

## **Mentor Training Information**

## **Becoming a Certified Mentor**

Mentors are key to the success of Resident Educators. In Ohio's Resident Educator Program, districts assign a certified mentor to Resident Educators for each year of their residency. Mentors obtain certification by successfully completing Instructional Mentoring (IM) and Resident Educator-1 (RE-1), thus preparing them to plan effective collaborative professional development for their assigned Resident Educator(s).

The **required trainings** are described in the table below:

Required Training	Description
<b>Instructional Mentoring</b>	This one-day training introduces participants to mentoring
	in Ohio's Resident Educator Program, with particular
	emphasis on the Mentor/RE relationship.
Resident Educator-1	This one-day training introduces participants to first year
	curricular responsibilities and requirements of
	instructional mentors and Resident Educators in Ohio's
	Resident Educator Program.

<sup>\*</sup>Use "IM" or "RE-1" in the keyword search options in STARS.
