

Ohio Continuum of Teacher Development: A Resource Tool for Educators

Introduction

The *Ohio Continuum of Teacher Development* supports Ohio's educators as they develop the skills and knowledge necessary to provide the highest quality education to Ohio students. Based on the *Ohio Standards for the Teaching Profession*, the *Continuum* describes teachers' progress throughout the course of their careers.

Organization of the *Continuum*

The *Continuum* describes five cumulative levels of development, which correspond to the Proficient, Accomplished and Distinguished indicators in the *Ohio Standards for the Teaching Profession* and to the categories used in Ohio's Race to the Top application. These five levels of teacher development are:

- Emerging
- Developing
- Proficient
- Accomplished
- Distinguished

Uses of the *Continuum*

While the content of the *Continuum* can inform the design of performance weighting rubrics, the *Continuum* itself is not intended to be evaluative. The philosophy behind the *Continuum* is that teachers will continue to grow over the course of their careers with the assistance of a system that supports their growth and development.

In addition to serving as a tool for teachers, it is anticipated that the *Continuum* will do the following.

- assist higher education programs in developing the content and requirements of pre-service training and development;
- focus the goals and objectives of districts and schools as they support educators and seek to improve the profession;
- be used to plan and guide goal setting and professional development;
- serve as a tool in developing coaching and mentoring programs; and
- inform teacher residency programs and evaluation efforts at the state, district and local levels.

What the *Continuum* Means for Ohio's Teachers

Progress across the levels of the *Continuum* may not always occur at the same rate for all teachers; therefore, mastery of each level does not necessarily correlate with time on the job. Some teachers may progress through the levels of certain standards more quickly than others. Some teachers' mastery may decline on specific *Continuum* levels when they take on a new teaching responsibility or content area. With Ohio's support systems in place, however, all teachers can reach a level in their careers at which they effectively meet students' needs and provide high quality instruction for Ohio's students.

Use of the *Ohio Continuum of Teacher Development* can support Ohio educators and help create a world-class, standards-based education system in which all students achieve at the highest levels.

Overview of *Continuum* Levels

PRE-LICENSURE	RESIDENCY	TEACHING	TEACHING/LEADING	
EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
<p>This level describes the expected knowledge and skills of teacher education candidates who are completing their student teaching requirement and clinical experiences.</p> <p>These candidates are gaining the content knowledge and skills to become professional educators. They rely on other teachers for assistance and are learning to apply the knowledge from their coursework to classroom situations.</p> <p><u>Ohio License Alignment:</u> This level describes educators at the pre-licensure stage.</p>	<p>This level describes teachers whose skills are emerging.</p> <p>These skills and levels of knowledge likely describe resident educators at the beginning of their residency and in their first years of teaching. These teachers may still rely on more experienced colleagues for support but are moving towards independence and self-direction.</p> <p><u>Ohio License Alignment:</u> This level aligns with Ohio’s Resident Educator License (previously called the provisional license).</p>	<p>This level describes expectations for teachers who are applying their knowledge and skills independently in the classroom.</p> <p>These teachers are able to teach independently and consistently apply what they know about teaching to daily practice as their learning continues to evolve.</p> <p><u>Ohio License Alignment:</u> Licensed teachers are expected to meet or exceed this level; teachers will have reached this level by the end of their residency program. This level aligns with Ohio’s Five-Year Professional License. (Note that even though a teacher may maintain this license throughout his or her career, all teachers are expected to continue to grow across the <i>Continuum</i>.)</p>	<p>This level describes teachers who are fully skilled and able to integrate knowledge and experience in instruction, curriculum and professional development into practice.</p> <p><u>Ohio License Alignment:</u> Teachers at this level may choose to pursue Ohio’s Senior Professional Educator License.</p>	<p>This level describes teachers who are leaders. They consistently innovate in teaching and professional development. They contribute to their school, district and local communities through staff development, mentoring and classroom-based research. They may be National Board certified.</p> <p><u>Ohio License Alignment:</u> Teachers at this level may choose to pursue Ohio’s Lead Professional Educator License.</p>

Ohio Standards for the Teaching Profession

1. Teachers understand student learning and development and respect the diversity of the students they teach.

- Teachers display knowledge of how students learn and of the developmental characteristics of age groups.
- Teachers understand what students know and are able to do and use this knowledge to meet the needs of all students.
- Teachers expect that all students will achieve to their full potential.
- Teachers model respect for students' diverse cultures, language, skills, and experiences.
- Teachers recognize characteristics of gifted students, students with disabilities and at-risk students in order to assist in appropriate identification, instruction, and intervention.

2. Teachers know and understand the content area for which they have instructional responsibility.

- Teachers know the content they teach and use their knowledge of content-area concepts, assumptions and skills to plan instruction.
- Teachers understand and use content-specific instructional strategies to effectively teach the central concepts and skills of the discipline.
- Teachers understand school and district curriculum priorities and the Ohio academic content standards.
- Teachers understand the relationship of knowledge within the discipline to other content areas.
- Teachers connect content to relevant life experiences and career opportunities.

3. Teachers understand and use varied assessments to inform instruction, evaluate and ensure student learning.

- Teachers are knowledgeable about assessment types, their purposes and the data they generate.
- Teachers select, develop and use a variety of diagnostic, formative and summative assessments.

- Teachers analyze data to monitor student progress and learning, and to plan, differentiate and modify instruction.
- Teachers collaborate and communicate student progress with students, parents and colleagues.
- Teachers involve learners in self-assessment and goal setting to address gaps between performance and potential.

4. Teachers plan and deliver effective instruction that advances the learning of each individual student.

- Teachers align their instructional goals and activities with school and district priorities and Ohio's academic content standards.
- Teachers use information about students' learning and performance to plan and deliver instruction that will close the achievement gap.
- Teachers communicate clear learning goals and explicitly link learning activities to those defined goals.
- Teachers apply knowledge of how students think and learn to instructional design and delivery.
- Teachers differentiate instruction to support the learning needs of all students, including students identified as gifted, students with disabilities and at-risk students.
- Teachers create and select activities that are designed to help students develop as independent learners and complex problem-solvers.
- Teachers use resources effectively, including technology, to enhance student learning.

5. Teachers create learning environments that promote high levels of learning and achievement for all students.

- Teachers treat all students fairly and establish an environment that is respectful, supportive and caring.

- Teachers create an environment that is physically and emotionally safe.
- Teachers motivate students to work productively and assume responsibility for their own learning.
- Teachers create learning situations in which students work independently, collaboratively and/or as a whole class.
- Teachers maintain an environment that is conducive to learning for all students.

6. Teachers collaborate and communicate with students, parents, other educators, administrators and the community to support student learning.

- Teachers communicate clearly and effectively.
- Teachers share responsibility with parents and caregivers to support student learning, emotional and physical development and mental health.
- Teachers collaborate effectively with other teachers, administrators and school and district staff.
- Teachers collaborate effectively with the local community and community agencies, when and where appropriate, to promote a positive environment for student learning.

7. Teachers assume responsibility for professional growth, performance and involvement as an individual and as a member of a learning community.

- Teachers understand uphold and follow professional ethics, policies and legal codes of professional conduct.
- Teachers take responsibility for engaging in continuous, purposeful professional development.
- Teachers are agents of change who seek opportunities to positively impact teaching quality, school improvements and student achievement.

Standard 1: STUDENTS

Teachers understand student learning and development and respect the diversity of the students they teach.

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
Element 1.1	Knowledge of Human Development				
Teachers display knowledge of how students learn and of the developmental characteristics of age groups.	<p>Teachers demonstrate an understanding of research on human development (physical, social, emotional, cognitive, and linguistic).</p> <p>They demonstrate understanding that student development (physical, social, emotional, cognitive and linguistic) influences learning and plan instruction accordingly.</p>	<p>...and</p> <p>Teachers examine student development (physical, social, emotional, cognitive, and linguistic) to identify student readiness in order to design instruction.</p>	<p>...and</p> <p>Teachers demonstrate their knowledge of how learning occurs, understand how students acquire skills and develop disciplinary thinking processes, and create learning activities and select appropriate instructional strategies for students' ages, abilities and learning styles.</p>	<p>...and</p> <p>Teachers analyze individual and group performance in order to design instruction that meets a range of learner needs.</p>	<p>...and</p> <p>Teachers provide leadership to colleagues on utilizing research on cognitive, social and emotional development to establish differentiated goals that meet the needs of each student.</p>
Element 1.2	Understanding of Students' Knowledge and Skills				
Teachers understand what students know and are able to do and use this	Teachers identify instructional activities that reflect an understanding of students' abilities, talents, experiences,	<p>...and</p> <p>Teachers gather and use information about students' prior learning and abilities to plan and deliver</p>	<p>...and</p> <p>Teachers present concepts and principles at differentiated levels of complexity to reflect</p>	<p>...and</p> <p>Teachers prepare work tasks, schedule time for tasks and differentiate instruction as needed</p>	<p>...and</p> <p>Teachers lead colleagues in the analysis of student work and the design and implementation</p>

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
knowledge to meet the needs of all students.	and prior knowledge.	appropriate instruction.	varied levels of student knowledge and skills. They deliver instruction that demonstrates their understanding of how development in one area informs performance in other areas.	to accommodate student learning.	of responsive, differentiated strategies to assess individual student abilities, learning styles and needs.
Element 1.3	Understanding Expectations				
Teachers expect that all students will achieve to their full potential.	Teachers establish and clearly communicate high expectations for all students.	...and Teachers model a belief that all students can learn and persist in efforts to help all students achieve to their full potential.	...and Teachers set specific and challenging expectations for each individual student and each learning activity.	...and Teachers demonstrate their ability to influence student progress and persist in seeking approaches for students who have difficulty learning.	...and Teachers create challenging expectations for their students and assist other educators in their school and district in setting high expectations for all students.
Element 1.4	Respect for Diversity				
Teachers model respect for students' diverse cultures, language skills and	Teachers value and demonstrate knowledge of the interests and cultural heritage of groups of students.	...and Teachers build relationships with students by establishing and maintaining rapport	...and Teachers foster a classroom learning community in which individual differences and multiple	...and Teachers support student participation in creating and maintaining a respectful and	...and Teachers challenge disrespectful attitudes by modeling behavior for others and working to ensure that all

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
experiences.	<p>They respect individuals and individual differences.</p> <p>They access information about the values and norms of diverse cultures and communities.</p>	<p>and valuing each student as an individual.</p> <p>They avoid the use of bias, stereotypes and generalizations in their classrooms.</p>	<p>perspectives are respected.</p> <p>They respect and value the languages and dialects of their students and demonstrate an awareness of English Language Learners needs by incorporating instructional strategies and resources that support language acquisition.</p>	<p>responsible learning culture.</p> <p>They analyze their own cultural perspectives and biases and develop strategies to diminish the impact of those biases.</p> <p>They implement instructional strategies that support English Language Learners and the use of Standard English in speaking and writing in the classroom.</p>	<p>students are recognized and valued.</p>
Element 1.5	Ability to Meet All Students' Needs				
Teachers recognize characteristics of gifted students, students with disabilities and at-risk students in order to assist in appropriate identification,	Teachers demonstrate understanding of the needs of students with disabilities and gifted students by understanding laws and identifying appropriate strategies and resources to serve those students.	...and Teachers follow laws and policies regarding gifted students, students with disabilities and at-risk students and implement Individual Education Plans (IEPs) and Written Education Plans (WEPs).	...and Teachers adapt curriculum and instruction to meet the needs of those students whose performance is advanced or below level.	...and Teachers collaboratively develop and implement learning plans for gifted students, students with disabilities and at-risk students.	...and Teachers advocate within the school, district and the broader community to ensure that all students have access to all appropriate learning opportunities and resources.

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
instruction and intervention.		They identify and refer students for screening and assessment when appropriate.	They seek and use support from specialists and other sources of expertise to enhance student learning.		

Standard 2: CONTENT

Teachers know and understand the content area for which they have instructional responsibility.

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
Element 2.1	Knowledge of Content				
Teachers know the content they teach and use their knowledge of content-specific concepts, assumptions and skills to plan instruction.	Teachers demonstrate knowledge of the core concepts, facts, academic vocabulary, procedures and skills significant to the content they teach. They identify the need to link instruction with prior knowledge and future learning goals.	...and Teachers use their knowledge and understanding of content specific concepts, assumptions of learning, and skills in their planning and instruction. They apply their understanding of relevant research, principles, theories and debates significant to the content they teach.	...and Teachers seek out opportunities to enhance and extend their content knowledge. They utilize their understanding to link the developmental sequence of learning in their content area to current instruction with students' prior knowledge and future learning.	...and Teachers integrate different viewpoints, theories and processes of inquiry to guide their thinking and instructional planning. They plan and sequence instruction in ways that reflect an understanding of the prerequisite relationships among topics and concepts.	...and Teachers continue to deepen their knowledge of content through new learning and use it to support the growth of other educators.
Element 2.2	Use of Content-Specific Instructional Strategies				
Teachers understand and use content-specific instructional strategies to effectively teach the central	Teachers identify instructional strategies appropriate to their content areas.	... and Teachers develop instruction that includes content specific strategies that are supported by research.	... and Teachers demonstrate understanding of how students' conceptual frameworks and common misconceptions can	... and Teachers anticipate and adjust learning experiences to address common misconceptions of the discipline that impede learning.	...and Teachers evaluate instructional strategies to determine their accuracy and usefulness for presenting specific

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
concepts and skills of the discipline.			<p>influence learning.</p> <p>They engage students in generating knowledge and testing hypotheses according to the methods of inquiry and standards of evidence used in the content area.</p> <p>They use multiple representations and explanations of concepts that capture key ideas in the discipline.</p>	<p>They incorporate content-specific learning strategies to enable students to analyze, build and adapt new understandings.</p>	ideas and concepts.
Element 2.3	Knowledge and Use of Standards				
Teachers understand school and district curriculum priorities and the Ohio academic content standards.	Teachers articulate the important content and concepts in the Ohio academic content standards	<p>...and</p> <p>Teachers use multiple resources to develop plans aligned with the Ohio academic content standards.</p> <p>They demonstrate understanding of the important content, concepts and processes in the school or district</p>	<p>...and</p> <p>Teachers plan targeted instruction based on a prioritization of school and district curriculum priorities and the Ohio academic content standards.</p>	<p>...and</p> <p>Teachers collaborate with colleagues in using a wide range of materials and methods to plan and implement instructional activities that promote students' deep understanding of content and enable them to demonstrate</p>	<p>...and</p> <p>Teachers who serve in leadership roles study and evaluate advances in content and recommend changes to revise school and district curriculum.</p>

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
		curriculum priorities relevant to the grade level and content area(s).		the knowledge and skills embedded in state standards. They extend and enrich curriculum by integrating school and district curriculum priorities with Ohio's academic content standards and national content standards.	
Element 2.4 Teachers understand the relationship of knowledge within the discipline to other content areas.	Interdisciplinary				
	Teachers understand the importance of linking interdisciplinary experiences.	... and Teachers make relevant content connections between disciplines.	...and Teachers collaboratively construct interdisciplinary learning strategies that make connections between content areas.	...and Teachers design projects that require students to integrate knowledge and skills across several content areas.	...and Teachers lead collaborate efforts to share knowledge and model interdisciplinary instruction.
Element 2.5 Teachers connect content to relevant life experiences and career opportunities.	Real-Life Connections				
	Teachers understand the importance of linking content to real-life/real-world experiences.	...and Teachers engage students in applying disciplinary knowledge to real-life/real-world	...and Teachers use a variety of resources to enable students to experience, connect and practice real-	...and Teachers design innovative learning activities that replicate real-life/real-world and	...and Teachers model for other educators the integration of content –area classroom experiences with real-

		problems.	life/real-world and career applications, through activities such as solving real-world problems and participating in service learning.	workplace activities.	life/real-world and workplace situations.

Standard 3: ASSESSMENT

Teachers understand and use varied assessments to inform instruction, evaluate and ensure student learning.

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
Element 3.1 Teachers are knowledgeable about assessment types, their purposes and the data they generate.	Knowledge of Assessment				
	Teachers demonstrate an understanding that assessment is a means of evaluating student learning and is essential to effective instruction.	... and Teachers apply an understanding of the characteristics, uses and limitations of various types of diagnostic, formative and summative assessments.	... and Teachers demonstrate an understanding of reasons for selecting and integrating varied assessment types into the instructional cycle.	... and Teachers demonstrate an understanding of assessment-related issues (validity, reliability, bias, consistency and scoring) when using assessments and their resulting data.	... and Teachers serve as building and district leaders in establishing and evaluating district and state assessment programs.
Element 3.2 Teachers select, develop and use a variety of diagnostic, formative and summative assessments.	Use of Varied Assessments				
	Teachers are aware of the importance of aligning classroom assessments with curriculum and instruction and use a variety of diagnostic, formative and summative assessments.	... and Teachers align classroom assessments with curriculum and instruction. They use a variety of formal and informal assessment techniques (observations, questioning, technology based, and curriculum-based	... and Teachers purposely plan and differentiate assessments (by modifying assessments and/or testing conditions) to meet the full range of student needs, abilities and learning styles for all students.	... and Teachers select and develop assessments using a variety of tools including technology, to identify individual student strengths, promote student growth and maximize access to learning opportunities. They collaboratively seek innovative ways to employ and select	... and Teachers work with other educators to design and revise assessment policies and procedures as appropriate. They enhance other educators' knowledge of best practices in assessment.

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
		assessment) to collect evidence of students' knowledge and skills.		technology to support assessment practice.	
Element 3.3	Analysis of Assessment Data				
Teachers analyze data to monitor student progress and learning, and to plan, differentiate and modify instruction.	Teachers understand the importance of and demonstrate ability to utilize assessment data to identify students' strengths and needs, and modify instruction.	<p>... and Teachers use data to monitor student progress toward achievement of school and district curriculum priorities and the Ohio academic content standards.</p> <p>They maintain accurate and complete assessment records as needed for data-based decision making.</p>	<p>... and Teachers interpret data and use this analysis to differentiate learning for and tailor instructional goals to individual students.</p> <p>They examine classroom assessment results to reveal trends and patterns in individual and group progress and to anticipate potential learning obstacles.</p>	<p>... and Teachers work independently and collaboratively to use student assessment results to reflect on their own impact on student learning and appropriately modify their instruction.</p>	<p>... and Teachers promote the use of student data to inform curriculum design.</p> <p>They lead efforts promoting the use of student data to implement targeted strategies for instruction.</p>
Element 3.4	Communication of Assessment Results				
Teachers collaborate and communicate student progress with students, parents and colleagues.	Teachers understand that students' progress must be shared with students, parents, caregivers and colleagues.	<p>... and Teachers identify learning standards, align assessment criteria and communicate these clearly to students.</p> <p>They provide substantive, specific</p>	<p>... and Teachers use a variety of means to communicate student learning and achievement.</p>	<p>... and Teachers design and share resources to communicate with students and parents to facilitate their understanding of student learning and progress.</p>	<p>... and Teachers lead collaborative efforts to create common assessments among grade-level and/or content-area teachers, and share assessment results with colleagues to plan instruction</p>

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
		and timely feedback of student progress to students, parents and other school personnel while maintaining confidentiality.			that will best meet individual student needs.
Element 3.5 Teachers involve learners in self-assessment and goal setting to address gaps between performance and potential.	Integration of Self-Assessment				
	Teachers practice using strategies for students' to self-assess their learning and set goals.	... and Teachers provide students with opportunities to self-assess and articulate the knowledge and skills they have gained.	... and Teachers prepare student self-assessment tools and strategies, regularly monitor their use and monitor student goal-setting.	... and Teachers organize opportunities for students to articulate how they learn and what learning strategies are most effective for them. They create a learning environment in which students develop their own self-improvement plans and measure their own progress.	... and Teachers support the improvement of colleagues' abilities to facilitate student self-assessment and goal setting.

Standard 4: INSTRUCTION

Teachers plan and deliver effective instruction that advances the learning of each individual student.

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
Element 4.1 Teachers align their instructional goals and activities with school and district priorities and Ohio’s academic content standards.	Alignment of Standards and Instruction				
	Teachers understand the Ohio academic content standards and the importance of aligning instruction with standards.	...and Teachers purposefully select learning experiences with clearly defined goals that align with school and district curriculum priorities and state academic content standards.	...and Teachers select, prioritize, sequence and group concepts and processes to provide a continuous, articulated curriculum aligned with school and district priorities and state academic content standards.	..and Teachers work with colleagues to prioritize, develop and implement school and district curriculum initiatives focused on improving student performance and closing the achievement gap.	...and Teachers work in concert with other educators to revise and improve district, region and state curriculum priorities.
Element 4.2 Teachers use information about students’ learning and performance to plan and deliver instruction that will close the achievement gap.	Instruction Based on Student Needs				
	Teachers demonstrate an understanding of the importance of using performance data to plan appropriate instruction.	...and Teachers use pre-assessment data and information they have gathered about students’ learning needs and performance to develop appropriate learning activities.	...and Teachers adjust instruction based on student learning and development (physical, social, emotional, cognitive, and linguistic) level They identify how individual experience, talents and prior learning as well as language, culture and family influence	...and Teachers monitor the performance gaps of students within their classrooms and develop interventions that close those gaps. They make curriculum and instructional decisions that respond to the immediate teaching context and student needs.	..and Teachers reflect critically on their own and others’ instructional practices to make appropriate curriculum and instructional decisions based on the teaching context and student needs.

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
			student learning and plan instruction accordingly.		
Element 4.3	Communication of Learning Goals				
Teachers communicate clear learning goals and explicitly link learning activities to those defined goals.	Teachers clearly communicate learning goals to students.	...and Teachers set goals, plan appropriate activities and clearly communicate these to students.	...and Teachers establish and communicate challenging individual learning goals based on the needs of each student.	...and Teachers create instructional environments where students actively and independently set, articulate and internalize learning goals.	...and Teachers empower students to independently define short- and long-term learning goals and monitor their personal progress.
Element 4.4	Instruction for Learning				
Teachers apply knowledge of how students think and learn to instructional design and delivery.	Teachers understand the cognitive processes associated with learning, and use this understanding to plan instruction.	...and Teachers use research-based instructional strategies. They implement instructional activities that are sequenced to help students acquire concepts and skills of the discipline.	...and Teachers articulate a logical and appropriate rationale for the sequence of learning activities. They link the content of each learning activity to the content of previous and future learning experiences and provide scaffolds for students' next levels of development.	...and Teachers prepare learning activities with clear structures that allow for content review, student reflection and different pathways, depending on student needs.	...and Teachers lead colleagues in the design and implementation of research-based strategies to teach students new knowledge and skills.
Element 4.5	Differentiated Instruction				
Teachers differentiate	Teachers identify strategies for	...and Teachers gather and	...and Teachers recognize	...and Teachers and students	...and Teachers lead

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
instruction to support the learning needs of all students, including students identified as gifted, students with disabilities and at-risk students.	differentiated instruction.	use student data to choose appropriate instructional strategies for groups of students They use appropriate and flexible grouping during instruction to support the learning needs of all students.	that the scope and sequence of learning activities must be differentiated to meet the needs of all students. They differentiate instruction to meet individual student’s learning needs. They appropriately adapt instructional methods and materials and pace learning activities to meet the needs of individual students. They incorporate tools of language development into planning and instruction for English language learners.	create and use innovative methods, strategies and materials to accomplish individual learning goals. They provide varied options for how students will demonstrate mastery.	colleagues in analysis of student work and/or performances to design responsive and differentiated instructional activities that meet individual student needs and ensure success. They create professional development opportunities for colleagues to study research-based methodologies and design materials that support students’ individual learning needs.
Element 4.6	Instruction for Independence				
Teachers create and select activities that are designed to help students	Teachers understand the cognitive processes associated with various kinds and levels of learning (e.g.,	...and Teachers choose learning activities that support the development of	...and Teachers employ effective, purposeful questioning techniques that	...and Teachers provide complex, creative, open-ended learning opportunities for	...and Teachers lead colleagues in analyzing and implementing innovative

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
develop as independent learners and complex problem-solvers.	taxonomies of learning) to develop independent learners.	students' cognitive abilities.	promote critical thinking during instruction. They help students develop high-level questioning skills that promote critical thinking and independent learning.	students. They encourage students' critical thinking by asking challenging questions about disciplinary content.	instructional methods within and across disciplines.
Element 4.7 Teachers use resources effectively, including technology, to enhance student learning.	Use of Resources				
	Teachers use resources and technology appropriate to their disciplines.	...and Teachers access appropriate materials, services, and resources, including human and technological resources, to support instructional goals and meet students' needs. They support student use of technology.	...and Teachers select and prioritize teaching resources and curriculum materials for their comprehensiveness, accuracy and usefulness in representing particular ideas and concepts and for meeting individual student's needs. They develop students' abilities to access, evaluate and use technology.	...and Teachers work collaboratively to create and select varied instructional materials, including interactive technology, to engage students (locally and globally) to meet their individual learning needs.	...and Teachers initiate research efforts with colleagues to identify, select and modify resources that ensure success for each student. They assist their colleagues in understanding and integrating technology into instruction.

Standard 5: LEARNING ENVIRONMENT

Teachers create learning environments that promote high levels of learning and achievement for all students.

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
Element 5.1 Teachers treat all students fairly and establish an environment that is respectful, supportive and caring.	Development of a Respectful Learning Environment				
	Teachers demonstrate caring and respect in their interactions with all students. They acknowledge incidents of unfairness and disrespect.	..and Teachers use strategies to promote positive relationships, cooperation and collaboration among students. They develop and teach expectations for respectful interactions to students. They use specific strategies to respond to unfairness and/or disrespect.	...and Teachers collaborate with students to develop shared values and expectations for respectful interactions, and individual and group responsibility to create a positive learning climate of mutual respect, support and care.	...and Teachers foster students' participation in creating and maintaining a fair and respectful school climate; support students in developing skills to understand varied perspectives; and respond to inequity and disrespect.	...and. Teachers model expectations and behaviors that create a positive school and district climate of respect, support and caring.
Element 5.2 Teachers create an environment that is physically and emotionally safe.	Development of a Safe Learning Environment				
	Teachers maintain established rules for classroom management. They acknowledge and reinforce positive	...and Teachers provide a safe learning environment that accommodates all students.	...and Teachers make decisions and adjustments that support positive behavior, enhance social behavior and	...and Teachers work with colleagues to establish common expectations for student behavior that promote a supportive and caring	...and Teachers create classrooms in which students take active roles in maintaining an enriching environment that is conducive to

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
	behavior and respond appropriately to disruptive behavior within or outside the classroom.	<p>They clarify standards of conduct for all students and communicate clear age-appropriate expectations for behavior within and outside the classroom.</p> <p>They use a variety of strategies to respond to appropriate and inappropriate behavior.</p>	increase student motivation and engagement.	<p>school climate.</p> <p>They consistently, effectively and respectfully anticipate and respond to the behavior of students.</p>	<p>learning.</p> <p>They advocate for school-wide improvements in organizational and management systems that equitably reinforce expectations and consequences.</p> <p>They collect and analyze data on student behaviors to inform decisions that will strengthen the learning environment.</p>
Element 5.3	Development of Students' Personal Responsibility				
Teachers motivate students to work productively and assume responsibility for their own learning.	Teachers identify strategies to increase student motivation and interest in topics of study.	<p>...and</p> <p>Teachers use strategies to engage students and foster curiosity about their learning.</p> <p>They encourage students to share in responsibility for their own learning and establish methods for recognition of</p>	<p>...and</p> <p>Teachers encourage self-directed learning by motivating, engaging and teaching students specific skills essential to self-directed learning (such as outlining tasks and defining short- and long-term timelines).</p>	<p>...and</p> <p>Teachers vary their roles in the instructional process (instructor, facilitator and coach) based on the content, focus of learning and student needs.</p>	<p>...and</p> <p>Teachers collaborate with other educators to support the design of independent learning experiences for students, such as service-learning activities and cooperative learning groups.</p> <p>They engage students</p>

Ohio Continuum of Teacher Development

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
		students either individually or in groups.	They establish methods for recognition of students and relate recognition to specific student achievement, either individually or in groups.		in extending learning through goal-setting based on their curiosity and motivation
Element 5.4 Teachers create learning situations in which students work independently, collaboratively and/or as a whole class.	Development of a Collaborative Learning Environment				
	Teachers can articulate reasons for having students work independently, collaboratively and as a whole group. They recognize the importance of peer relationships in establishing climate of learning.	...and Teachers use flexible learning situations, such as independent, small group and whole class.	...and Teachers articulate a rationale and develop guidelines for using specific learning models, such as cooperative learning, inquiry learning, self-directed or project-based learning. They engage students in opportunities to independently practice and reflect on new concepts and skills.	...and Teachers vary their roles in the instructional process as instructor, facilitator, coach and audience. They employ cooperative learning activities, and help students develop specific skills and strategies for working productively and cooperatively in project teams.	...and Teachers create environments where students initiate purposeful learning groups and take responsibility for the group's productivity. They model and assist other teachers in implementing a variety of flexible learning situations.

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
Element 5.5 Teachers maintain an environment that is conducive to learning.	Development of an Environment Conducive to Learning				
	Teachers understand that an ordered and structured environment is conducive to learning.	<p>...and</p> Teachers transition between learning activities and use instructional time effectively. <p>They begin class purposefully, with assignments, activities, materials and supplies ready for students when they arrive.</p>	<p>...and</p> Teachers organize, allocate, and manage the resources of time, space, and attention to actively and equitably engage students in learning. <p>They maximize instructional time (purposefully and effectively begin class, introduce activities, maintain focus and transition between activities).</p> <p>They collaborate with students to set and monitor classroom norms, expectations, and routines to assure access for all students.</p>	<p>...and</p> They use a variety of methods to engage students in evaluating the learning environment and reviewing classroom routines and they collaborate with students to make appropriate adjustments.	<p>...and</p> Teachers lead colleagues in the design and implementation of research-based strategies that promote positive and focused environments for learning at the classroom and school levels. <p>They influence the establishment of district-wide policies to maximize the amount of class time spent learning (such as daily scheduling, district calendar, textbooks and technology enhancements).</p>

Standard 6: COLLABORATION AND COMMUNICATION

Teachers collaborate and communicate with students, parents, other educators, administrators and the community to support student learning.

	EMERGING	DEVELOPING	PROFICIENT	ACCOMPLISHED	DISTINGUISHED
Element 6.1	Communication Skills				
Teachers communicate clearly and effectively.	<p>Teachers use clear, correct spoken and written language, and use age-appropriate language when speaking with students.</p> <p>They listen and ask questions for clarification.</p>	<p>...and</p> <p>Teachers use effective communication strategies (such as adjusting language for audience), ask questions and stimulate classroom discussion.</p> <p>They communicate in ways that demonstrate respect for, acknowledgement of, and responsiveness to the cultural backgrounds and modes of communication of students and families.</p>	<p>...and</p> <p>Teachers listen and respond to speakers using communication strategies that may include paraphrasing to ensure understanding, questioning for clarification, extending an idea for further discussion or suggesting additional viewpoints or possibilities to be considered.</p>	<p>...and</p> <p>Teachers tailor communications to the specific setting, purpose and audience.</p> <p>They employ a range of communication tools, including technology and media tools, to maximize communication.</p> <p>They model an array of communication strategies that promote inquiry and engagement.</p>	<p>...and</p> <p>Teachers model effective verbal, non verbal and media communication techniques and support positive changes in colleagues' communication abilities and styles.</p>
Element 6.2	Communication with Families				
Teachers share responsibility with parents	<p>Teachers understand the importance of communication with families and caregivers.</p>	<p>...and</p> <p>Teachers use a variety of strategies to communicate with parents and caregivers</p>	<p>...and</p> <p>Teachers offer a variety of volunteer opportunities and activities for families</p>	<p>...and</p> <p>Teachers communicate and provide appropriate techniques and</p>	<p>...and</p> <p>Teachers model and provide guidance to colleagues in the creation of classroom,</p>
