

CUSTOM SGM WEIGHTS

Custom weights are now available for **SLO/Other** and **Vendor Assessment** components for Principals and Teachers.

INSTRUCTIONS:

When SGM ratings are entered in eTPES, they are automatically weighted equally.

To enter custom weights, click on the **Custom Weights** checkbox. (Teacher Category C examples are shown below. Other Teacher categories and Principal categories are shown at the end of this document).

SGM Rating = Above Average

When using custom weights, note the following:

- Custom weights must be whole numbers between 1 and 99
- Custom weights must add up to 100
- Each rating entered must have a weight

If any of the above situations occur, a red error message will display above the SGM worksheet and the SGM Rating will not calculate (see below).

⚠ This worksheet cannot be scored until custom weights are valid. When using custom weights (1) those weights must be between 1 and 99 and add up to 100, (2) each scored rating must have a weight, and (3) weights can only be used on scored ratings.
