities for all staff. An “IEP 101” training would be beneficial and could create opportunities to foster collaboration. With the population of students identified with disabilities being higher, the district should look at their curriculum and instruction further to best capture this changing population.

5. The Response to Intervention/Intervention Assistance Team (RTI/IAT) process was created by the school psychologists and seems to very thorough and effective with gaining quantitative data based upon interventions, while giving a clear and consistent requirement for teachers. When looking at a district wide process, they should be looked to for guidance and possible leadership.

6. The district should look at the integration within the district of its students in the building program located at Portsmouth High School and operated by the career center. The staff identified a want to have district students enrolled in the program to continue to have academics provided by the district.
