Revision History

The revisions to this document listed in the table below.

Revision Date	Owner/Source	Description of Change
7/31/2006		This document was created from an existing explanation of file types reported in each period, a report sample, and the code of the COBOL program; valid for FY07 October (K) reporting period
5/23/2007		Revised to reflect Yearend (N) reporting period.
6/14/2007	IPM/McKeand	Revised to removed white spaces, revised revision dates, updated Index and Table of Organization
10/1/2008	IPM/Esson	Revised to include new file types in Appendix A
4/10/2009	IPM/Esson	Revised to include G reporting period, add/delete others
11/3/2009	IPM/McKeand	Revised deleting February (C) reporting period
12/1/2009	IPM/Esson	Revised to include new file types in Appendix A
8/20/2010	IPM/Esson	Revised to include new file types in Appendix A, delete reporting periods no longer in effect

Report Overview

General Description and Significance

This report gives a district information about the files it submits to ODE. It supplies information about the processing results, explaining which files were processed fully, which were rejected because of fatal errors, or which ones had warnings that could be corrected to improve the district's data quality.

This report supplements the "General Submission Status Report", better defining the error conditions that would prevent entire files or individual records from being accepted by ODE.

The report is generated during all reporting periods. A report is sent to the district via its contracted ITC each week that the district submits data to ODE.

Tips for Reading This Document

- EMIS data elements are written in **SMALL CAPITAL LETTERS**.
- Report field names are written in **BOLD SMALL CAPITAL LETTERS**.
- Options (values) for each data element are indicated in *ITALICIZED CAPITAL LETTERS* and are enclosed in quotation marks.
- Record names are displayed in *italicized bold letters*.

C:\Users\10184100\Downloads\GEN-DATA-STAT.doc
Revision Date August 20, 2010

- File names are displayed in **CAPITALIZED BOLD LETTERS**.
- CCYYP denotes the century and year and processing period.

Report Name and Timing

The file name for the report is:

ITC_IRN_COORD_CCYYMMDD.TXT_CCYYX_GEN_DATA_STAT; its components are described below.

This report is produced during every reporting period.

ODE Processing

Process Description

This report is generated each time a district submits data to ODE during any EMIS reporting period. The aggregation and data errors are captured in the weekly EMIS process and written to a file that becomes the basis for this report.

Data Source

The data elements as submitted by a district will only appear on the report:

- To provide an example of a single record in a file that was successfully transmitted to ODE
- If there is an error associated with the record, the replication of the record allows the district to find and correct the errors described on the report.

During the process that moves the district's data to ODE files, a **BAD_DATA** file is created that keeps track of error conditions and data that caused those errors. That **BAD_DATA** file is used to generate the "Data Status Report".

Submitted Data Used in Report

Data submitted by the district are moved to an intermittent file, **BAD_DATA**, when applicable, and written to the report. The data below are specific elements used this way.

C:\Users\10184100\Downloads\GEN-DATA-STAT.doc
Revision Date August 20, 2010

Element Name	Record Field #	File Name	Special Notes
DISTRICT IRN	Depends on file	Varies	From submitted file Header Record
BUILDING IRN	Depends on file	Varies	
Record as submitted on district file	Depends on file	Varies	Copied from submitted file, printed on report as needed

Derived Data Used in Report

These data are created during the processing cycle, either during the aggregations or as the data are converted to ODE files.

Element Name	File Name	Field Value	Conversion factors
ERROR REASON	<i>Bad_data</i>	"01" – "33"	Result of problem when creating ODE files; converts to report error message
RECORD NUMBER	<i>Bad_data</i>	Number of line on district's file	Reported with record to allow district to determine the line in error
FILE DATE	<i>Bad_data</i>	CCYYMMDD	Date of processing cycle
REPORT PERIOD	<i>Bad_data</i>	Letter of reporting period, e.g. "K", "N"	From header record of district file
SRT/SUB TYPE	<i>Bad_data</i>	Proper file type, e.g. "CI", "ASSG"	From district file's aggregated records
ATTENDING/HOME IRN	<i>Bad_data</i>	Valid IRN, 6-digits	Depending on sort/sub type, may not be applicable
ATTENDING/HOME STATUS	<i>Bad_data</i>	Two-character code	Derived during the aggregations from STUDENT STATUS and ATTENDING/HOME INDICATOR

Report Selection Criteria

The program reads the **BAD_DATA** file and excludes only those records that have a **BAD_DATA_ERROR** of "21", wrong processing period. All other records are used, pulling the records from **BAD_DATA** by **DISTRICT IRN**.

Report Sample

Header Information

The first area of the header describes information about the report generation. The upper left section names the program from which the report was generated and the date of processing. The middle information identifies the report title. The upper right section states the date on which the report was generated and the page number of the report.

The second area of the header pertains to the recipient of the report. It identifies the district for which the report was produced, its IRN and COUNTY.

C:\Users\10184100\Downloads\GEN-DATA-STAT.doc
Revision Date August 20, 2010

That is followed by column headers indicating the data described on each detail line.

Detail Information

The first line of data on the report (after headings) gives the

- **RECORD #** which record of the file is printed
- **IRN OF DISTRICT reporting** valid district IRN, should match report header
- **SCHOOL BUILDING IRN** printed only when applicable to report's message
- **FILE DATE** when data was aggregated
- **REPORT PERIOD** period when data are submitted
- **SORT/SUB TYPE** see [Appendix A](#) for types for each reporting period
- **STATUS MESSAGE** see [Report Messages](#) for possible text values

The second line is an actual dump of the first 132 characters of the 1st data record from the file submitted. The 9th and 10th positions are the Sort Type which designates the type of data reported. The Sort Type is also listed under the heading SRT/SUB.

[Appendix A](#) is a listing of the sort/sub types required for each reporting period which will assist in determining what type of data is in error.

In the case of substituting a District IRN for an Invalid School IRN - this is done only on Staff Job Records (CK), since the teacher is employed by the district.

If possible, IRNs should be corrected to reflect an IRN valid for the Reporting District. However, if the reporting district submits staff job data using an IRN not valid for their district, this substitution is made. In the case of all other data, the building IRN reported must be valid for the Reporting District or the data is rejected.

Error Detection and Correction

Depending on the message provided on each line of the report, district personnel can take corrective action as necessary.

Any message that starts with “Processed New” indicates that the data were successfully processed and have been added to the ODE files. Reports provided during the processing cycle should then be checked to verify that the results are as anticipated.

If there are any other messages besides those indicating acceptance of the data, district personnel should verify the values of the records displayed on the report.

REPORT-MESSAGES.

Error #	Reason	Possible Corrective Action
15	** Bad Sort Type for Reporting Period - File Not Processed	Check the sort type, usually positions 9-10.
08	** Closed District IRN - Record Rejected	Check data entry of IRN, if correct, check OEDS status
12	** Closed School IRN - Record Rejected	Check data entry of IRN, if correct, check OEDS status
10	** Dist IRN Not = Dist IRN on Header Rec - Record Rejected	A record in the file does not have a matching district IRN, check data entry
17	** Invalid Attend/Home IRN - Record Rejected	The IRN in this field is not valid, not assigned to any district, check data entry
07	** Invalid District IRN - Record Rejected	The IRN in this field is not valid, not assigned to any district, check data entry
09	** Invalid District Type - Data Rejected	District type must be a valid OEDS type, check data entry
25	** Invalid or Closed Attend/Home IRN - Record Rejected	Check IRN, check OEDS status
23	** Invalid or Closed Cnty Brd Provider IRN - Record Rejected	Check IRN, check OEDS status
24	** Invalid or Closed Location IRN - Record Rejected	Check IRN, check OEDS status
26	** Invalid or Closed Majority of Attend IRN - Rec Rejected	Check IRN, check OEDS status
27	** Invalid or Closed OPU IRN - Record Rejected	Check IRN, check OEDS status
16	** Invalid or Closed Resident Dist IRN - Record Rejected	Check IRN, check OEDS status
11	** Invalid School IRN - Record Rejected	Check IRN, check OEDS status
22	** Invalid Sort/Sub Type for Period/FY - File Not Processed	See Appendix A for types by reporting period
02	** No Header Record - Data Not	Verify that header record exists and all data

C:\Users\10184100\Downloads\GEN-DATA-STAT.doc
Revised on Month DD, 20YY

	Processed	are correctly entered
14	** No Trailer Record - File Not Processed	Verify that the file does have a trailer record and that all elements are entered correctly
13	** School IRN Invalid for District - Record Rejected	Check IRN, must be one within this district
29	** SIGNED OFF ON LATEST DATA SUBMITTED - FILE IGNORED	Data no longer needed since district declared data as submitted is correct
03	** Trailer Rec Problem - Data Not Processed	Verify that the trailer record exists and all data are correctly entered
21	** Wrong Fiscal Year for Process - File Not Processed	Check data entry of fiscal year, positions 12-15 on the records
28	** WRONG VERSION Used - Data Rejected	Check data entry on version, verify with ITC that version is correct
30	**File contained no data records - Header & Trailer Only	Determine cause of empty file and recreate
31	CLOSED REPORTING PERIOD - DATA NOT PROCESSED	Check data entry of reporting period, position 16 on records
19	Closed School IRN - Replaced with District IRN	Check data entry of IRN, OEDS status
01	File Ignored - Newer Data Already Processed	Check date on file
18	Invalid School IRN - Replaced with District IRN	Check data entry of IRN, OEDS status
06	Processed New Aggregate Student Data	None needed, records successfully processed
05	Processed New Financial/District Data	None needed, records successfully processed
04	Processed New Staff Data	None needed
33	PROCESSED READING FIRST - TERRA NOVA	None needed
32	PROCESSED READING FIRST DATA	None needed
20	School IRN Invalid for District - Replaced with Dist IRN	Check data entry of IRN, OEDS status
