

**STUDENT ASSESSMENTS FOR
TEACHER AND PRINCIPAL EVALUATION SERVICE PROVIDER
PUBLICLY-AVAILABLE SERVICE SUMMARY**

Form C

This form will be posted on the Ohio Department of Education’s Web site for all proposals that are approved in conjunction with this Request for Qualifications to allow ds to understand proposed offerings in advance of directly contacting providers regarding potential further procurements.

Provider Information	
Name of Provider:	Key Data Systems; ContactUs@KeyDataSys.com
Provider Contact Information (MUST include two names, telephone numbers and email addresses):	Primary: Shannon Wells, PhD; Shannon@KeyDataSys.com
	Secondary: Leanne Holland; Leanne@KeyDataSys.com
Name of Product Proposed:	INSPECT® Formatives
Does this product provide inferences about student growth? If so, how?	<p>Yes.</p> <p>Key Data Systems has led the field in innovative testing of students by providing reliable, valid, and actionable results that are focused on student learning. The INSPECT® Formatives provide educators with valuable insight into the specific needs of their students as well as indicating areas of student growth. INSPECT® Formatives can be used to monitor student progress over time. Two forms of the assessments can be given at different instructional periods throughout the school year. This process of using the Formatives allows for progress monitoring of student achievement and provides a detailed analysis of student growth. Additionally, performance levels are provided for each assessment, allowing growth to be examined from one year to the next.</p>

What are the grade(s) the proposed product covers:	K-12 ELA, K-12 Math
What are the subject area(s) the proposed product covers:	ELA , Math
What Endorsement Category does the assessment yield evidence to support? See Categories in Section 2.2(B-v c).	The INSPECT® Formatives fall within Endorsement Category 3. The assessments may be used to produce measures of student growth to determine levels of teacher effectiveness

Please provide an overview of your proposal for districts describing in detail the assessment, use of the assessment and how your organization supports implementation of the assessment.

(2 pages maximum)

Current INSPECT® Formatives assess students' knowledge of grade Ohio's New Learning Standards in grades K-12 in ELA and math. However for the purposes of the RFQ, we are seeking approval for INSPECT® Formatives for grades 2,3,9,10,and 11 ELA and math. The INSPECT® Formatives are aligned to Ohio's New Learning Standards . The INSPECT® Formatives allow for educators to make data-driven decisions about student progress towards mastery of standards. The INSPECT® Formatives can be administered as a pre-test for assessing standards not yet covered, as well as a post-test for which standards have been taught. Additionally, performance levels are provided for each assessment so that progress from one school year to the next can be examined. Thus, Ohio LEAs can use the data gathered from the assessments administered in two separate instructional periods to provide information on teacher effectiveness.

The INSPECT® Formatives were designed to be an instructional support tool. For that reason, extensive effort went into developing the assessments;content experts focused on content accuracy, standard alignment, as well as overall difficulty and complexity of the items within the assessments. Our extensive development and review process ensures that the items on the assessments are free of bias and are accessible to all students.

Any LEA who licenses the INSPECT® Formatives will have access to our expansive INSPECT® Item Bank. INSPECT® is an innovative item bank with over 60,000 assessment items, over 37,000 of which were written for Ohio's New Learning Standards. Items are written by professional writers across the country. These items are all tightly aligned to rigorous curricular standards, range in complexity and difficulty, and reflect

the most likely cognitive disconnects in learning. Additionally, LEAs who use the INSPECT® Formatives will have access to our large bank of other assessments at no additional charge. This bank of assessments includes assessments on English language development, in addition to interim formative benchmarks.

The INSPECT® Formatives can be administered via paper-pencil or online. If utilizing the paper-pencil option, test booklets and answer sheets are printed locally and scanned into the computer using the scanning software provided by the assessment system. Scanning can be done locally at the school level or at the LEA office. Answer sheets can be also hand-scored using an interface within the assessment system. If the online assessment option is used, students can take assessments locally on the computer via the Internet through the assessment system. If using online administration, results are available immediately upon assessment completion.

A variety of analytic reports are available with use of the INSPECT® Formatives. Results for the assessments are available immediately. Results can be viewed at levels from broad to narrow (district-wide, classroom, to individual student results). Various filtering options are available within the reports including the capability to generate reports for a specific demographic. All reports are web-based and can be saved, printed, and shared.

Key Data Systems provides a comprehensive list of services to ensure schools and LEAs are armed with the resources they need to help students reach their academic goals. We support and serve as a resource to our clients by providing assessments, data, and information in usable and easy-to-understand formats that can directly impact instruction. With use of the assessments, comprehensive customer support will be provided. This includes training in use of and administration of the assessments, and analysis of results. Our trained staff will work directly with Ohio LEAs to identify specific needs in the areas of training and support and provide the necessary training and support for successful assessment administration and report analysis

Estimated Service Provider Costs (non-binding)	
Fixed costs over a given academic year.	The INSPECT® Formative System is priced at an annual, per student rate and does not incur any fixed costs.

<p>Per-student costs, over a given academic year, that are above the estimated fixed costs.</p>	<p>Key Data Systems provides the INSPECT® Formative System in an online environment. This allows districts to administer tests online or to control the printing of test booklets and answer documents. Answer documents are scanned locally and results uploaded to an online assessment management system. Student results are available immediately for review in a variety of reports. Remote training and support is provided for participating LEAs. The INSPECT® Formative System includes all assessments, features and reports for the annual, per student fee of \$6.00.</p>
<p>Time-and-materials costs that are limited to special services that are NOT required for standard administration during a given year (e.g., special professional development services at the start of a contract, standard setting if required, test augmentation if required, language translation fees for tests and supporting materials, including additional reporting options, any special options above the per student cost quoted above) and that are delineated on either a time-and-materials or a cost-per-service basis for each special service as well as any costs for data services and reports to aggregate data.</p>	<p>There are no special services required for standard assessment administration.</p> <p>Key Data Systems provides free of charge, remote system training and periodic review training. Onsite professional development is available by request from the district for an additional charge based on length of training and travel expenses.</p>

If approved as a provider of student assessments for teacher and/or principal evaluations, we are prepared to provide services to (Please indicate by clicking on the appropriate boxes below):

All Districts in the State of Ohio, or

Only to those eligible Districts indicated below:

Provide a link to a web based cost sheet/PDF for the assessments noted on Form C
