

FY2026 Community Schools at Risk for Closure List

*** ORC 3314.35 and 3314.351 require closure of community schools once a school meets closure criteria for three consecutive years. HB 206 (December 2024) provides an exemption from closure requirements for the 2024-2025 school year for any community school that meets established closure criteria but, for any of the 2022-2023, 2023-2024, or 2024-2025 school years, receives a performance index score on its report card within five points below the score required to receive two stars on its achievement rating. Schools marked with an asterisk that met closure criteria for three consecutive years are currently exempt from closure.**
