

Career-Technical Education Secure Data Center Reports

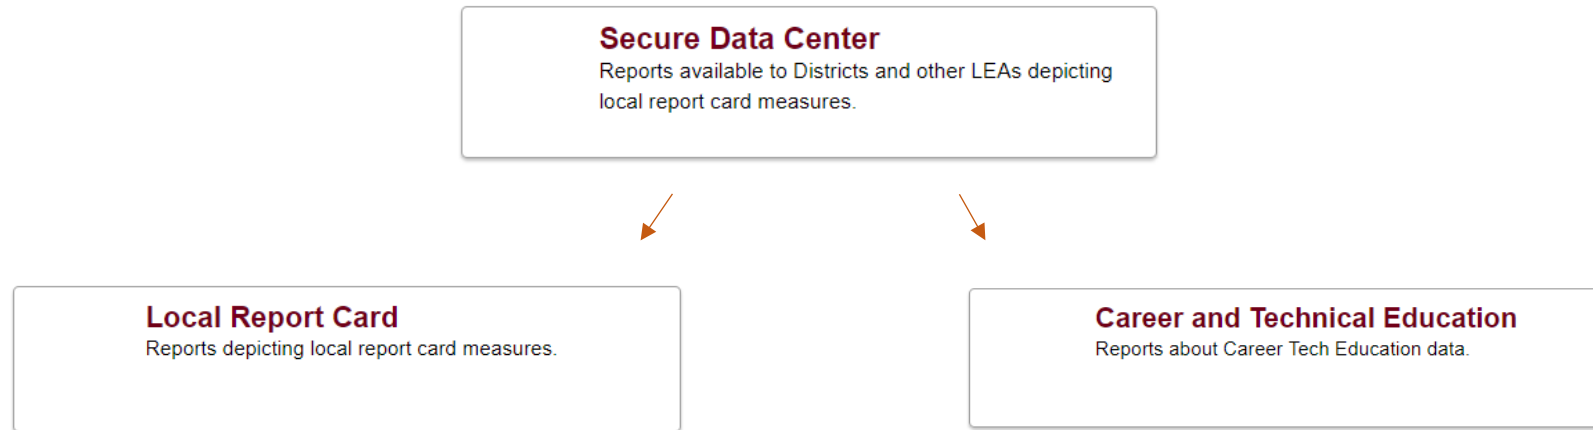

Starting in 2021, the Ohio Department of Education began developing and publishing reports within the Ohio Department of Education's Secure Data Center (SDC) to support the Career-Technical Education Report Card. Many reports that were previously published in the Data Collector have been replaced by Secure Data Center reports. These reports contain detailed data for the measures and components of the Career-Technical Education Report Card and should be used to monitor EMIS reporting and performance on CTE accountability measures.

Where is the Secure Data Center?

The Secure Data Center is an OH|ID application located within the Report Portal tile on the OH|ID website.

The Ohio Department of Education has developed both Career-Technical Planning District (CTPD) and CTPD Member District Reports. Secure Data Center reports focusing on Career-Technical Education are available within the Career and Technical Education and Local Report Card tiles of the Secure Data Center.

Who has access to the Secure Data Center?

Staff with one of the following roles in the Ohio Educational Directory System (OEDS) have access to the Secure Data Center:

- Superintendent
- Superintendent Designee
- Secure Data Center - Standard Level Access
- Secure Data Center - Student Level Access (Available only to member districts that are traditional public districts, Community or STEM schools)

Staff assigned one or more of the roles above at the CTPD IRN would have access to CTPD-level reports. Staff assigned one or more of the roles above at a member district, including the CTPD lead district, would have access only to the member district reports for their respective district. Staff assigned Secure Data Center roles in both the CTPD, and a member district would have access to both the CTPD and their

respective district reports. The staff member will be required to select an organization when they log into their account and will then see reports specific to that organization.

What CTPD Report Card Reports does the Department publish, and where?

Reports focused on the Career Technical Education Report Card are listed below. The list only contains reports related to the CTE report card and should not be considered an exhaustive list of CTE Reports published by the Department.

Report Card Component/Measure	Report Location
Overall Grade	Secure Data Center >> Local Report Card >> CTPD Local Report Card

*Secure Data Center Report is currently in development and anticipated to be published prior to the 2022 Local Report Card Release. Should development not be completed reports will be released in the Data Collector.

FAQs:

- **How do I get an OH|ID account?**

Additional information on OH|ID accounts can be found on the [OH|ID Portal Help site](#).

- **How do I obtain a role with Secure Data Center access?**

District staff who are interested in gaining access to the Secure Data Center should work with their organization's OEDS Organization Administrator.

- **Where can I find file descriptions for reports published in the Data Collector?**

File descriptions can be found on the [EMIS Documentation website](#).

- **Where can I find more information on the status of Secure Data Center reports?**

The status of Secure Data Center Reports can be found on the [EMIS Documentation website](#).

- **Where can I find documentation on CTE Report Card measures?**

The Department publishes report card documentation annually on the [Report Card Resources Website](#).

- **Who do I contact with questions about CTE Secure Data Center reports or reports in the Data Collector?**

Please contact the Department's CTE data managers for questions related to CTE reports:
